Sir,-

I have to inform you that His Lordship the Bishop of Saskatchewan has arranged with the Department of Education for the Province of Manitoba for the attendance and tuition of the Indian children of the Moose Lake Reserve at the Moose Lake white school. A competent teacher has been secured to begin duties after the summer holidays. This Department is allowing a tuition grant at the rate of $20.00 per capita, per annum, based on the average attendance as shown by returns which should be prepared by the teacher at the end of each quarter and forwarded by you for transmission to the Department.

You should, upon the occasion of your next visit to Moose Lake, encourage the Indian parents to take advantage of the facilities offered for theeducation of their children. It is hoped that there will be a regular attandance of the children of school age. The teacher should include on the quarterly returns for submission to this Department only the names of Indian children. When forwarding these returns, please state the name of the Secretary-Treasurer of the school board to whom cheques in payment for the tuition grant should be sent. We have informed His Lordship of the tuition grant that will be allowed for the Indian children.

Dear Sir,- Re. Moose Lake School District #1698

I have y ur favour of the 9th instant advising that you have been informed by His Lordship the Bishop of Saskatchewan that Moose Lake School District No. 1698 will have its school in operation from September 1st next. I do not know where his Lordship got this information or why he is specially concerning himself in the matter. The school is in operation now and has been in operation for several years past. We have agreed to work in conjunction with the diocese if a qualified teacher is furnished but thus far they have not been able to recommend a teacher to us.

We are glad to note that your Department is prepared to make a tuition grant of $20.00 per capita per annum, based on the average attendance, for any Indian children that attend the school. It may be possible to secure the attendance of some children whose parents do not wish them to go to the residential Indian schools.

Yours truly,

Sir;-

I have the honor to enclose return for March quarter 1925 from the teacher of the Day School at Moose Lake.

The salary allowed him by the Manitoba Government is half that paid other teachers, and the grant from the Department I think should be paid direct to Mr. Waite. When the school was reopened I understood that the Manitoba Government was to pay his full salary and to receive our grant back into their funds, however this was not correct. The Manitoba Government are in favor of allowing the teacher to receive our grant.

Sir,—

In reference to the Combined White and Indian Day School at Moose Lake, Man., I beg to state that the teacher Rev. Mr. Waite moved away to another district last summer.

A Rev. Mr. Parker has been appointed as Missionary at Moose Lake, his wife who is a teacher having been appointed by the Manitoba Governmant to be the teacher of the above scho l.

Up to time of writing no appointment has been received from the Department for Mrs. Parker to teach the Indian children, though His Lordship Bishop Lloyd told her he would recommend her I am informed. Mrs. Parker has taught the Indian children during September and I enclose a report she handed to me, it can be dealt with as Department decides. I also enclose requisition for school material for this school.

Ottawa, April 4th, 1929.

Sir:

I have your letter of the 26th ultimo, informing the Department that, owing to sickness, the combined white and Indian school at Moose Lake has not been in operation during the quarter ended March 31st, last, also that the teacher has obtained permission from the Department of Education, Winnipeg, to take leave of absence to May 31st, next.

With reference to the deduction by the Church authorities of the amount of salary paid Mrs. Parker from that of her husband's salary, who is missionary on the Reserve, I have to say that this Department does not feel that it can take any action in this matter. The appointment of the teacher is made by the provincial authorities, and this Department only allows a grant based on the average attendance. The question of placing any Indian children of school age in residential schools would receive favourable consideration if the present arrangements for the carrying on of the combined day school are unsatisfactory.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Sir:

I have your letter of the 2nd instant, stating the number of Indian, white and half-breed children attending the Moose Lake combined white and Indian day school.

In this connection I have to say that, in view of the attendance of Indian children, this Department has decided to increase the grant allowed to $35 per teaching month from the 1st of April, next, the beginning of the new fiscal year. The Anglican Church authorities, who are interested in the work at this school, have been informed.

Sir:

I have to inform you that His Lordship the Bishop of Brandon has nominated the services of Mr. Harold Newton to succeed Mr. Lumb, who has resigned, as teacher of the Moose Lake Combined White and Indian Day School. His Lordship is being informed that the appointment of a teacher for this school is made by the provincial authorities and that we only allow a grant for the Indian children at the rate of $35 per teaching month, less 10 per-cent for the current fiscal year. His Lordship is also being advised to take up the matter of the appointment of a teacher with the Deputy Minister of Education for the Province of Manitoba. He is being informed that insofar as the Department is concerned, the appointment of Mr. Newton, who holds a second class professional certificate, would be satisfactory.

This is a Combined White and Indian School and the Department only allows a grant towards the salary of the teacher at the rate mentioned above. The appointment of the teacher is made by the local authorities and they have appointed Mr. A. J. Serase.

As Mr. Serase commenced duties on September 13th, 1935, salary is being allowed for 18/30 of the month of September ($35.00) or $21.00.

EXTRACT FROM LETTER DATED NOV. 28, 1940, FROM
MR. R. A. HOEY, SUPT. OF WELFARE & TRAINING,
TO RIGHT REV. W.W.H. THOMAS, D.D., BRANDON, MAN.

- Original on No. 128-6-1 -

Re Moose Lake Combined School.

A return, giving the names of the Indian children only, should be forwarded at the end of December, March and June to Indian Agent Lovell. He will certify it and forward it to the Department. In the event of the 6 children attending we will allow an amount of $15.00 a teaching month toward the salary of the teacher.

IN A LETTER TO MR. THOMAS LAMB, MOOSE LAKE, DATED JANUARY 7, 1941, MR. HOEY STATES AS FOLLOWS:

Allow $15 a teaching month toward salary

Mr. Lovell, in a letter to the Department dated October 18, 1940, intimated that in his judgment the Moose Lake School would be unable to accommodate any Indian pupils. Mr. Lovell adds: "There will be over 50 half-breed children going to school, which will make it overcrowded without the attendance of any Indian children". In view of this information from the agent, that the space available in the school was required for the accommodation and instruction of half-breed children, we decided to make a small grant of $15 a month to defray the instructional costs of 4 or 5 Indian pupils who might be enrolled at the school. Now that the attendance appears to be approximately 11, there is no reason why an adjustment of the grant cannot be made. You ask us in the last paragraph of your letter not to offer a white man 50¢ a day and board himself. I must emphasize again that the teacher of this particular school is not employed by this Department, nor have we assumed any responsibility for his appointment or for his teaching services. We are simply paying a grant to defray the cost of a small number of Indian pupils who may attend the Moose Lake School. The instruction of so-called half-breed children is wholly and in a very absolute sense the responsibility of the Provincial Government.

ST JOHNS MISSION
MOOSE LAKE
via The Pas, Manitoba

May 22nd 1946

Philip Phelan. Esq.
Training Division
Indian Affair Branch.

Dear Sir

In reply to yours of May 9th, I regret that you have not yet received the June (1945) Quarterly Return for this school. I ful confident that I forwarded them to the Agent in The Pas as I always do. I quite remember spending a whole day making reports before leaving for my vacation, Vital Statistics, Provincial school reports, monthly & annual) and the Indian Dept report. They must have gone astray somewhere.

However, I have made it out again in duplicate & am forwarding it, in the same mail as this, to the Agent in The Pas for his signature; so you should be receiving it in due time.

Yours truly
Percy J Wright.

Right Reverend Sir,

As you are aware the Department rents from the Church of England the building on the Moose Lake Reserve in which the school is conducted. Mr. Fischer, the Agent, reports that it is in a very delapidated condition and will need some repairs. The plastering has fallen down in places and several panes of glass in the windows are broken. In view of the fact that an annual rental is paid for this building it is considered that it should be put into proper condition and I have to ask Your Lordship to be good enough to take the necessary steps to have these repairs made.

The school house at the time of my visit was cold and miserable, the children were huddled around the stove for warmth, nothing has been done to this building in the way of repairs, nor any attempt to make it comfortable since last year, further than a coat of whitewash given the building last August. The building requires re-plastering, storm windows and the porch made tight and windproof, also the whole building banked up on the outside.

Very Reverend Sir,

Mr. Indian Agent Fischer reports to the Department that on his recent visit to the Moose Lake School he found the children huddled around the stove for warmth. He further states that nothing has been done to this building in the way of repairs or any attempt to make it comfortable since last year. The building requires replastering, storm windows and some repairs to the porch.

The Department would like you to see that these repairs are made during next summer if the school is to be continued in the building, otherwise the Department will have to withdraw the grant for rental.

The building is in poor condition, which was covered fully in my 1911 report. The roof wants fixing badly, also the walls. The teacher has had to close the school on several occasions through heavy rains. The Church of England, who own this building/should be asked to repair the walls and roof, so that the building would be water proof, or allowthe Department of Indian Affairs to do so,and deduct cost from the rent.

Dear Mr in Chief,

I have opened, in his absence, your letter to Archdeacon Mackay, & beg to answer it — I do not at present know (or remember) what was demanded in your letters of Feb 22nd & June 6th, but I think it was certain repairs, windows, plastering, etc, to the building — I understand that what was asked has been done. I have just visited Prince Albert, & held services in the school-house on Sunday. I saw nothing requiring further doing, & believe the teacher informed me that what repairs you required had been done. Mr Mitchell is doing capital work there, & deserves every encouragement — He is much interested in the work, desires the welfare of the Indians, is anxious to acquire & apply the best methods of teaching, & has the approval of the Indians.

Yours truly
J. L. Saskatchewan.

Sir,

I beg to apologize for my tardy acknowledgment of the receipt of your letters No 119408/5 of June 6th, Aug. 14th and 26th ult. The first I received shortly before I left on a visitation tour of the Indian Missions and deferred a reply until I should visit the place referred to in your letter personally. The two last I received two days ago on my return. Sir,-

I beg to refer you to official letter of February 23rd, last, in which you were informed that arrangements were being made for the Indian children of the Moose Lake Band to attend the white school at that point. The Department has entered into an agreement with the Educational Department of the Manitoba Government to pay one-half the expenses of the teacher's salary and maintenance. This arrangement took effect from the first of January, last.

I have, therefore, to request that you will be good enough to inform the Church of England authorities that the mission chapel at Moose Lake, which was rented for school purposes, will no longer be required and that no further payment of rent will be made from March 31st, last. The church authorities have been paid in full to that date.

Sir,—

I have the honor to report that the Indians at Moose Lake Reserve have asked me if the Department would supply them with a bell for the school, one large enough to be heard half a mile away. A small church bell is what they require. They live from half a mile to one mile from the school, and they state that very few of them have clocks. The children are continually being late at school. I do not know what a bell would costs, as I could not get prices locally, but if the Department has supplied to any other point, they will probably know the price. I beg to recommend that the bell be supplied, if it does not cost too much.

Sir,—

I have the honor to enclose report of the teacher for March quarter for the Combined Indian and White School at Moose Lake, Man.

The teacher remarks on condition of the seats. They are pretty shaky all right, due as far as I can make out by the pupils shoving them around when they are called up for physical exercise, the seats being put to one side to make more room. I have a number of seats in the warehouse which I took over fromthe old Pas Day School, and after navigation opens I will send a few of them to Moose Lake to replace the broken ones down there.

This school is the best in the Agency.

Sir, -

I have to acknowledge the receipt of your letter of the 14th ultimo, enclosing the March quarter return of the combined Indian and white school at Moose Lake.

In reply I beg to say, with reference to the condition of the desks, it is noted that you will arrange as soon as navigation opens to have a number of seats in the warehouse at your Agency which you took over from the old Pas day school sent to Moose Lake to replace any broken ones there. This arrangement is approved, and it is hoped that you will be able to provide for the necessary seats at the Moose Lake school.

I beg to report that a further issue of biscuit will be required at this Agency, and I would be obliged if they can be supplied.

The biscuit estimated for Nelson House did not come to hand on account of the fire in Winnipeg warehouse, so I supplied them with biscuit I had on hand for Big Eddy Day School.

Big Eddy Day School shows an average attendance of 30 since we got a good teacher, and I will require about 1000 lbs for that place.

Moose Lake Day School was closed, but I have been instructed to reopen it, the numbers there will not exceed an average of eight. I will require 300 lbs for this place.

The total amount is 1300 lbs estimated to March 31st next.

Dear Sir,-

In reply to your letter F. 128-6-5, I beg to inform you that I had 600 lbs. Biscuit on hand. The Northwest Biscuit Co., had none on hand here, but I ordered them to once ship 700 lbs. direct from Edmonton to the Indian Agent at The Pas, which combined will make up the 1300 lbs., which you directed me to have sent to Mr. Indian Agent Waddy, The Pas Agency. As soon as I am informed that the Biscuit from the North West Biscuit Company, Edmonton, has been received at The Pas Agency, I will send you certified invoice for the same, in the usual manner.

Sir:

Rev. Mr. White, who is to teach the day school at Moose Lake, has asked me if the Department will give him supplies or if he has to get it in the Province of Manitoba for the same. He tells me there will be about 10 Indian children going to the school. I think we should allow him some toweling, soap, wash bowls, broom, and a pail, similar to that given our own day schools.

Sir;

I have the honor to report that on September 23rd I visited the above mixed Indian and White day school, being taught by the Rev. Mr. Waite.

There were 9 girls and 3 boys present. The school has been in operation for three weeks at the time of my visit, and is only getting well started.

The teacher informed me if the department would pay him just 1/2 fees of $1.50 per month, as was paid previously; he also asks for ten pieces of lumber 1"x4"x10', which he will attach to the desks to make them movable to make room for the pupils when taking their physical exercise. He also requests putty, 1 tin, and glass 2 pieces size 20 x 30. The cost of the lumber and glass should not exceed $1.00. I beg to recommend that it be supplied.

Sir:

I have your letter of the 7th instant, reporting on your monthly visit to the Moose Lake combined white and Indian day school, which is being taught by the Rev. Mr. Waite. It is noted that the Indian pupils are making progress in their studies.

Regarding the payment of janitor's services, I beg to say that all this Department promised to provide was a tuition grant at the rate of $20 per capita per annum for the Indian children in attendance, payment of which is based on the average attendance as shown by returns which should be prepared by the teacher and forwarded through your office. Please state whether the provincial authorities contribute anything towards payment of janitor's services. I should also be pleased if you would state the number of white children, if any, enrolled.

You may purchase and have delivered the 10 pieces of lumber, 1"x4"x10', which the teacher requires to attach to the desks to make them movable and provide space for the pupils when taking their physical exercise. You may also purchase the putty required and 2 panes glass, 28 x 30. We note that the cost will not exceed $6.00. Properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred.

MOOSE LAKE PUBLIC SCHOOL.

This is a combined White and Indian school. It is under the Provincial Government, and the Indian Department pay $25.00 per capita for each Indian child in attendance.

Mrs. Parker is the teacher in charge. She holds her Second Class Professional and is doing splendid work. The Indian children present numbered 12, there being 5 boys and 7 girls. In addition to these there were 16 other pupils. The grades range from one to four.

The building is a frame structure and is badly in need of paint, both inside and out.

The classroom was tidy and all the children appeared clean and fairly well clothed.

I found the outside windows all on and the transoms above the windows nailed shut. I spoke to Mrs. Parker about this and she said it was very difficult to get anyone to do work about the school. I pointed this out to the Indian Chief and asked him to arrange with the fire ranger, who is the trustee, to see that the windows are fixed so that plenty of fresh air may be obtained.

Sir:

Mr. Inspector Hamilton, in a report on his visit to the Moose Lake Combined White and Indian Day School, recommends that the building be painted both inside and outside next summer. In this connection I have to request that you will state who owns the building in which the combined school at this point is conducted.

Dear Sir;-

In reference to your letter #128-6-5 of the 14th inst regards ownership of the school at Moose Lake known as the Combined White and Indian School I beg to say that this building is owned by the Manitoba Government.

The school has not been inspected by the Manitoba Government Inspectors since it was opened years ago and is getting run down in appearance. At times we have supplied glass for broken windows needing repair and we have always supplied the desks when new ones were needed, but as it was not our building I spent no more than necessary on it.

The building is in fair shape except for need of paint.

Sir:

I have your letter of the 22nd instant, informing the Department that the school building used in connection with the Moose Lake combined white and Indian school is owned by the Manitoba Government.

As this building is badly in need of paint, both inside and outside, it is considered that you might suggest to the local trustees, or whoever is responsible, the advisability of making the necessary arrangements to have the building painted next summer. After you have had an opportunity to discuss this matter with the responsible parties, I shall be pleased to hear the decision arrived at regarding the carrying out of the painting of the building.

Dear Sir:

With reference to your letter No.103-6-5 of the 28th November, regarding repairs to Moose Lake school, I am to advise you that the Department will offer to supply the settlers of the Moose Lake district with enough paint to paint the building and will expect the settlers to do the work. I also saw one of the school trustees and he told me that there would be no trouble in getting the school fixed up next Spring.

COMMISSIONER'S OFFICE,
W. REGINA, SASK., 19th June, 1930.

Sir:-

I have just received a letter from Mr. J. T. Tweddell, Indian Agent at The Pas, forwarding an account from Mr. J. Lamb, of Moose Lake, Manitoba, for provisions and material supplied by him to Indians and half-breeds for painting and general repairing of the Moose Lake School.

Mr. Tweddell knows nothing of the arrangements, but in his letter to the latter Mr. Lamb states that the Manitoba Government supplied paint, linseed oil, turpentine, and brushes. Presumably, the Department has some arrangement with the Manitoba Government concerning the maintenance of and repairs to this school, and I should like to know if the Department will furnish me with particulars of these arrangements, so that, in future, I may know how to act in such like circumstances. The account that Mr. Lamb has forwarded amounts to $1.50 and this includes an item of $1.50 for the purchase of 10 lbs. of nails. In addition to this it appears that this merchant also supplied 2 gals. of oil and 1/2 gal. of paint that was short and 14 feet of 1/2" V joint for floors and repairing two closets. The charge for this is not stated, but Mr. Lamb wishes to receive it. Will the Department please inform me what disposition is to be made of these accounts, and what instructions to give to the agent.

Sir:

I have your 205-11A Gen. of the 19th instant, relative to a communication which you received from the Indian Agent at The Pas enclosing an account covering the cost of provisions and material supplied by the teacher of the Moose Lake Combined White and Indian Day School to Indians and half-breeds for painting and making general repairs to the school building.

In this connection I have to refer you to your letter dated November 7th, 1928, forwarding the report of Mr. Inspector Hamilton, in which he recommended that the school building be painted. This matter was taken up with the former Agent, Mr. Waddy, and he informed the Department that the building is owned by the Manitoba Government and that Government offered to supply the settlers of the Moose Lake district with enough paint to paint this building, on condition that the settlers do the work. It is thought that the account which you received should be forwarded to the Provincial Department of Education, Winnipeg. This Department only provides a tuition grant at the rate of $20 per capita per annum on the average attendance for the Indian children, and we are not responsible for any other costs in connection with the upkeep or running expenses of the school.

Dear Sir:-

I beg to report that I paid Treaty at Moose Lake on June 4th, as per schedule.

Albert Stagg old Chief resigned. Held election and ballot revealed a majority of one in favor of Philip Tobacco over Jacob Nasecapow. Declared Tobacco Chief. Instructed him in his new duties as per Indian Act.

A number of matters were discussed and settled.

After Doctor's visit to gouses he reported no sickness.

The school belongs to the Provincial.Govt. who furnished paint to paint the building. The Indians volunteered to do the work free, but asked me to request four windows 48 x 48, 20 lbs of 3" nails and a small amount of grub for the work.

Potatoes and garden seeds all planted and doing fine.

There is an island in Moose Lake, on which there is some very good Spruce timber, and the Indians would like to dispose of it. It would be necessary to look the timber over before passing an opinion on the matter.

Two cases of destitution were visited, and Special Rations asked for. John Miles 85 years of age and alone, also Jane Paahenose is in the same condition.

All of which I submit for your approval.

Dear Sir:-

I have the honor to report that the new teacher of the Moose Lake Day School has commenced to give the children a noon day luncheon for which he pays out of his own pocket.

This teacher cannot feed the children very long in this manner and I would be obliged if the Department could see proper to allow a grant to this school for lunch purposes.

What would be required would be 50 lbs rice, 25 lbs split peas, 25 lbs barley, 10 lbs salt, 20 lbs cocoa and 40 lbs sugar.

If this food is allowed it could be purchased at Moose Lake, thus avoid the cost of winter transport, and I beg to recommend it be allowed.

Mr. Christianson's Report on Schools in The Pas Agency:-

Dear Mr. Graham:

I have the honor to report that while in The Pas Agency recently, installing the new Acting Indian Agent there, I visited and inspected the Moose Lake Indian Day School and the McKay Indian Residential School.

MOOSE LAKE INDIAN DAY SCHOOL,-

The building is just off the edge of the Reserve and is the property of the Provincial Government.

At the present time the school is being taught by Mr. F. Lumb. I am quite sure that this young man is very much interested in his work, and he has the proper qualifications, having had normal training as well as having previously taught at the Gordon's Residential School.

There are 25 children on the register, and on the day of my visit, which was very stormy, there were 17 present,--12 Indian and 4 Halfbreed children. I might say there is quite a Halfbreed settlement adjoining this Reserve. Grades I to IV are being taught at this school at the present time.

This being the first time I have visited this school I do not know what progress the children have made, but I am quite sure that the present teacher will meet with splendid results if he remains there.

I do not know what the arrangement is between the Department and the Province of Manitoba, but as I have

MOOSE LAKE INDIAN DAY SCHOOL, (Cont'd),-

stated above, the building is owned by the Government and was no doubt built to enable the ..alfbreed children to get an education. However, I presume that at the time the building was erected, some agreement was entered into between the Manitoba Government and the Department of Indian Affairs. The building itself is in a fair state of repair, and last summer it was painted inside and out by the Indians and the trader who lives right near the school, the paint having been furnished by the Provincial Government. There were several panes of glass broken and the holes patched up. The desks were in very bad shape, but these could be fixed up with very little difficulty. However, a new stove is very urgently required in this school, the sides of the one now in use having caved in from long use and over-heating. The hinges are broken off the door, and it would be practically useless to repair this, as the front is also burnt out. I t will be readily seen that it is very difficult to keep the building warm with a stove of this kind. Moreover, it is not safe to put on a very big fire. Not knowing what the arrangement is I cannot say whose place it is to furnish the stove, but in any event, the McLary's Camp Comfort Wood Burning Stove would meet their requirements satisfactorily.

Dear Dr. Scott:-

I have the honour to enclose herewith a report of an inspection made by Mr. Christianson at theMoose Lake Indian Day School and MacKay Indian Residential School, The Pas Agency.

Moose Lake Indian Day School

I know little about the a rangements between the Department and the Manitoba Government regarding the management of this school, or who pays Mr. Lumb's salary and what authority this Department have to go in and give instructions to the teacher. It is also not known who is responsible for the upkeep of the school. You will note that a stove is badly needed. Whether this is to be supplied by the Manitoba Goernment or the Department, I do not know. Evidently the school and the desks are in bad repair.

Dear Mr. Williams:-

This school was inspected on September 16th, 1932. It is operated by the Provincial Government, and the teacher in charge for the coming year is Mr. Newton. He is a qualified teacher and will, I think, obtain good results.

There are 11 Indian children attending, and I understand the Department pay $350.00 per annum towards the upkeep of the school. The children are arranged in grades from one to four, and appear fairly well along in their respective grades. Mr. Lumb, who was in charge of this school last year, did excellent work, and as a result, a big change is noticeable among the Indian children. Biscuits are supplied to the children for lunch.

The building is in need of some repair, but this, of course, rests with the Provincial authorities.

Oct. 13, 1936.

Dear Sir,

I would like to call your attention to the school building of the Moose Lake Day School.

The building is in very bad condition, quite a number of windows are broken and other repairs needed. The teacher, the Rev. A. Scrase, spent $30.00 recently, out of his own funds to purchase lumber and material for desk and forms. He wrote to me to see if there was no way in getting a refund of this expenditure.

I wrote to the Provincial Department of Education about the matter and they refused to do anything about the repairs, as they stated they paid part of the teacher's salary and it was the trustees duty to keep the building in repair. The school is in an unorganized territory and there does not seem to be any method of taxation arranged for school purposes, consequently there is no money available for repairs.

There are about 15 Indian children attending this school, a number of half-breeds and one or two white children. I am anxious to get the building repaired and keep it in repair, as the condition it is in now, is bound to affect the health of the Indian children. I would like to know what action I can take to get these repairs done.

Dear Sir:

The Department is in receipt of your letter of the 13th instant, with reference to repairs required at the Moose Lake School.

This building is not the property of this Department, and we are, therefore, not prepared to authorize any expenditure in repairing it.

As far as we know, the Moose Lake School is the property of the Provincial Department of Education, and possibly it would be advisable for you to again write them and inform them that, as the school is in unorganized territory, no method of taxation is arranged for school purposes and, therefore, there is no money available for repairs.

Yours truly,

O TAWA, 18th November, 1899

The Secretary:-

Rev. Dr Sutherland's letter of the 10th instant herewith asks for a grant for school which has recently been established by the Methodist Missionary Society at Nelson House in the Territory of Keewatin. Nelson House is, as Dr Sutherland states, outside of treaty limits and no provision is made for a Methodist school at that place. The Census return for '98 shows that there are 115 Roman Catholic Indians in the neighborhood of Nelson River, the numbers of other denominations and pagans not being given.

The Church of England receives a grant of $100.00 for each of six schools in the Diocese of Moosonee, which embraces the district around Hudson's Bay.

This is the first application that has been received from the Methodist Church for a school in this locality and the Department has no information as to the number of Indians claimed by them as being of their faith, nor of the number of children of school age.

The amount of the grant given day schools outside treaty limits is limited to $200.00

I think the Department should be furnished with further information on the above points before it can fully consider this application.

I have the honor to acknowledge the receipt of your letter of the 1st instant applying for a school recently established by your Society at Nelson House in the Territory of Keewatin; and in reply I am directed to say that it will not be possible to make any grant to the school this year, but your application will be submitted to the Minister when the estimates for next year are under consideration.

I think it would be well for you to furnish the Department with more definite information as to the number of Indians belonging to the Methodist faith at that place and also the number of children who would be likely to attend.

SCHOOL Toronto, 11th Dec., 1899

Sir,—

Referring to your letter of the 30th ultimo, No. 191433, respecting the school recently established by the Missionary Society of the Methodist Church at Nelson House, I beg to say that in a letter received some time ago, from the Rev Mr Gaudin, Missionary at Nelson house, he informs me that there are "some 80 children of school age, and a host of little ones growing up: of these about 20 usually remain near enough to attend school a good deal of the time, and for the others at least something could be done during the summer." He further points out that if provision could be made at the Mission for from 10 to 20 of the children whose parents go to the woods during the autumn and winter, quite a large school could be maintained during the year. I cannot at the moment give the exact number of Indians connected with the Mission, but a number of years ago more than 300 had identified themselves with the Methodist Church, and there has been considerable increase since that time.

I can readily see that there are difficulties in the way of securing a grant from the Department where application is made in the middle of the year; but I have understood that it is within the authority of the Department to meet special cases out of unexpended balances that have been voted by Parliament for the Indian work. The very need of a school at Nelson House was so great that the Rev

John McDougall, when visiting that point last Summer, promised them a teacher without delay. If under these circumstances the Department can make a proportionate grant for the current year it will be much appreciated.

It might not be out of place to add that we are expending annually upon the Indian work over $12,000 in addition to what is received from the Indian Department, and about one-fourth of this amount is expended in the educational work.

The Deputy Superintendent General,-

The Chief and Councillors of the Nelson House band have written, asking that when treaty is made with them, provision should be made for the establishment of a boarding school there in lieu of day schools. They want this made one of the terms of the treaty. In all previous treaties the Crown simply agrees to maintain a school in each reserve set apart, whenever the Indians of the reserve shall desire it. This refers only to a day school. The Department has never yet admitted any obligation to provide boarding schools under treaty, and if an exception were made in favour of these Indians you may rest assured that all the other bands who have taken treaty would expect similar treatment.

There is considerable agitation for the extension of the boarding school system, and the assumption by the Department of the full cost of maintenance and management. It, therefore, rests with the Department to decide whether it should change the educational clause in the treaty or not. I went fully into the question of the extension of the boarding school in my memorandum of July 10, last, on Dr. Bryce's report of inspection of schools in Manitoba and the Northwest.

Sir,

The Methodist Church established their Mission at Nelson House in the year 1874 under the pastorate of the writer of this report. They have continued the work through 35 years at a cost of at least $1000.00 per year. They have therefore some right to ask for assistance when it is remembered that they must have spent 35000.00 to show their own good faith .

The Roman Catholics entered the field in the eighties but have not carried on a very vigorous or a continuous work and have paid little attention to School work. It seems only right however to mention the facts and state that they have a Church there and a considerable membership.

The population is about 400 and these may be divided in the proportion of one third Catholics to two thirds Methodist or say 150 of the former Church and 250 of the latter.

The child population numbers 235. Of these 122 are girls and 113 are boys. Admitting the two thirds ratio then the Methodist Church should claim at least 150 children.

It should be explained however that many of the Men of this Band are hunters who do not locate near the Mission or for that matter any where else. They are moving from one place to the other and are known as "wood Indians" men who live in tents and take their families with them and spend only a short time in summer at the H.B.Post or near one of the Mission stations. It is assumed that two thirds of the whole number are of this class and that would reduce the

Methodist School going element to about fifty (50)

It is well known that the possible attendance is never the actual attendance and making allowance for those that are "grown ups" or who are the children of non-progressive parents not in sympathy with the Schools the Methodists should be able to command an average attendance of 25or 30 .

The situation of the Methodist Mission is favorable to attendance especially in winter as it is about midway between the"Fort"on the one side and the "Ootwawin" on the other.In summer canoes must be used and the difficulty would increase but a considerable number tent on the hills near by so that a sufficient number of children would be always near,who could walk to School.

There are about I5 houses within a radius of three miles from the Mission and the locality is favorable for the erection of a School building.

I am persuaded that the only kind of building that could be erected would be one of logs. Lumber cannot be freighted into the country. The expense would be so high that no one would recommend it. A few boards for floors and ceilings might be made by means of a whip saw . Logs might be procured at a distance of from 4 to 6 miles . Labor is cheap about one dollar a day being the rate of wages. If shingles were used they would have to be bought on Lake Winnipeg and moved down at great expense (9.00)per I00 lbs) so that Mica Roofing would be best. Nails would also have to be bought in Selkirk and freighted down in the York boats of the H.B.Company.

As to the cost of building at Nelson House I think an approximation might be made as follows:-

Procuring Logs	100.00
Sawing Boards	100.00
Erecting Building	200.00
Doors windows nails	30.00
Mica roofing freight etc	70.00
Total	[illegible].00

The Hudson Bay Company at Norway House Mr C.C.Sinclair might undertake the work. It is no reflection on the Methodist minister now in charge to say that he is inexperienced and not practical for he is quite young and this is his first charge.

The Rev Mr Ferrier might send in a man with skill enough to complete such a work but high wages would be chargedand the Company is rather averse to strangersentering the best fur bearing part of their territory as it gives undue prominence to their business.

I do not know any person at Nelson House whom I could recommend as a suitable builder but the Agent at Norway House could procure men and control the expense and this is probably the wise course to pursue. Let the Agent send reliable men down to put the building in shape for practical use.

I would suggest in conclusion that the bark be removed from the logs and that the corners be dove-tailed.

I have the honor to be

Dear Sir,-

Referring to your letter of the 26th instant, #191433/1, intimating that the Department considers it would be premature to spend anything in putting up a school building at Nelson House on account of the nomadic habits of the Indians, I can only say that the reason which prevents the erection of a school house has equal force against the appointment of a teacher. We are quite aware of the nomadic habits of the Indians at Nelson House, and for this reason have repeatedly recommended the establishment of a Boarding School on a small scale where the children could be kept and taught during the time their parents are absent on hunting expeditions. Unless the Department can see its way to some arrangement of this kind, I fear that any attempt at school work at Nelson House will have to be abandoned.

Rev. Sir,

I have to acknowledge the receipt of your letter of the 29th ultimo, in reference to the erection of a school building at Nelson House.

In reply I beg to remind you that the Department now pays a grant towards the salary of a teacher at this point and that the school has been in operation for some years. Before the territory in which this school is situated was taken into treaty the grant was only $200.00, but this has been increased to $300.00. The september quarter return has not yet come to hand, but when it does the salary will be paid at the rate of $300.00. It is only with reference to the erection of a permanent building at the present time that the Department is in doubt, and in the meantime it is presumed that the arrangement which has been in existence for some time past will be continued.

Dear Sir:

In April last there came to me, from the Treasurer of our Church in Toronto along with other grants from your Department for Indian Schools, the sum of $20.83 said to be for Nelson School House, We have no Indian Mission, nor school by that name, at least not in the provinces of Manitoba and Saskatchewan with which I have to deal. Our Treasurer in Toronto writes that he understands that there is a Nelson school in the neighborhood of Lake Manitoba, under the care of the Methodist church, possibly the money was intended for it. Will you kindly direct me as to what I am to do with this sum.

Nelson House, Day School, Norway House Agency, January Report, 1913.

Teacher,- Rev. Henry.T.Wright.

This school has been closed for many reasons, about the last of March all the Indians leave the village, first Spring, hunt then they return for a few weeks, until treaty is paid, then the men work in boats for the Hudson's Bay Co., the women and children all leave for the fishing grounds, returning, just long enough to take their fall outfit, then they all leave here, some return, about the first of November, and others not until near Xmas. By this you will see that the teacher is left alone on the reserve over half the time.

School opened on Monday, January 20th, 1913.

Attendance,- There are 45 pupils on the roll, 16 boys and 29 girls. The children live far from the school, attendance is very irreguler, and everything but punctual. The children are all clean and well clothed.

School is held in the church, which is far too large, requiring two stoves to make it comfortable. The school building is in bad repairs making it unfit for school purposes.

Progress, all pupils are in standard 1, a few can add to a hundred, and the rest are at the A,B,C's, Etc.

Fuel,- The Indians are very slow about getting wood, the teacher in years past has supplied over half the fuel required. The Chief tries to do his part but the Indians only laugh at him, and fail to help us in our work. At present time we have wood enough for at least a week, perhaps ten days.

Letter, 629.

Sir,

I beg to forward a quarterly return for Nelson River Day School, ending December, 31st, 1913, with only one pupil for the quarter. Mr Nutty explains this in the face of his return. He writes to me that since a number of the Indians returned from their hunting grounds, that he has 31 children attending school now. He also complains that the school house built here is too small and very cold, so that it has been using the kitchen of the Wesleca house for a school room, and that now as many are coming that he has had to use two stoves as a school, but which is a very cold building and hard to heat.

I am starting for Nelson River to-morrow, and I will thoroughly inspect the old building, and if necessary, and report more fully on conditions there, and what is best to be done towards providing a new school if one should be able to accomodate forty pupils.

Sir,-

In the letters I received from Pelican House yesterday I was asked about the requests of a new school building, for Day school work there, and I replied as follows.

I advised these people that the Department were taking the matter up, when I was there last summer, and I so stated again when I wrote today, I explained that the conditions, occasioned by the existence of the war, no doubt had the effect of causing this matter to rest for the time being. I told them that the Department had this matter under their attention, and as soon as possible, would no doubt give the item proper attention. I told them that I was so advised, under letter 191433/1 dated 4th October 1915.

I have the honour to report that when at Nelson House Reserve paying Annuity, I met a Miss Clark who has been sent to the Nelson House Reserve by the Woman's Missionary Society of Toronto, a Methodist Church Organization, to teach school at Nelson House. The Rev. W. E. W. Hitty informs me that he resigned the position from the 30th of June, and he would be obliged if the Department will approve of the appointment of Miss Clark.

I understand that the latter lady is qualified, and has taught Indian Department schools on the Coast for the last nine years. She informs me that she is to receive $ 750.00 per year from the W. M. S . and she understands that the latter will take up with the Indian Department the question of an allowance for work she does on the Reserve. There are very few non-treaties at Nelson House and I should judge that over 90% of any children she teaches will be Treaty Indians. The Department will probably have notification from the W. M. S . regarding this matter before they get my letter. If not, I would recommend that Miss Clark be given the appointment as School Teacher.

Sir,-

I have to acknowledge the receipt of your letter of the 29th ultimo, in which you state that when you were at Nelson House Reserve, paying annuity, you met Miss Isabella Clarke, who stated that she had been sent by the Methodist Church authorities to teach at that point.

In Reply I beg to say that Reverend Mr. Ferrier, Superintendent of Methodist Indian Schools, recently informed the Department that Reverend Mr. Hutty had resigned and that Miss Clarke had been appointed teacher. Mr. Ferrier was informed that her appointment was approved. Her salary will be paid at the rate of $750.00 per annum.

Miss Isabel Clark, tthe new teacher has just arrived and will take charge after the holidays.

x x x x

She would like to give the pupils a warm meal at noon and the material required would be 2 doz. cups, 2 doz. small bowls for soup and 2 doz. small plates, 2 doz. knives and forks and 2 doz. spoons.

The children come across the river for some distance to this school and if they were given a lunch it would help the attendance greatly is the opinion of Mr. Nutty and the new teacher Miss Clark.

I would recommend a grant of $10.00 per month for the purpose of a warm meal at noon and also that Agent Waddy be authorized to buy the cups, plates, knives, etc., mentioned above and forward them to Nelson House at an early date.

Sir,-

Mr. Inspector Jackson, in a recent report of his inspection of the Nelson House Indian Day School, states that Miss Isabel Clark, who was recently appointed teacher, had arrived and would assume duties after the holidays.

He states that the teacher would like to give the pupils a warm meal at noon and that certain utensils are required by her for the purpose. The Inspector also recommends that a grant of $10.00 per month for the purpose of purchasing the supplies required to serve a warm meal be authorised.

I have to request that you will be good enough to purchase and have delivered at the school as soon as possible two dozen enamel cups, two dozen small enamel soup bowls, two dozen small enamel plates and two dozen each knives, forks and spoons. These articles should be purchased as cheaply as possible and, if they exceed in value the sum of $10.00, you should obtain competitive prices and purchase from the firm quoting you the lowest price.

The Department will approve of an expenditure of the sum of $10.00 per month in the purchase of the supplies required for the mid-day meal. You should consult the teacher in regard to the supplies which she requires and a quantity to the extent of the above sum may be purchased each month.

You should forward properly certified vouchers from time to time covering the expenditure incurred in the purchase of the supplies for the mid-day meal, and properly certified accounts, in duplicate, should be forwarded by you covering the cost of the utensils mentioned above.

Your obedient servant,

For Asst. Deputy and Secretary.

The Pas, August 2nd . 24.

The Department of Indian Affairs,
Ottawa, Ont.

Dear Sirs:-

I am writing your department on behalf the Nelson House Band. They have taking up with me, asking me to communicate with you, the matter of a Boarding school at their reserve, for the children of that district instead of the day school as heretofore.

They think that a Boarding school would be in every way more satisfactory than the day school, because the Indians are away all winter trading and trapping and consequently their children are none of them able to attend the day school, So very few are available to attend the dayxxxx school during the winter months that the expense of keeping the day school open is quite useless, whereas if a Boarding school were in operation all the children on the reserve and in the district could be at the boarding school and so recieve a much needed education, all the year round.

This matter the Indians took up with the Rev.Arthur Beaner, when he was visiting the reserve this summer and meetings were called by the Indians to discuss the situation. The Indians voted unanimously in favor of a Boarding school, and to do away with the Day school. They are very much in favor of the Boarding school and very anxious to have it on their reserve in a place convenient to all. They realize the importance of having their children educated and find that the day school does not in any way supply the need. They want their children well educated so that they can go out and take their place earning a livlihood among the white people/and become the best of citizens.

As/to location of the school they wish that, if the matter is favorably considered by your department, the school shall be built at Beaver Dam, on the Burnt Wood River. This is the most advantageous point in all that country from many points of view. There is abundant fish all the year round and extensive hay lands, and is accessable to everybody.

This letter is written today at the request of representatives of the Nelson House Band, who are here present, in The Pas Today. They desire a reply as soon as possible and would like to have action taken at once with a view to having the school built at once if favorable to your department, which they sincerely hope it will be.

They discussed this proposition with Indian Agent Waddy on his recent visit to their reserve and requested his assistance, which he is very willing to give. The matter is being taken up with him today as well as with your department by this letter.

An early reply is requested and that your reply be addressed to Chief Patrick Constant, of The Pas Indian Reserve. This because of the distance away from here of the Nelson House Reserve, and the long time taken in getting mail too and from that place. He will act as a sort of attorney for them in this matter at their request and will know what to say and do in regard to the situation when you reply.

Kindly answer as soon as possibly and oblige,

Yours Very Sincerely Etc.

AND
IN DATE OF THIS LETTER

The Pas, Manitoba.

August 4th 1924.

Dear Mr. Scott;-

The Indians of the Nelson House Reserve have been asking for years for a school to be built there and operated under the auspices of the Methodist Church. Some of them are in town here now and have been in touch with the local Indians and they are writing you a letter which I enclose herewith.

I have not seen the letter but have a fair idea of some of the contents as they have been asking me questions every day for the past week. In order to give you an idea of the present standing of matters at Nelson House I enclose my office file regards what has been done lately.

This is a mixed-up business from the start, but last week I got at the real truth of the why the Methodist Church people ask for a day school when the Indians require a boarding school. Mr. Barner told me then that Senator Lougheed when Minister told the Churches that the Department did not intend in future putting up small boarding schools which would become a liability on the funds of the churches, that the per capita grant did not cover outlay in small schools and the churches were not financially fixed to pay over charges above the grant. This is the first time I had even heard of such an agreement.

In 1919 and each year after that the Indians asked for a boarding school, but I knew the funds were low and kept the matter shelved for the time being. Last year matters came to a show down, the Indians asked that the matter be sent to the Department for a decision, so I took the question up with Mr. Ferrier at Brandon to see how the Church stood. His answer is on my file.

The Indians want some answer, and I have been careful to try to keep them friendly with the Church. They know that schools are being built elsewhere and I have told them that if they get the co-operation of the church that the Department listens to their recommendations.

I firmly beleive that the real solution of the school question there is a boarding school; if the time is not opportune a day school would do temporarily and any orphan could be sent to Brandon school.

You may inform Chief Pat. Constant and the Nelson House Indians that there are no funds available for the erection of a residential school at the present time. As you were informed in official letter of the 8th instant, the Department is considering the advisability of arranging for a day school building which will provide better educational facilities for the children at this point.

Sir,

I have the honor to enclose the return for the June quarter from the teacher of the day school at Nelson House Reserve, I just received the return.

I did not have an opportunity to inspect the school at annuity payment time as the pupils had been having a holiday, but I inspected the work in the scribblers. There is not much to show for the time some of these pupils have been at school, as usual they attend very irregularly.

I saw Rev. Mr. Barner a few days ago and he has in mind the building of a day school at this point, as the church building is not fitted to use as school in the winter. The children live so far away from the Mission that a day school will never reach the whole population only a few near in families will get attention.

I am in communication with Rev. Mr. Ferrier at Brandon regards request from the Indians for a boarding school talked about this last six years. He will probably see Rev. Mr.Hutty this week, and when things are in shape the Department will be advised as to what these gentlemen consider should be done; the present arrangement is not satisfactory, though as matters are at present it is better than not having any school as it does help a few families.

I beg to report that Miss D.Hall the teacher of the Methodist Day School at Nelson House left for her home in Winnipeg some time ago and will not return to her duties on account of ill health. Her sister Miss J.E.Hall who holds a Manitoba professional certificate as teacher has gone in to Nelson House to teach the school noted. She informs me that Rev.T.Ferrier is recommending her appointment to the Department.

Miss Hall states that her sister taught for some 18 days during the summer holidays when the Indians were all on the reserve and that her sister intended putting these days in on the December quarter, and that if the new appointment is approved that the Department allow these days to be counted. As this might complicate matters the Department might consider allowing Miss D.Hall payment for month of October if she sends in school return for one month. She did not teach in October.

The month of November cannot be counted so the new teacher asks if she may be allowed to teach on any Saturday when the Indians are home and if any days are made up it be allowed as the month of July next, to allow for the ten months of the school year.

The young lady seems quite capable of doing the work required at Nelson House.

Sir:

I have your letter of the 4th instant, informing the Department that Miss D. Hall, teacher of the Methodist Indian Day School at Nelson House, has given up her duties. While you have not stated the date she left Nelson House, it is presumed that it was at the end of September, as it is noted that she did not teach during October.

The appointment of her sister, Miss J. E. Hall, as teacher to succeed her is approved. We will allow her salary at the same rate as was paid Miss D. Hall. I may say that we cannot pay salary for any period in the school year exceeding 10 months, as the payment of all salaries is based on that length of service. I may say further as the cheques for salary for this school are forwarded to the Treasurer of the Methodist Church they will, no doubt, arrange for the payment to Miss D. Hall and her sister for the yearly teaching period. When we receive the quarterly returns from Miss J. E. Hall covering the period she teaches to June 30th, next, consideration will be given to the amount of salary the Department will forward to the Church authorities.

Unless the Indian children are perfectly willing to attend on Saturdays, the Department would not be favourably disposed to have the school open on that day. This matter, however, will be left with the teacher and yourself to arrange.

Sir;-

In reference to my letter of the 4th December last and answer #128-11-1 of the 14th December last regards teacher at Methodist Indian Day School at Nelson House reserve, I beg to state that Miss Hall has requested permission to keep the school open during July and August, and the Indians have promised to send the children to school. At this time of year the whole band are home from the hunting ground and the attendance will be good. I beg to recommend that the Department agree to this arrangement.

My former letter stated that Miss D Hall had taught 18 days in summer of 1925 and that she wished this time allowed to her sister. There has been salary allowed in December, March and June quarters, and the Department can estimate the number of days Miss Hall will have to teach in July and August to complete the ten months work and advise me if they will allow her to get credit for the 18 days her sister taught school.

I had no school work to inspect when at Nelson House as the people look upon this time as a holiday and carnival, however from the scribblers of the pupils etc I could see that the ones who attend school are advancing in their work.

Sir:

I have your letter of the 15th instant, relative to the request of Miss J. E. Hall, teacher of the Nelson House Methodist Indian Day School, for permission to keep the school open during July and August, as the Indians are home from the hunting ground and the attendance will be good.

In reply I beg to say that if Miss Hall keeps this school open during the present month, we will allow her payment for same. As you were informed in official letter of December 14th, last, we cannot pay salary for any period in the school year exceeding ten months. Miss Dorothy Hall was allowed payment for the month of September, 1925, and Miss J. E. Hall has been paid for the period from November 1st to June 30th, making a total of nine months for which salary has been paid during the school year closed June 30th. We will allow Miss J. E. Hall payment for the current month, in order to complete the ten months in the school year. We prefer that this school remain closed during the regular summer holiday period, and the teacher should immediately close this school and arrange to reopen it on the 1st of September, next. Please arrange with her to forward a return showing the period taught by her during the current month, when a cheque in payment of one month's salary will be sent.

I may state that all cheques for salary for this school are forwarded to the Treasurer of the Methodist Church, Toronto. The Treasurer has, no doubt, paid the Misses Hall their full yearly salaries.

Dear Sir,-

In reply to yours of January 26th, No. 128-1-1 re teacher for Nelson House:

I had secured the promise of applicants for this school but when the time came for starting it was re-considered and ended without a teacher, so Mrs. Nutty who has a Second-Class certificate and taught the school previous to her marriage stepped into the breach. I have secured the services of Mr. Clay who taught at Island Lake and is now attending Wesley College. He cannot go until college closes, however.

Trusting this will be satisfactory, I remain

The Health Rules

The Fifth Rule

By Dr. J. L. BIGGAR

MANY people might think that there is no need for a Health Rule about playing. Most children do not need to be told to play. They do so instinctively and enthusiastically. Sometimes they do not want to do anything else.

But there is a need for the rule, because there are children who for one reason or another are not keen about playing and especially about playing in the open air. There are several things which may cause the development of the not-playing habit. An illness may begin it, or moving from one town or school to another so that one's old friends are lost and new friendships have to be made with strangers. Sometimes when a child has no brothers or sisters, he, or more often she, prefers to help with the work at home rather than to play with other boys and girls. But the most frequent cause is too great an interest in stories so that one exciting book after another is a great deal more attractive than playing in the open air.

These are only a few of the reasons why it was thought necessary to make a rule about playing out-of-doors. Too many boys and girls do not get the open air exercise they should have if they are to grow up strong and healthy. Too many grown-ups did not learn when they were young the very great importance of fresh air, sunshine and muscular activity. If they had, there would be more really strong and healthy people.

If you asked your grandparents what was thought in their younger days about this matter, you would probably be surprised, because it is only comparatively recently that the great value of good habits in this respect has been fully realized. And the rather unfortunate thing is that just as this realization is becoming clearer all sorts of vehicles to save us from activity in the open air are becoming more and more popular. To-day nobody in the city walks if it can be avoided and even in the country people are beginning to think that children should be taken to school in cars or buses.

You may say, of course, that walking is not much of a play, and that it is a great deal nicer to go to school in a street car or an automobile and so have more time and energy for playing. But, if you stop to think, you will see that "playing" is very hard to define and that almost everything including messages and chores, can be made into a game of some kind or another.

Not long ago a man told this story: "There were two old men," he said, "both nearly eighty, both rather feeble and slow, but not really incapacitated by their many years, Both of them had wooden sticks in their hands and both were walking about over grassy spaces. They were doing much the same sort of thing and each seemed to be enjoying himself. One of them had a prong on the end of his stick and with this he was picking up scraps of paper and putting them into a bag he carried over his shoulder. The other had a metal piece at the end of his stick and with this he was hitting a ball. The same sun shone on both of them and when midday came both of them had a simple meal of milk and other plain food. One was the richest man in the world playing a game of golf and the other was a park-keeper earning his living by keeping the grounds tidy."

The Rule says to play "in the open air every day." Thirty or forty years ago Mark Twain said that people were always talking about the weather but that no one had ever done anything about it. It is just as true to-day. All of us are inclined to be perpetually dissatisfied with it. Too hot or too cold, too dry or too wet, too still or too windy,—always too something. Yet it is from the weather, which only means the open air every day, that we gain our hardihood and vigor. Fresh air and sunshine, rain and wind, cold and heat, are God's best gifts to man.

There is no stimulant to be compared with a bright frosty morning out-of-doors. Nothing has ever been found so beneficial for our well-being as sunshine. No effort brings so happy a reward as a brisk struggle with the wind and the snow and the rain. These are the things which send the blood racing through the veins, bringing colour to cheeks and sparkle to eyes, clothing the bones with clean firm flesh, and freeing the mind of worry and depression. Truly the weather is nature's health giver.

In Canada we are among the most fortunate of nations. Our brilliant sunshine, our hot summers and the clear sparkling cold of our winters, our open spaces where the clean wind carries the tang of our woods and waters, the ice for skating, the forests for camping, the birds of the air and the beasts of the field for studying, the flowers for finding, the trees for knowing — truly ours is a goodly heritage. And, properly dressed, it is never too cold or too hot, too wet or too stormy to play, either at games or at work, in the open air every day and by so doing, to gain health and strength and energy and vigor and happiness.

The Story of Nehemiah Teaboy

By CHARLES CLAY

Teacher Nelson Hse (Prot) Day School

THIS is the story of Nehemiah Teaboy, of Nelson House, Manitoba, as he told it to me the other day when I went up to visit him and his mother and to buy from them a pair of moccasins to replace my old and almost worn-out pair:

I am an Indian boy. I was born thirteen winters ago in a rough log cabin that stood, along with several others, on the rocky shores of ice-bound Kechesakahakan Lake. It was from there, the winter rendezvous of several Indian families, that our fathers hunted and trapped.

I belong to the Muskego tribe of the Cree Indians. My name is Nehemiah Teaboy and I like it very much. The first part is from the Bible, being the name of one of the books. My grandmother's sister picked it out for me when I was born. There is a story about the second part of my name and I shall tell it to you.

Long, long, long ago, when my father's father's father's father was a young man, there came for the first time white men to live in this part of the country. Of course, they had been to see my ancestors before that and to trade for the furs which they had caught, and my ancestors had travelled many days to see the strange white men, but the white men had not come to build dwellings and to live with them before. These white men that came belonged to a great company of men called the Hudson's Bay Company. They built big houses of logs and traded with flour, tea, knives, axes, guns, powder, shot, cloth, and beads for the furs which my forefathers caught. In summer my ancestors used to bring their dogs and all their belongings and pitch their wigwams near the Company's post; then in winter they travelled far away and trapped and hunted.

Now, in those olden days, my great-great-grandfather's name was Kekanaskaskan, which means "a quill." The white men found this name so hard to say and to remember that they changed it. My great-great-grandfather liked to drink the white men's drink made of leaves called "tea," so the white men of those days called him "Teaboy."

The Hudson's Bay Company still have a fur trading post and my people still trade their furs to them; but things are very different now than when my ancestral name was Kekanaskaskan. Instead of old muzzle-loading muskets and powder and shot, we have modern highpower rifles; instead of using the light of fires to see by at night, we have candles and lamps; instead of birchbark canoes, we have canoes made in a far-off factory; instead of dressing in rabbit skins in wintertime, we use woollen clothes. My people have been taken under the care of the white man's government and we have a Reserve where we can build houses. There is a church and also a school. If my great-great-grandfather saw all these things now he would be very surprised.

Our Reserve is around a large lake called Waskewasko which is away in the northern part of Manitoba. About 140 miles away is the nearest point of the new Hudson's Bay Railway. In the summertime we often go down there to see the trains and other strange sights of the white man. When I first saw a train I was very frightened and ran away as fast as I could go; but when I saw that the eskotaotapanask didn't chase me and that the other boys and girls didn't run, I soon came back and was no longer afraid. We call the train eskotaotapanask, which means "fire-toboggan."

In summer, most of the Indians of this band come and live on the Reserve. Some of them have houses; others live in wigwams. The Hudson's Bay Company's fur trading post is at the Reserve as well as the church and the school. The nearest Reserve to us is over a hundred miles away and when we go there, as well as to the "steel," we have to go by canoe in summer and dog-sled in winter. There are no permanent camps along the way.

In winter, nearly all the men of this band go away to hunt and trap. Sometimes the women and children live on the Reserve, but that is not often; generally, the men take their families with them. This winter my father and one of my big brothers went away into the far north to trap the white fox. They went away by dog-teams and left here last November. The white foxes live just on the edge of the Barren Lands about 350 miles north of here. Father and brother intended to build a shack just where the timber stops growing, for there are no trees on the Barren Lands. From this shack they were going to run two trap-lines with about eighty traps in each. They took enough flour and tea and lard and clothes and ammunition to last them. There are many caribou in that part of the country which they can kill for meat. It is now the beginning of April and we have had no word from them. Father said they would be back about the middle of this month or sooner, so we expect them any time. I hope they have killed lots of foxes for there are many nice things at the Company's post that we would like to have.

My other big brother and his wife and my mother and smaller children have lived all winter in our house on the lake shore about a mile from the school and four miles from the Company's post. Brother is feeding us until father comes back: then father will look after all of us again.

Brother, whose name is Moses, has a trapline up the river and around some other little lakes. I go with him when he looks at his traps. He drives a team of five dogs. I run ahead of the dogs so they will pull better. Sometimes.

we are away for two or three weeks. We take our blankets and grub and guns and live out in the open. We dress in moose-hide moccasins and mitts. They have many pretty beads on them. I have a moose-hide coat, too, with beads on it; my brother has a coat made of a caribou-skin with the hair left on. These coats are short so we can run. They have hoods on them to keep our heads and faces warm and to keep the snow from falling down our necks when we make a camp in the bush. The women make the moccasins and mitts and coats for us. Next winter I am going to have a pair of moose-hide trousers, too; I have to shoot the moose first.

There are seventy-five traps in my brother's trapline. We have caught several foxes, some mink, many weasel, just three marten, four otter, and have snared three lynx. We use brass-wire snares for the lynx and not traps. I like to be with my brother looking at the traps. It is cold sometimes but I don't mind that. Often I drive the dogs while my brother is forerunner. Soon we will be lifting all our traps up.

This winter I went to school only a little while. I would rather be out with my big brother. It is all right for my little brothers and sisters to go to school but not for a man like me.

There are still no signs of spring yet, though it does get mild about noon on calm days. The ice on the lakes will last for another month or more, but on the rivers it will break up sooner. To-morrow, Moses and I are going out to lift up our traps and bring them in. By that time father and Jeremiah will be back from the north. Then we will all go away for the spring rat-hunt. Mother and my little brothers and sisters are going, too. They will be glad to have a holiday for they have gone to school nearly every school day this winter.

We will put all our things on our two jumpers and go over to Waskwatoya Lake. That is about four days' journey from here. We will only have to sleep three times. Amos Moose and his family are going with us. It will not take us long to pack up. We will take

"My brother has a coat made of caribou-skin with the hair left on."

enough flour and tea and lard to last until the ice goes out. We will not use toboggans to go with, but jumpers. Toboggans are like flat turned-up boards, but jumpers have two runners. We use jumpers in the spring because the snow

"Sometimes it is a week or more before the water will run through the cracks in the ice and leave it bare."

in the bush melts long before the ice on the lakes and rivers. This water runs down on to the ice of the rivers and lakes. Sometimes it is a week or more before the water will run through the cracks in the ice and leave it bare, and we may have to travel through four or five inches of slush. The runners on the jumpers keep things from getting wet.

When we go on the rat-hunt we will lash our canoes on to the jumpers because we will not return until open water and we will need them to get back with. We will put what we are taking with us, blankets, canvas covers, pots, pans, pails, traps, rifles, food, and clothes, into the canoes.

We are not taking any meat along because we may kill a moose or two and we like to eat the muskrats after we skin them. They are good.

When we get there we will make a camp. We will not make a house, only some pole teepees, and we will live in them. We make a teepee, or wigwam, by standing poles up in a circle about ten feet across. The tops of these poles meet and interlock. We cover the outside with pieces of canvas, birchbark, and spruce bark. This bark is easy to peel off in the spring months.

At first we will have to trap the rats through the ice; but it will not be long now before the ice melts in the shallow swamps where some of them build their houses. The rats like to swim in the creeks and these open up sooner than the rivers and lakes. We set our traps along these little streams and this is how we do it. Rats like to eat bark from poplar saplings. We cut a sapling and place it along the sloping bank of a stream as if it had drifted there and stuck. To the sapling we fasten the trap. Then we set it under the water at the most likely point where the rat will climb up. When he gets caught he tries to swim away and drowns. My father and Jeremiah and Moses and I should get about two hundred rats. We hope to get about a dollar and a quarter apiece for them, but that we can never tell; sometimes they sell for a lot and other times they don't.

Now I must run along. Matthew Bignell killed two moose yesterday and he is having a feast this afternoon and a dance this evening. Moses and I are going over to his place.

And that is the story of Nehemiah Teaboy as he told it to me the other day when I went up to visit him and his mother and to buy from them a pair of moccasins to replace my old and almost worn-out pair.

SCENE I

A schoolroom. Table, chair, stove, door, window. Betty seated at the table with writing material, head leaning on her hand, staring disconsolately out of the window.

BETTY.—It is awful to be a girl! To have to go to school! And worse than awful to have to stay in, on a glorious day like this is, when every puff of the breeze is an invitation to run out and play. Here I am, cooped up in this dingy hole, and expected to write an essay on trees. I am sure it would do me far more good to be playing outside, studying Nature that way, than having to stay here writing about it, and DETESTING it. Who cares how long a silly tree lives, or whether its leaves are pointed or round? After all its main use in life is to burn well or build well. (*Yawning*) Oh dear me! I do feel so sleepy. Well, I suppose I must make a start sometime.

(*Takes up pen, stares at exercise book, then gradually her head nods and she lays it on her arms on the table.*)

CURTAIN

SCENE II

Same schoolroom with the spirits of the trees standing artistically arranged, and the stove. Betty asleep at the table. Waking, looks wonderingly at each, rubs her eyes.

BETTY.—Who on earth are you funny little creatures? (*Walks round each, inspecting each in turn*) Some of you are quite pretty. I am sure you cannot be mortals, so you must be fairies or brownies. Why, yes! I DO believe you are the real brownies from the woods (*clapping her hands with glee*). How perfectly lovely!

YELLOW BIRCH.—No, Betty, we are not brownies, but very old friends of yours. You may not recognize us, as we are at present. I am the spirit of the Yellow Birch, from which the table is made. This is Sugar Maple (*indicating each in turn*), from whose wood the desk is made; White Pine, which provides the wood for the door, and White Spruce, the wainscoting and the paper on which you write. The stove you, of course, recognize, and, dear me, I was nearly forgetting the Douglas Fir.

DOUGLAS FIR.—(*Complainingly and very crossly.*) Yes, indeed! and we have REALLY come to tell Betty what we think of her! Silly trees, indeed! (*turning to Betty*) I wonder where YOU'D be if you hadn't a shelter to keep the cold and the draughts out. I have come all the way from British Columbia, losing my 250 feet of dignity, going through dreadful things, too. Being cut off in my youth, dragged and planed—

SUGAR MAPLE.—(*Turning to Betty in apologetic way*) Don't take any notice of him, Betty. Douglas Fir always did have a lot to say—though there is one person who can keep even him quiet.

BETTY.—And who is that?

SUGAR MAPLE.—The Red Demon! (*They all shudder and look alarmed.*)

BETTY.—What is the matter with all of you? Why do you look so terrified?

DOUGLAS FIR.—Ah! if hundreds and hundreds of your family had been devoured as mine have been, you would shudder. It is often mortals like you that let this demon loose.

BETTY.—Yes, yes! but tell me who he is. Is he an ogre or a bad fairy? He sounds dreadful!

THE STOVE.—I am not afraid of him, he feeds me every day—though it's true I do get very red at times in my attempt to control him, and he caused this crack in my side (*showing the crack*).

BETTY.—(*Stamping her foot*) I'll bang all your silly heads together soon, if you will go on talking in riddles. WHO IS THE RED DEMON?

ALL TOGETHER.—FIRE!

BETTY.—Well, I don't see what you are making such a fuss about. Like all hot-tempered people you have to handle him with care. Very little will start him and cause a lot of trouble. Again, like one's temper, if you let it run on there is no knowing where the damage will end. But let us change the subject. Tell me about yourselves. You see, I have been kept in to write an essay on Canadian trees, so you quaint little people can help me a lot. Sugar Maple, you are so pretty that I am sure you must be in great demand.

SUGAR MAPLE.—(*With much hauteur*) I suppose I am the most distinguished—

DOUGLAS FIR.—(*Interrupting*) Nonsense! (*Turning to Betty*) Sugar Maple is so full of airs! You ought to go to British Columbia and we'd—

BETTY.—Oh, Douglas Fir, please stop being so arrogant, and let us hear what Sugar Maple has to say. Of course, we all know "The Maple Leaf" gives him a little right to distinction, being Canada's song, and then, too, his leaf is the emblem. Indeed, I should be proud of it myself.

SUGAR MAPLE.—We are also proud of the beautiful bird's-eye wood, which is so much sought after for special pieces of furniture—and then, of course, we also supply sugar. Unfortunately, insects are a great plague, and if only mortals

sit on my arms here and whisper into my knotty ears and we could exchange many a secret. I know more about the world by standing still and listening to the birds than you do or could if you had twenty foolish legs to hustle you about.

"Would you believe it, last week some Cedar Birds (perhaps you call them Cherry Birds) were eating my berries when along came some cousins of theirs from Northern Canada, and they made me their convention tree! Yes sir, I was the general headquarters. The two flocks mixed together, and such a lisping and chattering!

"Bohemians were telling Cherry Birds all about the new north, and how Canada is becoming peopled far away where your legs could never carry you without help. And they said that Northern Ontario which, not so long ago, was forest, is now becoming mining and farm lands.

"On another limb Cedars were telling Bohemians all about some terrible floods on the Mississippi River, down where Bohemians seldom go, and of floating barns and swimming people, and of water rushing down and covering the land. They were most astonished to see rivers going so wild, but all the rivers will go wild in spring when the snow melts, and dry up as dry as a bone in summer, if men with two legs and no sense go on cutting down all the trees, for trees hold back the water in spring and let it out of the ground gradually all summer.

"Oh, I heard many things they said, but what I liked best of all was what they said about me. They liked me very much; they enjoyed my berries, and made me so happy that I want to sing. Listen, and I will hold my leaves in the wind and sing you a song":

SONG OF THE MOUNTAIN ASH

Oh, I am a fruiting-gay fountain,
Spray-drooping my clusters of red,
Oh, I am the Ash of the Mountain,
Who heard what the Cherry Bird said:
He said, "Oh what lovely, ripe berries!"
As jauntily up went his crest,
"They're juicy and better than cherries,
I'll eat a few, saving the rest."
He told the Bohemian Waxwing,
His cousin Canadian bird;
And when they came mockingly lisping,
I listened and caught every word:
They said, "Here's a tree like a fountain,
With drops of a fay-frozen dew:
Hurrah for the Ash of the Mountain!"
Then aimlessly offward they flew!

Autumn Poetry

There is one song of autumn that has become a sort of birthright of every Canadian. It is "The Passing of Autumn," by Archibald Lampman. No poem is so often or so lovingly quoted at this time of year.

The wizard has woven his ancient scheme
A day and a starlit night,
And the world is a shadowy, pencilled dream
Of color, haze and light.

Like something an angel wrought, maybe,
To answer a fairy's whim,
A fold of an ancient tapestry.
A phantom, rare and dim.

Silent and smooth as the crystal stone
The river lies serene,
And the fading hills are a jewelled throne
For the Fall and the Mist, his Queen.

Slim as out of aerial seas
The elms and poplars fair
Float like the dainty spirits of trees,
In the mellow, dreamlike air.

Silvery-soft by the forest side—
Wine-red, yellow, rose—
The wizard of Autumn, faint, blue-eyed—
Swinging his censer, goes.

There are many other autumn songs by Canadians, that lovely one by Wilfrid Campbell, for instance—

Along the line of smoky hills
The crimson forest stands,
And all the day the blue-jay calls
Throughout the autumn lands.

Now by the brook the maple leans,
With all his glory spread,
And all the sumachs on the hill
Have turned their green to red.

Now by great marshes wrapt in mist,
Or past some river's mouth,
Throughout the long, still autumn day
Wild birds are flying south.

The End of Summer

"When poppies in the garden bleed,
And coreopsis goes to seed,
And pansies, blossoming past their prime,
Grow small and smaller all the time;
When on the mown field, shrunk and dry,
Brown dock and purple thistle lie,
And smoke from forest fires at noon
Can make the sun appear the moon;
When apple seeds, all white before,
Begin to darken in the core,
I know that summer, scarcely here,
Is gone until another year."

Zechariah Loonfoot: The Nomad

By CHARLES CLAY

IT WAS a bright, warm, Saturday afternoon in early September when Zechariah Loonfoot, my young Indian friend, and I strolled through the bush along the path that led from the Mission buildings to a bit of sandy beach about a half-mile up the lake shore. Had we followed the shoreline, we would have been a half-hour scrambling over great rocks and skirting deep bays; the path, though in a few places a little muskeggy, was much shorter and easier. In ten minutes we pushed past the fringe of willows on the edge of the forest-growth and came out on the beach. Fifty yards on each side of us the sand came to an abrupt end, and the shore continued as steep, rocky ledges, sometimes shelving and sometimes dropping sharply, into the lake. From the water to the willows the yellow sand could have been paced in a score of long steps.

A breeze blowing off the lake soon dispersed the swarm of mosquitoes and black-flies that followed us out of the bush.

As usual, when Zechariah was around the Mission and we were able to slip away without the smaller children following us, we hurried off with our clothes in a race for first into the water; and as usual, Zechariah, who wore only a shirt, a pair of pants, and moccasins with what were once socks, was splashing and blowing before I rushed into the cold, crystal-clear lake.

Even in the hot summer days we had been glad to get out of the water, it was so cold; and so it was that soon we were sprawled full-length on the sand, Zechariah's dark-brown skin glistening in the slanting rays of the low September sun.

Ours was a strange companionship. I was the teacher of the school on the Reserve, which was in far Northern Manitoba. Zechariah was a young Cree Indian lad about sixteen years old. He could speak and understand a little English, and I could speak and understand a little of his native language. Sometimes I would try to tell him about the great outside world which he had never seen; about the railroads and trains, and large boats, and high buildings, and bridges, and other man-made wonders; while he, in his turn, would try to tell me about his life and the things he had done.

"We usually carry from two to three hundred pounds."

That Saturday afternoon, in early September, I was the first to break our silence.

"You are going away soon, Zechariah?" I asked him in his language.

"Yes," he answered in English, clipping the word off short, as was his habit.

We lapsed back into silence.

In a few minutes I asked again: "Where are you going to trap this winter, Zechariah?"

"Kesatinew Sepe," he replied, this time in Cree.

"Old Man River, eh?" I returned, to make sure I understood him.

"Uh-hu," he grunted, as he gazed out over the lake with his sombre, black eyes.

"When are you leaving?" I questioned, after another short silence.

"Maybe next week;" this time he spoke in English.

Silence dropped between us once more.

"How do you go from here?"

Zechariah made no move to answer my question, but I understood him and waited; I knew that when I became impatient he often shut up into monosyllables. I lay still on my stomach, and, chin cupped in my hands, idly watched the tiny waves breaking, one following the other, on the rippled sand.

Suddenly he stirred himself, reached for a bit of stick that lay near by, and began to smooth out the sand that was between him and me. I sensed a story.

"It's like this," he commenced; and here I set down for you just what he told me, partly in English and partly in Cree:

"This is Footprint Lake," he made a little circle in the smoothed area of sand, "and this is where the Mission is;" he stuck a bit of twig on the shore of his replica of Footprint Lake, "the directions will be the same as Nature.

"You know how every fall most of my people leave the Reserve and move away to trap through the long winter. Summer is over and some of them have already gone. There are not many fur-bearing animals near the Reserve; they have been killed off or frightened away, so we have to scatter over the country in order to get enough to make a living. Several families go together and build shacks on the bank of a lake or river. They may travel a week, or even two weeks, from the Reserve before they make their camps. In these trapping-camps they will live all winter, and from them the men will set out their traplines.

"Well, my father has decided to leave maybe next week. There are about twenty of us going up to Old Man River. We shall make a camp together. There are my

father and mother and my two sisters, and my young brother and myself; there are my married brother and his wife, and family of four; there are my father's brother and his wife; there are my mother's sister's husband and family of six children; that's twenty-two of us," and he counted them off on his fingers.

"It will take four eighteen-foot canoes to carry us and our things, for we shall take all the movables from our houses, except the hand-made beds and tables and chairs, and the stoves. We will not need the furniture in our camp, and we will make fireplaces instead of carrying stoves. We will have to take with us all our bed-clothes, our pots and pans and pails, our axes and guns and traps, our clothes and things, flour to last until Christmas or longer, lard and tea and sugar and jam and baking-powder, cartridges for the guns, fish-nets, and odds and ends. We must find room in the canoes, too, for our dogs and their harness and the toboggans; we shall need them for winter travel.

"When we leave here we shall go up the Rat River," and he marked on his sand map with his stick the course of the Rat River, which empties into Footprint Lake on the west. "Although this river flows from the northwest—and where we are going on Old Man River is northeast of here—this roundabout way is the best canoe route. We have about 350 miles to go and if we are not held up by heavy fall winds or rains we should make it in a little over two weeks. We go up the Rat River to its source. There are about twenty-three portages around rapids, but they are mostly short [illegible].

"Along the Rat River there are several lakes. Here is Swan Lake," and he drew on the sand a small circle a short distance up the river. "The next lake is Pemachikamaw," and it was put on the sand map.

"What does Pemachikamaw mean?" I interrupted.

"It is Cree for Cross Lake," Zechariah answered; "it is a long, narrow lake lying at right-angles to the river. We cross over it about the centre. Between Cross Lake and Swan Lake the country is very rough and there are many falls and rapids which we shall have to go around. They make slow going. When we come to a portage we all have to get out and everything must be carried over it. The women and children all help. When everything is across we have to put the canoe in the water again and reload it.

"Portaging is hard work. We use pack-straps. They are long, leather straps fastened to a wide head-piece of leather. The straps are tied around the ends of a box or something, leaving a loop with

"When everything is across we have to put the canoe in the water again and reload it."

the head-piece in the centre of it. Then this head-piece goes across the forehead and the box rests on the back. The remainder of the load is piled on top. We usually carry from two to three hundred pounds, but I have seen men trot over a portage with 400 pounds. The women and children carry the awkward things across the portages, such as paddles, oars, loose blankets and small articles. If it is a long portage, oars are fastened to the thwarts of the canoe and one man carries it over, but on a short portage two men take it, one at each end, and jog over with it. An eighteen-foot canoe weighs about 170 pounds, but they are very awkward and bump into the trees.

"At night we shall make camp wherever we happen to be. If it rains, we shall make shelters out of canvas covers. Our beds will be our blankets laid on a mattress of spruce-boughs on the ground. Our camp fire will give us heat and light. Each night we camp we shall have to set a net to get fish for the dogs and for ourselves. We shall lift it each morning and take it with us.

"Other lakes on the Rat River are Wuchusk Lake, Notigi Lake and Karsakuwikamak Lake," and he marked them down on his sand map. "Wuchusk means 'rat' and the lake is so named because its shores are low and marshy and muskrats build their houses there. Notigi means 'old-wife.' Long, long ago, when my father's father was a little boy, an old woman strayed from a camp on the shores of this lake. She was never found, because a spirit took her away to keep his fire burning. Ever since the lake has been called Notigi Lake. Karsakuwikamak means 'narrow.' This lake is long and narrow, and is but a widening of the river; hence the name.

"We go right up the Rat River until it becomes a little winding creek among some sand and stone hills. That is a height of land. We must then cross over a three-mile portage to another small stream and go down it. That brings us to a large lake called Ithinyew, or Indian Lake, which is a part of the Churchill River." Indian Lake was added to the sand map, in a north and south direction. "We go down this lake, keeping close to the shore. It is too big to go out in with our small canoes. We shall be many days going down this lake. It is joined to Sandy Lake by a short river which we go down." And Zechariah drew the lake and river, changing the course to north by east. "On this river is Missi, or Big, Falls. It is only twenty feet high, but it is many hundred feet wide. It makes an awful noise. We go across Sandy Lake and down the Churchill River to where Old Man River empties into it. There are many portages along the Churchill River. Then we turn up Old Man River and travel about a day and a half to where we are going to make our camp. That will be near a wide, shallow rapid where the fishing is good."

Zechariah completed his map by adding the Churchill River, running east, and the Old Man River entering it from the north. Where the camp was to be he stuck another small twig.

"First, the men will build our winter homes. These will be square, log shacks, two of them. They will be about fifteen feet on a side. The roofs will be low and flat, made of poles covered with moss. There will be no windows, but the light will come in through a hole in the roof. These holes will be just over the hearths of the fireplaces, which we shall make, one in each shack, of mud and sticks and stones. The walls will be chinked with moss. The floors will be the ground covered with spruce boughs, and will be our beds, tables and chairs. The fireplaces will give us light at night.

"It will take them two or three days to build these houses. The women will set the nets just below the rapids and catch fish. We have twenty dogs and that will mean a great many fish for the winter months. We catch them in the fall and hang them up in racks. The days are cold enough to keep them until they freeze solid. To hang fish, we cut sticks about thirty inches long and about one inch thick. Ten fish are threaded through the tails on to each stick. Then these sticks are hung up in a rack out of reach of the dogs. Each dog needs a good-sized fish a day, so we shall have to kill about 5,000 fish. They are very plentiful up there, and that will mean only a few days fishing.

"Usually, as far north as that, about the middle of October the smaller lakes and rivers have frozen over and we can travel on them. As a rule the snow comes before the waters freeze over. From our winter camp we shall set out our traplines. There will be four of them running out in different directions. They will average about 150 traps apiece, as well as snares and deadfalls. We don't know how long they will be yet; that depends on what the fur signs are like. Our traplines generally take a week or ten days to go out to the end of them. They keep us busy.

"There are many falls and rapids which we shall have to go around."

"We shall live in our shacks all winter. While the men hunt and trap, the women will tan the moose-, deer-, and caribou-hides of the animals we kill, and make coats, pants, mitts and moccasins of them. We do not tan the other pelts; just dry them on stretchers. That will be part of the women's work, too. The animals we catch in our traps—foxes, lynx, mink, marten, weasels, wolves, otters, die of the cold and freeze stiff. We have to bring them to camp and thaw them out before the women can skin them and dry the pelts.

"Just before Christmas, my father and I plan to come back by dog-sleigh. We shall bring two teams and carry what fur we have killed. The winter route is across country"—here Zechariah drew almost a straight line from the camp to Footprint Lake—"and we can make it in about six days coming out. We shall stay for Christmas and take back with us supplies for the camp. The return trip, loaded, will take about nine days, as they are so short then and we cannot travel by night.

"We expect to come out for Easter, too. That is, my big brother and my uncle will come then. They will bring down fur and take back supplies. The days are longer then and the trip will be shorter and easier.

"In the spring, when many of the animals are past prime, the muskrat season begins. Old Man River is so far north that we can trap rats until June. Then we shall pack up our whole outfit and come back by the canoe route. We shall be here again around the end of June and shall live all summer in our houses. Treaty time is about the middle of July, when we get our Five Dollars each and more twine for nets and the cartridges for guns.

"Before we know it, we shall have danced and smoked the summer away and it will be time to get ready to go north for winter trapping again."

His story came to an abrupt end. For several minutes we lay there; he, slowly erasing his sand map with deliberate strokes of his stick; I, watching his brown face with its fine features, the flashing black eyes, aquiline nose, square chin, small, generally silent, mouth—an Indian, I thought, a nomad of the North.

As usual, I made no comments on what he had said; I had learned that silence was to him the best appreciation.

Suddenly I became aware that a cool shadow was across me; the sun was sinking behind the trees.

"Time to go, Zechariah," I stirred.

He looked toward the sun. "Yes," he said in his precise way.

We hopped up, brushed off the sand, and were quickly dressed. A few minutes later we were padding our way along the bush trail in the direction of the Mission.

November Eve

By REBECCA HELMAN

The sleet and snow raced with the rain,
And clattered on the window pane;
The wind whirled by, the wind lay still,
The wind ran down from the farthest hill,
And shook the boughs on the bare old trees,
And bent the saplings to their knees.
The wind swooped down from a huge black cloud,
And he laughed and sang and his voice was loud.
"Ha, ha!" cried he, "turn on the light,
For you must stay indoors tonight,
So stir the fire and find a book!"
And he laughed and laughed till the windows shook!

The Fire-Fly Lantern

By WALLACE HAVELOCK ROBB, OF ABBEY DAWN

I know a gnome named Gramkin;
He lives in a gnarled oak.
He carries a lighted pumpkin,
And he knows all fairy folk.

I met him in the twilight,
Inviting fire-flies
To come and make his lantern bright
With twinkles in its eyes.

"Ho, ho!" laughed grim old Gramkin,
"No candle light for me!
Mine is a magic lantern —
A pumpkin that can see!"

"Come fire-flies," Gram chuckled,
"It's dark! Don't be so slow!"
The pumpkin eyes then twinkled —
The lantern was aglow!

"The [redacted] John [redacted] Harpers, you mean? It is this way. We Indians have always lived in bands, or [redacted] and when the white man's government made treaty with us we were given reserves to make our homes on. We do not mix our tribes much and thus there is a lot of close inter-marrying. Some of the family names have been swallowed up. My people are fond of naming children after relatives, and a good spirit will follow a child who has been named after some one who has done something big. Many years ago there was a man the white traders named John. This man travelled 200 miles across country in three days to carry news of a strange sickness and seek help for his people. So you see the swallowing up of the family names and the fortune attached to 'John' caused five John Harpers here."

I smiled inwardly at his naive explanation.

"Your people like names from the Bible, don't they, Isaac?" I asked, hoping to draw him out again.

"Yes, netotam, they are good names. My English name is Isaac. I like it. I like my Indian name too. Kekanaskaskannes means 'little quill.' I have four brothers and a sister, Laban, Joshua, David, Joseph, Solomon and Rebecca. They are good names."

When Isaac named his brothers and sister so, I recalled an incident of my first year's teaching among Indians. It was preparatory to a christening. An Indian father had chosen, all in good faith, Beelzebub, as the name for his new son! It was only after much and long arguing that the father was persuaded to abandon the idea; he went home deciding to choose another name. The day of the christening arrived, and little Macdonald was named Nebuchadnezzar, for nothing would induce the father to change again!

"Have your brothers and sister Indian names, too?" I asked Isaac after some minutes silence.

"We all have Indian names," he answered shortly.

The Awhawhateek branch of Indian children at Nelson House, Manitoba. It is Friday afternoon and school is closed. The children have spent two hours clipping and pasting and now they are going home with their work to show their parents. It will be hung on the log walls of their shacks and proudly shown to all visitors. It is publication time, too, and each one has a copy of "The Canadian Red Cross Junior."

I saw I had asked a tactless question. The old man was hurt. There was, I saw then, Indian pride in the old order of the past. Even if the white man could plant new names of his choosing on them, they could have their own names also.

"And these names, Isaac," I continued, in an effort to keep a warm atmosphere between us, "how are they given?"

"Sometimes they are the name of an illustrious ancestor. Sometimes they are given because of a place where one is born, such as Kecheusine, 'big rock.' Sometimes they are given because of something that happens the time one is born, such as Tawepesim, 'horned-moon.' These names sometimes change. You know David Spence? His name used to be Sokenepe, 'loud-water.' But last summer he was clawed by a she-bear. Now we call him Maskwanapao, 'the bear-man.' It is sleep time."

Isaac broke off his narrative with characteristic Indian abruptness and, fully dressed, he slipped in between the folds of his rabbit-skin robe and cuddled up like a curled dog.

More leisurely, I pulled off my moccasins and wrapped them up in my coat for a pillow, crawled into my eiderdown sleeping-bag, loosened my belt and braces, and stretched out with a contented sigh.

The stars overhead twinkled brightly. The Great Dipper was standing on its handle, the Three Moose Hunters were dropping behind the tree-tops, all Night that was near us was at peace. Isaac's heavy breathing indicated sleep. My last recollection was a dull pop of a cooling fire-brand. I fell asleep.

And all the bannered sumacs
Have heard the frosty call.

Who then so dead to valor
As not to raise a cheer,
When all the woods are marching
In triumph of the year?

The Adventures of Mostly Neck

By WALLACE HAVELOCK ROBB, OF ABBEY DAWN

This is a true story prepared, with photos, especially for the readers of "The Canadian Red Cross Junior."

THIS is not a long story, but it is a happy one. "Mostly Neck" is the odd name we gave to a bird in our Sanctuary. And how do you suppose he got that name? Well, it is one of the nicest stories that could ever happen.

I'll tell you about it.

"Mostly Neck" was a sick, sad, sorry, and starving bird. He was a prisoner held by a cruel and cutting wire fastened around his leg. And how he managed to break away from the mean and hard-hearted person who held him captive is more than I can tell.

All I know is this: He had been found in a garden in Kingston, trying to catch a bug or two for breakfast, or a toad—oh, the poor toad! I suppose he would swallow a toad, for toads are much like frogs, and these birds live on frogs and such like. Anyhow, there he was, standing among the stalky plants and trying to look as much like one as possible, for he is a Bittern.

Around this poor, unfortunate Bittern had gathered a crowd. Everyone was afraid to go near him for fear of his sharp beak. Very wise people I should say, for one jab of that swordlike beak would stab like a knife!

So the people craned their necks to have a look at him, and he craned back at them; and, I suppose, that is how it comes that these long legged and long necked birds are commonly called cranes. He craned his neck, though, for a sly and double reason. You see, he is a Bittern, and he lives among the reeds and rushes. Now, here's a strange thing: Mother Nature has made him tall and slender so he would not be so conspicuous, so easily seen, when in his home surroundings. But after she looked him over, to see how easily she could see him among the reeds, Mother Nature said something like this: "Tut, tut! This will never do! You're still so fat and bulky that any stranger could pick you out and see you plainly. I shall have to paint you in long, straight lines. I'll make your feathers grow so that when you hear people or enemies coming, just crane and stretch as tall and thin as possible,

"Mostly Neck," the captive Bittern.

and the streaky effect of your plumage will make you look exactly like the reeds among which you are hiding."

So there, in that garden, he stretched and craned, trying to fool all the little boys and girls who wanted to be near, but not *too* near him. And they wondered what to do.

At last someone thought of the Poet who knows the birds, and word was sent to ask him to come.

When I arrived on the scene the Bittern was raging with fear and anger. He struck at me, for how could he know I was his friend? But I talked to him a while and then picked him up. I could see he was weak and weary—and dying on his feet!

All the children wanted to see him, so they were permitted to view him at close range.

"Oh, look!" said one, "What a shame! Look, Mister, the wire is cutting his leg!" So we gently removed that. Then another lad said, "He's a crane, all right; I have seen ones like him in the marshes. His legs are the biggest part of him!"

"Go on!" countered another chap about twelve years old and holding his little sister on his back so she could see better, "Legs nothing! He's *mostly neck!* And when he swallows a frog it has a long way to drop!"

Everyone laughed with glee and gladness, for they knew the bird was in kind hands. So I said, "We'll let the Bittern go free in the Sanctuary at Abbey Dawn, but we'll call him "Mostly Neck" until he is able to fly away.

Poor Mostly Neck was so empty that he nearly died, for the mean people who tied him a captive either could not feed him or had not the sort of food he liked. But we soon fed him, and before night he was feeling better. Another meal in the morning put such life into him that he tried to fly and actually did fly from the kitchen table to the sink. So we said, "Let Mostly Neck go. He's well enough to find his own food."

And, would you believe it? he was in no hurry to fly away. So I said, after I had sent my lad, Joe, for my camera, "I'd like to get your picture for the children of the Red Cross Junior, and tell them of your adventures. Will you stand still, Mostly Neck?"

Mostly Neck stiffened up, stretched his neck to its limit, craned, and tried to look his streaky best. Then, after he heard the camera click, he quietly retreated to the safety of the sanctuary reeds. He flew up a few hours later, but descended again in another marsh in the sanctuary.

Isaac Tells a Story of Queer Indian Names

By CHARLES CLAY

OLD ISAAC had often agreed to take me "wuchusk"/ hunting with him, and as the week-end promised to be particularly fine, I persuaded him to set out Friday afternoon after school. We loaded a small canoe, tied it on a sled with iron-shod runners and stowed our outfit in it — a .22 rifle, a shotgun, traps, hand-axes, paddles, some rope, bed-rolls, and the grub-box.

It was a three-mile shove across the great ice cake that persisted in the lake, for it was thick and strong, and the rays of the May sun had made little impression except along the edges where it was shallow. Even there it was only melted ten or fifteen feet from the shore because the bottom shelved away rather quickly. The iron-shod runners of our sled sped easily along, and when we reached the other side of the lake where a small creek emptied, we untied the canoe, slid it into the water, loaded the sled on it and paddled off up stream.

In Manitoba's north the snow on the land melts long before the lake ice, and the resulting water floods streams which pour it down to rivers and lakes. It was up one of these flooded streams that we paddled, for with the first spring thaws the muskrats, or "wuchusks," come out of their winter lodges and search the banks of running water for fresh roots and the new bark of trees along the shores.

We spent the first day nosing up stream, making rat sets at likely spots. This was done by cutting aspen saplings, sticking them in the mud along the water's edge, and setting the trap under water close by. When the rat, swimming along in the stream, saw the sapling, he would come inshore to feed on the bark and he would step into the trap.

Friday night found us five miles up the creek, camped along the shore. A blazing fire lighted a mat of spruce boughs which kept our feet off the cold ground, and which would later be our bed. Our stomachs were satisfied with boiled duck, for during the day we had surprised a flock of mallards and old Isaac had

This is Isaac, my old Indian friend, who told me so much about the names of his people that star-lit May night as we sat together on a mat of spruce-boughs before a camp fire.

potted two. Between puffs from a stub-stemmed black pipe, filled with a mixture of bark and tobacco, my old Indian companion sipped black, scalding tea, sugarless and milkless, from a cup made from a can that had once held canned beans. I contented myself with watching the dancing fire and musing on the queerness of Fate that I should be sitting, on a mat of spruce boughs, 150 miles from a post office, with a lone redman.

"Netotam (friend)," it was I who broke the silence, "your name is Isaac McPherson. The first part of it is Jewish and is found much in the Bible: the second part is Scottish. Why is that? I thought Indians had Indian names."

"My name, netotam, is also Kekanaskaskannes," and old Isaac sipped more tea.

"But then you have two names. How is that?" I asked.

My old Indian companion knocked the finished embers from his pipe, refilled it from a pouch made of a beaver bladder, and picking up a blazing twig from the fire relit it. I watched his methodic movements with little impatience, for I saw in them the beginning of, if not a story, some interesting comments. An Indian isn't to be hurried when you want him to talk.

"It is this way, netotam," and he was now comfortably squatting cross-legged on his rabbit-skin bed-roll. "Long years before the white man came we all had Indian names. There was Kechechachokos, 'a big star,' and Mesenepe, 'big water,' and Papase, 'the woodpecker,' and many others. But when the white man came he couldn't remember our names in our strange tongue, so he gave us names in his own language. My father was Metonenochemik, 'big wood,' and he was named James McPherson by the white traders. My father's brother was Wastasekot, 'bright nose,' and he was named Samuel Ross. And so were many men named. But while the white man called us new names in his strange language, we were always named by our own people also.

"Sometimes the white man when he gave us new names just translated our Indian names; Oskan became Edward 'Bone,' Kechekesekak became John 'Day,' and so on. And again our old names were sometimes used. You know John Napatapew. That means 'a row of birds'."

Isaac lapsed into silence and I feared my entertainment was to stop. Perhaps I could draw him out.

"But if you were all given new names," I asked, "how is it that there are five men on this reserve with the same name?"

August 31st,

Dear Mr. Ferrier:

On my return to the office, I find your letter of August 25th (#160-7) and enclosure, giving the list of teachers for 1931-2, with salaries. Accept my thanks for this.

A matter which has just arisen through the receipt of a letter from Mr. David Hanna, of Nelson House, calls for consultation with you. Mr. Hanna writes a letter, dated August 19th, stating that the Indians are moving away from Nelson House this Fall and that there will be very few people left there this Winter. He has been in conversation with the traders from Indian Lake, one of whom has offered him the use of a building for school purposes, and Mr. Hanna is of the opinion that it would be a good thing to go to Indian Lake before the freeze-up and see if it is possible to conduct a school at that point, where there is hope of having an attendance of about twenty children. This will, of course, be in the form of an experiment, and it may or may not be wisdom to carry it on after the end of November.

Mr. Beaton and I have talked the matter over and we have decided that before taking any action, we ought to have your judgment. Kindly wire us a reply, because it will be necessary for us to wire to Wabowden in order to get a message to Mr. Hanna in time.

With kindest regards, I remain

Yours faithfully,

It is unnecessary for me to say anything about Mr. Gaudin's qualifications, as he has previously taught at Nelson House. He is twenty-five years of age; he is the son of our missionary at Cross Lake, understands Indians thoroughly, and speaks Cree fluently.

A year from now we hope to have Mr. Gaudin return to finish his college course and we have a man in view for this position who will be a university graduate.

Dear Sir: Re: Indian Day School, Nelson House, Man.

Mr. Nelson Gaudin, who has been missionary-teacher at Nelson House, Manitoba, has informed us that he hopes to enter college and continue his course next Fall. We desire to nominate for the position of teacher of the day school Miss Lulu Ironstar, at present on the staff of the Brandon Indian Residential School.

Miss Ironstar is a member of the Round Lake Band of Indians, a graduate of our Round Lake Indian Residential School, who finished her High School work in the Brandon School under Dr. Doyle, and then graduated from the Brandon Normal School. She has taught successfully for two years under Dr. Doyle's direction and now, at her own suggestion and request, is being appointed to a day school in order that she may obtain the necessary educational experience.

The appointment of Miss Ironstar is quite acceptable to Rev. A. C. Huston and his wife, who are being appointed as missionaries to Nelson House and with whom she will have to live.

I trust that this nomination will meet with the approval of the Department.

Yours very sincerely,

Dear Mr. Sutherland: Re: Nelson House Indian Day School.

I am writing to inform you that on November 7th Miss Lulu Ironstar, the teacher who was appointed to this Indian Day School at the beginning of the present term, was married to Charles D. Squire, who up until the time that he had his banns called was known in the community as "Bill Clarke." As far as one can learn, he is not the type of man who can be considered much of an asset in the community. I feel rather strongly that we should send a new teacher into Nelson House the 1st of January, but before making a nomination I write to ascertain what the attitude of the Department would be.

Needless to say this is a very great disappointment to us, as well as to the Principals of the Round Lake Residential School, where Miss Ironstar did her public school work, and the Brandon Residential School, where she took her High School and Normal training and where she taught for a couple of years.

Hoping to hear from you at an early date,

I am

Yours sincerely,

Dear Mr. Beaton:

I have your letter of the 12th instant, informing me of the marriage of Miss Lulu Ironstar, teacher of the Nelson House Indian Day School.

Under present regulations, the Department will have no recourse but to request her resignation and appoint a new teacher. I would request that you forward a nomination, giving particulars as to qualifications, etc., and same will be submitted to the Minister for approval.

It may be difficult for a new teacher to get in to Nelson House at this season of the year, but it is hoped that arrangements can be made for the change as from the first of January, next.

Dear Mr. Sutherland: Re: Nelson House Indian Day School.

I have pleasure in nominating Miss Irene Bell as the successor of Miss Lulu Ironstar at the Nelson House Indian Day School. Miss Bell holds a first-class professional certificate and has had five years' successful teaching experience in the same rural school.

Miss Bell is a personal friend of Mrs. Huston, which is very important under the circumstances. The only place for her to live at Nelson House is with the Hustons and they are occupying the small house in which the Woman's Missionary Society nurse formerly lived, as our house was burned two years ago and has not yet been rebuilt. It is imperative therefore that someone should be sent into this very isolated post who will be compatible with the missionary and his wife.

Hoping that this nomination will appeal to the Department,

I am

Yours sincerely,

Mr. J. D. Sutherland,

Department of Indian Affairs,
Ottawa, Ontario.

Dear Mr. Sutherland: RE NELSON HOUSE INDIAN DAY SCHOOL

As you will remember from previous correspondence, Miss Irene Bell is being transferred to the Junior Room at Christian Island.

For the Nelson House Indian Day School we wish to nominate Mr. Ewart Monias. Mr. Monias is a member of the Island Lake Band, a graduate of our Norway House Residential School where, on passing the Entrance examinations, he secured the highest marks of any pupil in the jurisdiction of that Public School Inspector. He has since spent several years in the Brandon School acquiring both Junior and Senior Matriculation with First Class Honours, and has recently completed his Normal training in the Brandon Normal School with great distinction. I have letters from the Principal and the Director of Physical Education at the Brandon Normal speaking in the highest terms of Mr. Monias, both as a student and a teacher.

It has been my privilege to keep pretty closely in touch with him for six years. I know he has ability as a teacher from having seen him in action as a supply teacher in the Brandon School on the occasion of one of my visits.

He will marry an Indian girl, also a graduate of the Brandon School. The United Church of Canada has a small house at Nelson House which will be placed at his disposal, and we are prepared to pay travelling expenses for himself and his wife to the School even though this is a pretty heavy item. There is no furniture in the residence which we are offering him, and I am wondering if the Department could make a small grant towards furnishing it.

I hope that you will see your way clear to approve of this nomination and that the salary will be set at not less than $95 a teaching month, which is the present rate. I would appreciate an early reply in view of the fact that Mr.

Monias desires to visit his people before going into Nelson House. He has not been home for several years.

We realize that this is an experiment, but our missionary at Nelson House, Rev. A. C. Houston, who is a young man only three or four years out of College, has promised to give Mr. Monias every assistance, and there is probably no place in Canada where we could try him out to better advantage.

Yours very sincerely,

Kenneth J. Beaton

Ref: 22-B

Sir,

I beg to acknowledge receipt of Departmental letter No; 127-11-1 of the 20th July, advising of the approval of the appointment by the Home Mission Board of the United Church of Canada, of Mr Stuart Monias as teacher of the United Church Indian School at Nelson House.

As Nelson House is attached to The Pas Agency, I have taken the liberty of forwarding a copy of the Department's letter to Mr S.Lovell, Indian Agent at The Pas, and I am writing to him, and asking him to advise the Department as to the best way of getting some house furnishings out to Nelson House, as I am not acquainted with the methods of transportation to that particular point. On making enquiries here, however, I am advised that it would not be possible to get furniture to Nelson House until the Winter ti when horses and sleighs can be used for the N.R. Railway to freight it out to Nelson House. The S.S. would, I imagine, go by Hudson's Bay Railway to Churchill, and be freighted out from there to Nelson House.

With reference to the furnishings for the teacher's house, I have made a list of what I consider will be necessary, not including such things as bed linen, towels, table-cloths, and such like. The cost of the items listed, amounts to approximately $177.00 at Winnipeg; the list having been made up from Eaton's catalogue.

I am requesting Agent Lovell to advise the Department as to getting the furniture to Nelson House, immediately on receipt of my letter.

As Mr Monias will travel to Nelson House via The Pas, I expect, it would be well for him to report at the office of the Indian Agency there, where he will no doubt obtain information that would simplify his journey somewhat, between there and his destination.

Dear Sir,

I beg to advise that Mr. E. Monias, the teacher at the Nelson House Day School. (United Church) was taken sick and has entered the Pas Hospital. The doctor says he is suffering from appendicitus and will probably have to undergo an operation. He will therefore be away from his work for some time. He left Mrs. D. Squire in charge and she is teaching while he is absent from duty. Mrs. Squires is the former Miss Dorothy Ironstar , who taught at this school two years ago.

Mr. Monias left Nelson House on Nov. 24th and Mrs. D. Squires began teaching the following day. Nov. 25th. Could Mrs. Squires be appointed temporarily until Mr. Monias is able to resume his duties. I have just telephoned the hospital and find he was operated upon this morning so he will not be able to resume his work for at least another month.

Dear Sir,

The teacher of Nelson House U.C. Day School, Mr. E. Monias, has suggested that the School be open during July and the holidays be taken during August and September.

He points out that during July there are always a large number of children present that are away during a greater part of the year, consequently it would be much more beneficial for these children to be able to attend school during the time they are at Nelson House with their parents.

I recommend that the school be open during July and closed during August and September as the teacher suggests.

REPRESENTATIVE OF THE TREASURY

Re: Nelson House U.C. Indian
Day School No. 388

Owing to local conditions it has been decided to take the two months' holidays at the above-mentioned school during the months of August and September instead of the usual months of July and August.

Consequently the salary of the teacher should be paid for the month of July. No salary should be paid for the months of August and September.

Re: Nelson House U.C. Indian
Day School, No. 527.

Owing to illness Mr. E. Monies, teacher of the above-mentioned school, was obliged to give up duties on March 31, 1948, and no further payment of salary should be made to him until advised.

To succeed him it has been decided to appoint Mrs. E. Monies at a salary of $95.00 a teaching month. Her appointment will be effective from April 1, 1948, and she will remain in charge of the school until June 30, 1948. You will be advised later regarding the name of the teacher to be in charge of this school for the academic year 1948-49. I enclose copy of letter of appointment and staff questionnaire will be forwarded to you when received.

Reverend Sir:

I have just been advised by Indian Agent Lovell that Mr. E. Monias, teacher of the Nelson House U.C. Indian Day School, has been sent to sanatorium as he is seriously ill with T.B.

On the recommendation of the Agent, it has been decided to appoint his wife as teacher for the balance of the current academic year and I trust that this action meets with your approval.

Dear Sir:

I was sorry to learn from your letter of the 9th instant regarding the illness of Mr. E. Monias, the teacher of the Nelson House U.C. Indian Day School. In view of the difficulty of securing another teacher, it has been decided to approve the appointment of Mrs. Monias in a temporary capacity until the end of June, at which time further consideration will be given to the appointment of a teacher for the academic year 1942-43. In the meantime you should keep me informed regarding the condition of Mr. Monias.

I enclose the necessary forms which you should have Mrs. Monias complete and return to the Department as soon as possible.

I am sorry to get your letter of April 17th, intimating that Mr. Ewart Monias is seriously ill with T.B. Your action in appointing his wife as teacher for the balance of the current academic year certainly meets with our approval, but we should be glad to know from you whether, in your judgment, she is sufficiently well qualified that she might continue for next year. I am assuming that Mr. Monias will hardly be in shape to carry on then.

Dear Mr. Hoey: Re - Nelson House Day School

As you know, Mr. Ewart Monias, who taught school at Nelson House last year, is dead. We are having very great difficulty in finding a teacher to succeed him. Dr. Cormie makes the suggestion that your Department appoint Mrs. Mary O. Pay. Mrs. Pay is a fully certificated teacher of the Province of Manitoba. She is the daughter of our missionary, Mr. J. T. Blackford; her husband is serving overseas, and she has two small children. At the present time she is living with her father and mother. Mrs. Pay would not find it possible to undertake the whole charge of the school, but, if your Department were willing, she would give half of her time and for the rest of the period employ Miss Elizabeth Hutty as a sort of assistant. Miss Hutty is a young woman, whose father is a former minister of ours but who is now a trader at Nelson House. She has her Grade X, Manitoba. I think that, under all the circumstances, the school would fare very well, although the proposal is a little irregular. The salary would go to Mrs. Pay, who would share with Miss Hutty.

I should be glad to know whether or not this meets with your approval. Would you kindly write me in care of the General Council, Bridge Street United Church, Belleville, where I will be for the next week.

I am advised by Dr. Cormie that the school is in need of extensive repairs. There should be a new set of school books. The building should be fumigated and cleaned. The school door does not close "by more than a full inch at the bottom;" the stove is badly broken; and there are no storm windows. I think that steps should be taken to remedy this condition at once. I have no doubt you have means of communicating with the Agent, so that the matter can be undertaken.

Yours sincerely,

Dear Doctor Dorey:

I have for acknowledgment your letter of the 9th instant, in which you suggest that Mrs. Mary O. Pay, who is a fully qualified teacher, be appointed to take charge of the above-noted school.

The arrangement you suggest is, as you say, somewhat irregular or unusual, but I am disposed to think that in view of the acute shortage of teachers existing throughout the Dominion it is the best arrangement we can possibly make. Mrs. Pay will be allowed salary at the rate of $95.00 a teaching month plus cost-of-living bonus which at this date amounts to approximately 17%. The Department is not greatly interested in what arrangement Mrs. Pay may make with Miss Hutty, provided we have an assurance that the classroom work will be conducted regularly and effectively.

I am today communicating with the Indian Agent, asking him to take immediate steps to have the repairs necessary at the school undertaken and completed at the earliest possible date.

Re: Nelson House Indian Day School. No. 527.

I wish to refer to Mr. Phelan's memorandum of April 17, 1949, in which you were advised of the temporary appointment of Mrs. K. Monias as teacher of the United Church Indian Day School at Nelson House, from April 1 to June 30.

The Department has now approved the appointment of Mrs. Mary O. Pay as teacher of the above-named school, with salary at the rate of $95.00 per teaching month, plus cost-of-living bonus, effective October 1, 1949.

Copy of letter of appointment is attached, and other documents will be forwarded to you when received.

Dear Sirs

Mrs. Mary O. Pay has been nominated by the United Church for the position of teacher at the Nelson House Indian Day School and this nomination has been approved by the Department. We are sending forward herewith the usual questionnaire forms, which should be signed by this teacher and returned to the Department in due course.

Dr. Davey, in referring to certain repairs that are urgently needed at this school, states:-

> "The door does not close by more than a full inch at the bottom. The stove is badly broken and there are no storm windows. I think that steps should be taken to remedy this condition at once."

It would be appreciated if you would take the action necessary to have these repairs completed at once. In this connection it might be advisable for you to have a report from time to time on the repairs required at the schools in these outlying and remote districts.

EXTRACT FROM REPORT OF F. YULE, M.D., Medical Supt.

THE PAS AGENCY, dated March 1, 1946.

Original on 76-128

xxxx

128-11-1

Ottawa, April 27, 1946.

Mr. S. Lovell, Indian Agent,
The Pas, Manitoba.

The following is an extract from a report recently forwarded to the Department by Dr. F. Yule:-

"When one gets away from The Pas, schools are few and far between. We visited five reserves and found only three schools functioning - two at Nelson House and one at Split Lake. I did not have time to visit the Nelson House School at Catholic Point, but at the other school there were 49 pupils in a room 21 x 23 and in which there was a scarcity of suitable desks. Mr. Lovell thought it advisable to have a dozen of the younger ones stay at home. This, I think, was a wise decision rather than have so much over-crowding. Had many of these pupils not lived so far from school, arrangements might have been made for them to attend in two groups half a day each. This tends to keep up their interest in the school. I understand that there will be a certain number going from here to South Indian Lake to take part in fishing operations next fall and winter. This will take them to a place where there is no school at all so there will be no worry about school attendance for them. Even with this doubtful relief I see very little prospect of improvement at this point next year."

Owing to the housing accommodation situation, the erection of public buildings has been curtailed this year. Consequently, it is not possible to consider erecting new schools. However, if there is any building available that could be rented, we would be prepared to make an attempt to open a second classroom at the Nelson House United Church School for

In official letter of June 29th, you were advised of the appointment of Mrs. Margaret Thompson as teacher of the Nelson House U.C. Day School. At that time we forwarded the necessary forms which she should complete.

We now have received the Cost of Living Bonus Form but we have not received the T.D. 1 Form nor Staff Questionnaire Form. We require both these forms before we can arrange payment of her salary. We enclose additional copies of these forms and it would be appreciated if you would have her complete these forms and return them immediately.

Dear Sir:-

When Major McKay, Commissioner for B.C., was giving evidence last year before the joint committee studying Indian Affairs, he mentioned that several day schools there (I think it was 8) were operating on a ½ day basis - one shift in the morning, another in the afternoon. This was because of lack of accommodation a condition which also prevails here. I wonder then, if the above plan could be put into operation here this following year?

The reasons for this suggestion follow. First, there are a large number of children on the reserve. Even though there are two day schools, one R.C., the other [illegible], more than 20 were away at Residential School, many children are not enrolled. In the year

1945-46, there were 57 enrolled at the R.C School, with the agent seeing almost half of them home. In 1946-47, enrollment was kept down to 40, and an average attendance of 27 was made possible only by the use of tables, biscuit boxes etc. to supplement the 22 desks in the school. Of the 25 at the R.C day school this past year six were Protestant children attending there in part because of proximity, in part because of the shortage of accommodation at the R.C School.

Furthermore the agent apparently refused, to enforce the family allowance regulations, until such time as there is accommodation for all children. Warnings have been given the parents, and it is recommended that children be cut off because of irregular attendance without reasonable excuse. Nothing was done about it by our agent. It is getting to the point where this is causing hard feeling in the community. Some children do not see why they should attend regularly when

others do not, and continue to get F.A. This has been brought to my attention on more than one occasion. Apart from this, there is the difficulty which the teacher encounters in trying to make classes move along steadily when 50% of them come perhaps 3 days in 5.

I'll list a few attendances to illustrate my point.

(1) Nelson Linklater (15) absent October 5 days
November 5.5
December 3 "
January 5.5 "
February 6.5 "
March 8.5 "
April 10.5 "
May 20
This boy has not attended

(2) Sandy Spence (15) - attended school until late October. Went off trapping until Christmas. Failed & earned money at Mr. Hutton's until late April, when time came to commence trapping. Besides earning money he continued to get F.A.

(3) Babian Moar:- ... RC child enrolled Oct. 15 at v.c. school. She attended quite regularly until Christmas - one day since.

I shall not dwell longer on this point, but cannot something be done about it?

Indian Affairs. (RG 10, Volume 6240, file 527-1, part 1)

PUBLIC ARCHIVES CANADA ARCHIVES PUBLIQUES

Pool Copy

Two further questions (1) Does the Department ever pay for transience? This revenue is very scattered, and I think if some arrangement could be made whereby children are brought by canoe in summer, and team in the winter, a more consistent attendance could be realized.

(2) And lastly, how does one get a grant for that purpose? It was not until recently that I knew this could be obtained.

Although I will not be in charge here next year, I will be remaining in the community, and intensely interested in Indian education.

Hoping for an early reply,

I am,

Yours sincerely,

(Mrs.) M. Thompson.

I have for answer your letter of May 7th with attached application from Miss Jardine for the position of teacher at the above Indian Day School.

It is noted that Miss Jardine is attending the Manitoba Normal School and expects to get a Second Class Certificate. The Department is prepared to approve her appointment providing that she obtains her Normal School Diploma and Manitoba Teaching Certificate. If she does so, she will be eligible to classification as a Grade Two teacher, effective September 1, 1948. It is presumed that we will hear from you when the results of the Normal School examinations are announced. Please find attached Staff Questionnaire and Income Tax forms for completion by Miss Jardine at a later date. Her salary will be at the rate of $144.00 a teaching month.

Inspector of Indian Agencies,

Dear Sir:

I was in your office some ten days ago enquiring about plans for the coming school year at Nelson House. I pointed out the need for more accommodation than the new school provides and suggested that the old school should be operated along with the new. You asked me to set forth the particulars in writing.

The Nelson House band has more than five hundred members. This does not count those who in recent years have taken up their residence at South Indian Lake. Of the above number at least two hundred and twenty seven are children of sixteen or under. One hundred and nineteen are from six to sixteen, one hundred and eight are under six. Both Roman Catholics and Protestants are represented. Taking a Protestant child to be "one born of Protestant parents" there are ninety five of school age and eighty one under it. There are twenty four Roman Catholic children of school age and twenty seven under it. In these figures I have included the children of four non-treaty families, six of school age and six under.

In the past the community has been served by two day schools, one Protestant the other Roman Catholic, each with

accommodation for about twenty five pupils. But as might be expected denominational lines have not been clear-cut. Without exception the children have attended the closer school. For instance during the school year 1946-47 fourteen out of the twenty five attending the Roman Catholic School came from nearby Protestant homes. At the same time only one Roman Catholic child was attending the Protestant school. This sort of thing will continue so long as there are "separate" schools.

The parents of this reserve are almost unanimous in their desire for the residential school system. They expressed themselves that way in a letter to the Commons' committee on Indian Affairs and again at a meeting before the Indian Agent last summer. But they have objected in the past about having to send their children so far away. Right now the priest, Father Thiboutot, is active in signing up families, Roman Catholic and Protestant, who want to have their children in a boarding school on or near the reserve. With or without foundation, Father Thiboutot still hopes such a school will be built under the auspices of his church. We are inclined to accept the apparent decision of the department that this reserve is to be served by day schools.

From what I have said it will be apparent that both the new and the old schools should be operated during the next

Mr. E. Law,
Agency Supt.,
The Pas,

Dear Sir,

The chief of this band, Richard Hartie, yesterday asked me to write this letter for him. It relates to the school question.

He wishes you to know that the priest, Father Thiboutot, is trying to capitalize upon the secrecy which at the moment surrounds the school policy of the department. The people of this reserve have declared themselves in favor of a residential school on or near the reserve. It now appears that the Protestant majority are to be served by day schools. In the hope that a residential school under the care of the Roman Catholic church may yet be built, the priest is collecting the names of those who would place their children in such a school. Whatever the end result of his labours it will not present a true picture of the religious affiliation of this band. It merely indicates the strength of the preference for the residential school.

I take the liberty of enclosing a copy of the letter that I sent to the Inspector of Indian Agencies for Manitoba. It explains itself.

Chief. Richard Hartie

Dear Sir:

Thank you for your letter of June 21st., written on behalf of Chief Richard Hartie, in connection with the school situation at Nelson House. I also appreciate receiving a copy of your letter written to the Inspector of Indian Agencies, Winnipeg. It is a comprehensive report and I feel covers the conditions very accurately.

I have forwarded this correspondence to Ottawa as schools come directly under their control, and will advise you of any information I receive in this connection.

Inspector of Indian Agencies,

Winnipeg, Man..

Dear Sir,

I was in your office some ten days ago enquiring about plans for the coming school year at Nelson House. I pointed out the need for more accommodation than the new school provides andsuggested that the old school could be operated along with the new. You asked me to set forth the particulars in writing.

The Nelson House band has more than five hundred members. This does not count those who in recent years have taken up their residence at South Indian Lake. Of the above number at least two hundred and twenty seven are children of sixteen or under. One hundred and ~~sixteen~~ are from six to sixteen, one hundred and eight are under six. Both Roman Catholics and Protestants are repp resented. Taking a Protestant child to be "one born ofProtestant parents" there are ninety five of school age and eighty one under it. There are twenty four Roman Catholic children of school age and twenty seven under it. In these figures I have included the children of four non-treaty families, six of school age and six under.

In the past the community has been served by two day schools, one Protestant the other Roman Catholic, each with accommodation for about twenty five pupils. But as might be expected denominational lines have not been clear-cut. Without exception the children have attended the closer school. For instance during the school

year 1946-47 fourteen out of the twenty five attending the Roman Catholic school came from nearby Protestant homes. At the same time only one Roman Catholic child was attending the Protestant school. This sort of thing will continue so long as there are "separate" schools.

The parents of this reserve are almost unanimous in their desire for the residential school system. They expressed themselves that way in a letter to the Commons' committee on Indian Affairs and again at a meeting before the Indian Agent last summer. But they have objected in the past about having to send their children so far away. Right now the priest, Father Thiboutot, is active in signing up families, Roman Catholic and Protestant, who want to have their children in a boarding school on or near the reserve. With or without foundation, Father Thiboutot still hopes such a school will be built under the auspices of his church. We are inclined to accept the apparent decision of the department that this reserve is to be served by day schools.

From what I have said it will be apparent that bothm the new and the old schools should be operated during the next school year and that plans should be made for early expansion of school facilities. The information I have given can be presented to and verified by Mr. Law when he comes next month Rev. C.H. Best should be notified as soon as it is known that another teacher will be required. His address is 441 Somerset Bldg., Winnipeg.

I am sorry to burden you with this rather lenthy summary but I think it does raise all the major factors to be considered.

Dear Doctor Davey:

You will recall our conversation of last winter when I advised you that the Indian Health Services were shipping in a prefabricated nursing station to Nelson House. This nursing station will be close to your United Church School (both the old one and the new prefabricated one). I have been advised by Dr. Falconer of the Indian Health Services that it is expected that the nursing station will be ready for occupancy by September 1. As you know, it is our intention that the teacher be accommodated with the nurse at this nursing station. Would you please so advise Miss Jardine, unless you have plans to board her with the missionary, or elsewhere.

Yours sincerely,

While the Nelson House U.C. Indian Day School was closed during the last academic year, our records here do not indicate the need for a two-room school at this point. During the 1946-47 academic year the attendance was as follows:

Quarter	Number on Roll	Average
September 30, 1946	32	26
December 31, 1946	38	27
March 31, 1947	36	26
June 30, 1947	28	14

We require between 30 and 35 of an average attendance before opening a second classroom.

Miss Jardine has been appointed as teacher for the next academic year and it is understood that she will live with the nurse in the nursing station. This nursing station has been constructed in such a way as to provide accommodation for the teacher. We have not received any petition from the Roman

Nelson House United Church Indian Day School.

The teacher at this school, Miss Jardine, will be living at the new nursing station at Nelson House. It is intended that she live with the nurses at the station, and that she will receive her board and room as if she were a member of the staff of that institution.

It is intended that she pay at the rate of $15.00 per month for her board and at the rate of $15.00 per month for her room.

It is our responsibility to pay for her room but it will naturally be Miss Jardine's responsibility to pay for her board. I would like an opportunity of discussing with you the method by which this can be done in such a way as to benefit one of the Votes of the Indian Health Services.

Attention: Lt. Col. B.F. Neary.

Dear Mr. Neary:

With reference to your letter file 527-1 (E) of October 29th, regarding Nelson House U.C. Indian Day School. I have just returned from Nelson House, and the present United School is very crowded. About twenty-five children, who should be attending school, are being deprived of an education - through lack of space.

I would recommend that a second school be opened in the old building, formerly used as a school. This building would need some repairs, such as white-washing, replastering, and doors and windows repaired. I would estimate this would cost around $250.00.

We have a Grade 2 Assistant at this point now, Mr. Arnfinson - who is a very good man. He would be able to supervise the repairs to this building. We will have a few desks there, and tables can be made, which should do for this winter.

Mr. C.A.F. Clark did not continue with the party from Churchill, as he could not stand the cold weather. This was caused from being improperly dressed.

Extract from Regional Supervisor Davis' report dated January 4th on the Nelson House U.C. Indian Day School.

The teacher of this school is Miss Ruth Jardine. She appears to me to be more or less untidy and a little sloppy in her methods. However, the school was not in operation when I visited, as it was early in the morning.

Mr. Grafton inspected the school after my visit and I am forwarding his report. There are 43 children on the roll and 25 of school age living around the village who are not attending school owing to a lack of accommodation.

I would recommend that the old school building be repaired and another teacher hired to look after these pupils. I would estimate the cost of repairs at about $250.00. Some desks would be required, but for the time being tables could be erected by Mr. Arnfinson, who is a fairly good carpenter.

Dear Doctor Wood,

Attached is a copy of a memorandum from Colonel B. F. Neary, Superintendent of Indian Education, which explains a difficult situation. I would suggest that a circular letter be sent to all our nurses by the Regional Superintendent pointing out that they should not let their duties conflict with duties of other government employees in the area as it will lead to dissatisfaction. I can realize where people in the same settlement that are not "kindred souls" will get into petty quarrels and it is advisable to try and prevent this if possible.

Yours very truly,

Dear Sirs: Attention: Mr. B. F. Neary
Supt. of Education.

Replying to your letter of March 22nd, file 527-1 (E), in connection with Nelson House J.C. Indian Day School.

As the number of pupils who will be attending the J.C. Indian Day School next fall is indefinite, at the present time, I would suggest that we postpone repairing the old school until the beginning of the fall term. If this is satisfactory to you, would you please advise, and I will make a note to check this matter at that time.

Dear Doctor Dorey:

I desire to refer you to official letter of March 4th and your reply of March 7th with reference to the resignation of Miss Ruth Jardine as teacher of the Nelson House U.C. Indian DaySchool.

Today we received a letter from Regional Supervisor Davis advising that Miss Jardine is willing to stay for another year, and it is evident from the letter that Mr. Davis has been speaking to Dr. Best.

We are prepared to retain her services for another year, unless you desire to appoint another teacher for this school. Please let us hear from you.

On my return this week, I found your letter of May 28th and the completed application blank.

I notice your preference for the Nelson House School. The best way to get the information about transportation and accommodation would be to write to Mr. Eric Law, Indian Superintendent, The Pas, Manitoba.

I have passed your application to the Superintendent of Education who is corresponding with Dr. Best concerning the nomination of teachers for schools with which the United Church is associated.

Dear Mr Clark.

Enclosed find my application and when I say "Nelson House" it is just that it seemed the most attractive of the Day Schools offered. If, however it is not available I would be pleased to consider another school providing there is suitable living accommodation. I would like as many particulars about the location and how to reach it as are available.

I have received several offers of Residential schools but would like to try a day school. Please keep me in mind Mr Clark and if there is a suitable opening let me know.

Dear Doctor Scott:

Norway House U.C. Indian Day School.

Mrs. E. M. McDougall has made application for an Indian day school. As you are probably aware, she has been teaching at the Portage la Prairie Residential School.

She is 55 years of age, holds a Second Class teaching certificate and has 16 years of experience in provincial schools and 4 years in Indian schools. While she has mentioned the Nelson House Day School, I know that Miss Jardine has decided to continue teaching there and that a replacement is not necessary.

Would you please write to Mrs. McDougall at Box 1436 Portage la Prairie, Man., and see whether you can use her at Norway House or elsewhere.

Dear Colonel Neary: Re: Nelson House Day School

I regret to have to inform you that I have just received word from our Superintendent in Winnipeg, Dr. C.H. Best, that Mr. D.[redacted] Aikenhead, whom we recently nominated as teacher of the above named school, will not be available, as he has decided to return to University this Fall.

As I have stated before, it is very difficult to obtain teachers for these Northern schools, but we hope it will be possible to make another nomination before too long.

Yours sincerely,

Dear Sir:

Last year I was employed by the Indian Affairs Branch as Indian Agent.

During the year I paid a sum to the settlement fund. According to my check stubs this sum was (C.O.D.) sixty seven dollars and fifty cents.

As I am no longer in your employ I feel that I am entitled to a refund of this money.

Yours truly,

Ottawa, December 14th, 1925.

Sir:

I have your letter of the 4th instant, informing the Department that Miss D. Hall, teacher of the Methodist Indian Day School at Nelson House, has given up her duties. While you have not stated the date she left Nelson House, it is presumed that it was at the end of September, as it is noted that she did not teach during October.

The appointment of her sister, Miss J. E. Hall, as teacher to succeed her is approved. We will allow her salary at the same rate as was paid Miss D. Hall. I may say that we cannot pay salary for any period in the school year exceeding 10 months, as the payment of all salaries is based on that length of service. I may say further as the cheques for salary for this school are forwarded to the Treasurer of the Methodist Church they will, no doubt, arrange for the payment to Miss D. Hall and her sister for the yearly teaching period. When we receive the quarterly returns from Miss J. E. Hall covering the period she teaches to June 30th, next, consideration will be given to the amount of salary the Department will forward to the Church authorities.

Unless the Indian children are perfectly willing to attend on Saturdays, the Department would not be favourably disposed to have the school open on that day. This matter, however, will be left with the teacher and yourself to arrange.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Ottawa, July 22nd, 1926.

Sir:

I have your letter of the 13th instant, relative to the request of Miss J. E. Hall, teacher of the Nelson House Methodist Indian Day School, for permission to keep the school open during July and August, as the Indians are home from the hunting ground and the attendance will be good.

In reply I beg to say that if Miss Hall keeps this school open during the present month, we will allow her payment for same. As you were informed in official letter of December 14th, last, we cannot pay salary for any period in the school year exceeding ten months. Miss Dorothy Hall was allowed payment for the month of September, 1925, and Miss J. E. Hall has been paid for the period from November 1st to June 30th, making a total of nine months for which salary has been paid during the school year closed June 30th. We will allow Miss J. E. Hall payment for the current month, in order to complete the ten months in the school year. We prefer that this school remain closed during the regular summer holiday period, and the teacher should immediately close this school and arrange to reopen it on the 1st of September, next. Please arrange with her to forward a return showing the period taught by her during the current month, when a cheque in payment of one month's salary will be sent.

I may state that all cheques for salary for this school are forwarded to the Treasurer of the Methodist Church, Toronto. The Treasurer has, no doubt, paid the Misses Hall their full yearly salaries.

Sir:

I have your letter of the 7th instant, informing the Department that Mrs. Hutty, wife of the missionary, has taken over the teaching at the Nelson House Methodist Indian Day School, succeeding Miss J. E. Hall, who gave up duties at the end of July, last.

We were informed by the Rev. T. Ferrier, who recently visited the Department, of the arrangements made for Mrs. Hutty to carry on the work at this school until such time as the services of a suitable teacher can be obtained. The Department has approved of this arrangement, and Mrs. Hutty will be allowed salary during the period she teaches at the rate of $95 per teaching month. We note that she reopened the school on or about October 1st, last.

Dear Sir:-

I enclose herewith the Nelson House U.C.Indian Day School Return for period ending March 31st,1931, in duplicate, received from Mr,Gaudin, Teacher & Missionary of this Reserve.

On March 7th,1931, I received a letter from the Chief of The Nelson House Reserve, stating that the school was closed for extended periods from time to time.

I immediately wrote to Mr,Gaudin, enquiring if this was a fact, and am in receipt of his answer stating that the school was closed, during the greater part of January,February and March 1931.

It seems wrong for Mr,Gaudin to close up the school to go on a Pastoral visit, also he took a child to the Brandon Indian Residential School without authority.

The school was open 13 days out of 64 teaching days in the quarter.

Mr, Gaudin asks that he be paid for the 20 days, during which he was in Hospital in Winnipeg.

I have written him stating that leave of absence must be obtained from the Department in future.

Your obedient servant,

Indian Agent.

Reverend Sir,-

The Department is in receipt of the return of the Nelson House U.C. Indian Day School for the quarter ended March 31st, last. In forwarding this return, the Agent points out that the school has been closed for a considerable part of the quarter. In fact, it was open for only thirteen days but, for a period of twenty-nine days, the teacher was undergoing treatment in the hospital in Winnipeg.

As the teacher was absent from the school for the balance of the quarter on business of his own choosing, the Department is prepared to allow salary for only one and three quarter months during the March quarter and a cheque for $166.25 will be forwarded to your Treasurer when funds are available.

Dear Mr. Ferrier:

We are in receipt of your communication of April 22nd regarding the teacher at the Nelson House Indian Day School. We are aware that Mr. Gaudin was absent for a good part of the quarter, as he had to spend a considerable time in the hospital in Winnipeg, where he underwent two operations. I am glad to be able to report that he seems to be completely recovered and is now in good spirits. Under the circumstances, we consider the arrangement made by the Indian Department for the payment of his salary for the quarter ending March 31st is quite satisfactory.

Sir,-

The Department is in receipt of the March quarter return of the Nelson House United Church Indian Day School, and it is noted that the teacher states he was away from the school during January, taking out two children for the MacKay Indian Residential School. It is presumed that the children mentioned are Caroline and Richard Moose referred to in your 1103/142 of February 9th.

Please let me know if Mr. Hanna was absent from the Nelson House School for the whole month of January. If so, you should advise why it was necessary for him to be absent from the school for this period.

Dear Sir:-

I have the honor to reply to your letter No.128-11-3 of the 25th, ultimo, regarding the Nelson House U. C. Indian Day School.

Wish to say Mr. Hanna must have been absent from the school all of January, as he arrived in The Pas January 6th.1932 so must have left South Indian Lake, where he was teaching school at the end of December 1931.

He returned to The Pas January 28th,1932 and left the next day for Wabowden, and would get back to the Nelson House Reserve around the beginning of February.

After Mr.Hanna left the children going to Residential school, here, he went to Winnipeg, and as far as I know no authority was granted for th[illegible]

Reverend Sir,-

When the March quarter return of the Nelson House U. C. Indian Day School was received, it was noted that the school was only open for part of the quarter and inquiries were made from the Indian Agent regarding the reason for this. It is found that the teacher, Mr. D. W. Hamma, left the reserve about the end of December and reached The Pas on January 6th, bringing with him some children to be placed in a residential school. He then proceeded to Winnipeg and did not return to The Pas until January 28th and would, therefore, be unable to reach Nelson House until about the first of February. You will note, therefore, that he was absent from the school for the full month of January.

The Department, however, was not aware of this when the March quarter return was received and cheque #7897 for the full quarter's salary was issued and sent to you on April 13th.

Under these circumstances, it is considered that the Department should not have allowed salary for the month of January and a deduction will be made when paying the June quarter salary.

Dear Mr. Ferrier: Re: Nelson House Indian Day School.

We are aware that Mr. D. W. Hanna, the teacher at Nelson House, was absent for the whole of January, and have already called his attention to the fact that he should not have left his school without permission. He claims that he secured permission from the Indian Agent before leaving The Pas. Moreover, he has promised that the school will continue during June, until he has completed the minimum number of teaching days during the present academic year. We are quite satisfied to have the adjustment referred to made when you issue the next cheque, because we feel sure that he will make up all of the lost time, as he has promised.

Yours very sincerely,

Sir,

I have to inform you that the authorities of the United Church of Canada have nominated the services of Mr. Nelson Gaudin as teacher of the Nelson House United Church Indian Day School for the coming academic year. He will succeed Mr. David Hanum as missionary teacher. The Department is approving of his appointment, with salary at the rate of $96 per teaching month, less 10% during the present fiscal year.

If you are able to give Mr. Gaudin any assistance in encouraging the regular attendance of the Indian children, the Department will be very pleased if you will do so.

Ottawa, June 15, 1934.

Sir:

I have to inform you that, on the nomination of the Board of Home Missions of the United Church of Canada, the Department is approving the appointment of Miss Lulu Ironstar as teacher of the Nelson House United Church Indian Day School for the academic year 1934-35. It is expected she will be on the Reserve to begin duties about September 1st, next. She will be allowed salary at the rate of $95 a teaching month.

Miss Ironstar is an Indian, a graduate of the Round Lake Indian Residential School, and she finished her high school work in the Brandon Indian Residential School. Following this, she graduated from the Brandon Normal School, and for the past two years, taught successfully in the Brandon Indian Residential School.

Please give her every possible assistance.

Rev.Father Gaudin,missionary and teacher at Nelson House,states that the Indians have partly built a schoolhouse 16 x 20 and he asks the Department for a grant of $150.00 to assist in the cost of its erection. The customary allowance made towards school buildings outside treaty is $100.00 but owing to the situation of this school and the excessive cost of material and provisions I think the Department might reasonably grant his request. Sir,-

I beg to inform you that on the 9th October last the Department, in a letter to the Rev. S.D.Gaudin, Missionary and Teacher at the Nelson House Day School, authorized an expenditure of $150.00 to assist in the erection of a school house at Nelson House. Mr. Gaudin has now sent in an account amounting to $51.30 for expenditure in connection therewith. I enclose the account herewith in order that you may render a voucher for the amount of same in the regular way, provided that you consider the account correct. The Reverend gentleman in writing the Department has stated that the expenditure will be under his own supervision and will be done as economically as possible. He points out that the statement of expenditure received has been endorsed by the Hudson's Bay Company's officer. Mr. Gaudin has been requested to render accounts in future through you.

Sir,

A word of explaination with reference to the attached voucher. The account is from Rev. Mr. Gaudin of Nelson House Keewatin. I will quote from his letter . "We received two years ago, the promise of a grant of $150.00 for the erection of a school house at Nelson. I rendered one account in March 1904 for which I received payment $51.38, . I was then notified by the Secretary od the Indian Department at Ottawa in future to send such accounts, through the Indian Agent at Norway House". This ofcourse all transpired before I came to Norway House, and I can only acquaint you with what Mr. Gaudin Has said. I might add that Nelson House is a very much out of the way place, and I can understand how it would be a slow process putting the work through.

NELSON HOUSE

The Nelson House school is closed, the teacher away and all equipment locked up. The building which was used for a school house is in very bad shape and school had been kept in the back kitchen of the mission house. A new building should be erected for this band, but I understand this will not be done until the reserve is surveyed. As for equipment and progress I can say nothing nor can I say anything of the attendance as all school material is locked up.

The teacher was absent, school supplies all locked up, it was impossible to report in regard to this school. The school building itself is almost beyond repair and Mr. Wright had been keeping the school in his kitchen. I have not been able to see Mr. Wright since and have therefore not been able to get his side of the story.

Re school

The school at this is a very poor building, It is far too small for the number of children that could go to school. This building is only 18 by 16. It should at any rate be 30 by 20 and roofed with Rubber Roof Felting, heavy ply. They also wish that a male teacher be appointed here for their teacher, as the Missionary has not been able to teach the children the full time.

Benches and desks should be made also.

Re Nelson House, Day School

Sir,-

During the first part of the winter I wrote to the Revd Mr Wright of Nelson House Mission and requested him to give me a true report as to the condition of his day school.
I enclose herewith a copy of his letter re Nelson House Day School, and can only add that he has made out a report of the school there as I saw it myself during treaty. I simply endorse what Mr Wright has written as to what would be required to give the Indians of Nelson House a decent school for their children.

I am of the opinion that the Indians will build the school themselves with Mr Wright supervising it without pay providing the Department will furnish the articles required in Mr Wright's letter and also allow them these rations while working on the school.

As Mr wright says the school they have at present is practically useless unless this is done. Trusting I have made every-thing clear.

Sir,-

Your letter #116 duly received and 4[illegible] reply would say that I have carefully examined the present school buildi ng and would beg to make the following report and suggestions.

The build-ing is 16x20ft and 10ft post, inside measurements.It is simply a log building,with poles and bark for a roof. The walls are uncovered, having received a coat of mud inside and out . The floor is of single thin,unplaned lumber. The windows, four in number are eight lights, 10x12, two of these are in good repair, only requiring a few panes of glass,the remaining two were destroyed,and have been re-placed wih storm windows of a smaller size. The logs in this building afe all sound and good and of splendid size.

I am of the opinion that if this building was taken down and re-built,properly finished is all that is required;and would meet the requirements for some years to come. I would suggest the following improvements.

Re-place the roof with pro-per lumber, then give it a covering of Rubber Roof Felting. Sheath the whole inside,viz,four walls and the ceiling, and lay a double floor of matched lumber. Give the windows proper attention, would suggest twelve lights size 10x12. A good mud chimney could be easily built,and would serve as a protection against fires. The outer walls if properly mudded is all that is necessary.

If the above suggestions are carried out the following materials are necessary.
50 lbs,2in,Nails, 50 lbs, 2½in,Nails, 25 lbs 3in, Nails 10 lbs 4in, Nails, 12-Rolls dry sheathing paper, 10- rolls rubber roof felting 4-pairs,Window Sash,12 light,10x12, 1-Door latch with screws, 1-Pad-Lock and fixtures with screws, 12-lengths stove-pipes,7in,for chim-ney, For rations to men cutting logs,rafting them to schoolsite

sawing logs into lumber,building school over again,the following amount has been suggested to feed the Indians while building school,* I5-sacks of Flour, 500 lbs of Bacon, I25 lbs of Tea.
Logs are hard to get,being more than a day from here to get the right kind and size.

I have talked with the Chief etc, and I think that the there will be very little trouble to get them to do their part.

It is unnecessary for me to say that the above repairs are necessary,for the building as it is ,is useless.

SCHOOLS BRANCH
FEB 28 1913

431398

Sir,

I beg leave to forward a School Report for the month of January,from the Revd H.T.Wright,Missionary and School Teacher at Nelson House.

By his report you will be able to judge of the conditions of the school building at Nelson House,and how nearly impossible it is for a school teacher to keep school open,owing to the reasons mentioned in his report.

I beg to submit for the Depart-ment's careful consideration,why Indian Boarding schools of not too expensive anature should be erected at Nelson House and Split Lake for the benefit of the Indian children at these places.

At Nelson House there are over 200 children of school age,as I took the trouble to have them mustered out and counted. These are pretty evenly divided between the Metho-dists and Roman Catholics. At Split Lake there are quite a number of children also,some-where in the neighbourhood of 75 or 100,these are belong to the Anglican Church,and as such are not taken in the Methodist Indian Boarding Schhols either at Norway House or else-where,or probably more likely the differenf Denominations don't wish to mix up the children,but wish to keep them seperate,and educate them according to the faith to which they belong.

The only solution that I can seeto the education of these children lays in some sort of a Boarding school that the children could be housed and kept at school while their parents were away at their hunting grounds.

Such a building could be constructed of Logs and shingled with Steel shingles so as to make it fire-proof,much the same as the H.B.Company's build-are covered with. The building should be two storey's in height. On

On the lower floor a dining room of ,say,I8 x I8,a living room for the girls on one end I8 x I8,and one on the other end of the building for the boys,I8 x I8with a Kitchen attached to the building say, 20 x 20,this would make the building a length of 56ft x 20ft wide. Upstairs,sleeping quarters for the boys and girls and teaching staff would be laid out accordingly. A class room I8x30 and a Store-house I8x20 could be erected apart from the main building. The expense of these buildings put up with the material of the country ought not to cost a great deal.

The only material required to be freighted in would be doors,window sash,nails,steel shingles,building paper,tar paper, also desks for the school,furniture for the boarding department,and stovesand kitchen utensils.

A building like this I should think,might be built at a cost of two or three thousand dollars or very little more. Lumber for the building would be sawn on the ground.

The H.B. Company have had no difficulty in putting up buildings almost as big as this for Stores and dwelling houses,and they seem to have been built at a reasonable figure. A Boarding school of the size and cost that is going to be erected at Norway House,is not what is wanted at Nelson House or Split Lake. It is such a building as the H.B.Company is in the habit of putting up at their Trading Posts, that is required for the present,so that these Indians~~children~~ will have a chance to get their children educated.

In regard to labour two good carpenters from Selkirk or possibly they might even be got at Norway House, would be sufficient with the help of the Indian labour down there. The food for the school would depend largely on moose and deer meat and fish of all descriptions,with the necessary amount of flour, bacon lard,tea,sugar,condensed milk and Butter.

In submitting this report on the probable cost of such schools required at Split Lake and Nelson House,I beg to state that I only wish to show the Department what these Indians and Missionaries want for the present.

In future years when the country

country is opened up more by railroads,then more suitable buildings could be erected at a reasonable cost. But this is far distant yet, so I have outlined a building that could be put up for the present, which would be of more use to the Indians children,and give more satisfaction to the Missionaries,as then they would be able to educate the children properly at their own homes.

Education among these Indian living so far out from civilization is necessarily slow,and will never be accomplished by day schools,as the children are never there to attend school but are taken away by their parents where-ever they can fing food for them and for which one can hardly blame them.

By adopting this kind of school a beginningwould be made and as their children grow up and marry and in the course of time have children,they would naturally see the benifits of education and be glad to learn so as to be able to earn their living in a different manner from what they are now doing,for the country in the future I fear will be very much depleted of fur which at present is their chief mode of gaining a livelihood,and thus by educating them now,gives them a better chance to cope for the welfare of their families in the future.

Respectfully submitting this for your careful cosideration.

REPORT OF OFFICIAL VISIT TO SPLIT LAKE AND NELSON HOUSE RESERVES.

SCHOOLS BRANCH

Sir,-

DAY SCHOOL- Nelson House.

Chief Peter Moose asked on behalf of his band, supported by the Revd. Mr. Nutty their Missionary, that the Department build a new day school on their reserve, as the old school was inadequate for the number of children that could attend school. A site for that purpose has been laid off by Mr. Robertson, but as it was considered a little out of the way, the Indians proposed another site that would meet the wishes of everybody. The old day school that was built some years ago was not up to date, tney required a larger school and one that would be fully equipped for teaching their children in a proper manner. Mr. Nutty informed me that by keeping the school in operation all summer, that 40 or 50 pupils could be easily induced to attend school, the teacher to take his holidays in the latter part of September and October. There are a hundred children on this reserve of school age, and I think that Mr. Nutty is the first Missionary that has recognised the idea of keeping the school going in the summer, as the only reasonable way of getting the greater part of these children educated. The Chief and Band after some deliberation, asked that a day school be built of the following dimensions, and that it be equipped as a day school should be.

School building to be 36ft.x 22ft.

Porch 8ft.x 8 ft.

To have eight windows, 4 lights to a sash, glass to be 10in. x 12in.

2 chairs, 9 yards of blackboard cloth,
4 blackboard cleaners, 1 Globe, 1 set of Lesson cards,
To be roofed with three ply of rubber roof felting,
Wall of building to be 8 ft. 6 in.high,
Lumber for roof, flooring and joists and scantling to be whip-sawed on reserve.
Revd. Mr. Mutty agrees to supervise the building of the school.
Rations for men to build school to be provided by the Department.
Two carpenters from Norway House asked for to build school properly. Indians agree to do all the rough work, such as cutting and hewing logs, whipsawing lumber and rafting.
It would be necessary for Mr. Mutty to have flour, bacon, tea and sugar for rations forwarded this summer if possible, as the work of getting out the logs for building and whipsawing, will most likely be done next fall or winter. It is the intention of Mr. Mutty to have a hot meal at noon for the children, as those who come from a distance, will come more readily, knowing that they will not be hungry. In my letter dated May, 7th, No. 733 I mentioned Mr. Mutty's application for the necessary material required for giving a hot meal once a day. I may as well give you the list that Mr. Mutty prepared.

To The

Secretary of the Department of Indian Affairs,

R.

Dear Sir;-

We are very much handicapped in carrying on the school work at Helton House. A school house is very much needed, also school supplies. Mr. Hutty, who has charge, thinks that the work might be done, by the way of getting out lumber and logs, by the native people. I would like very much if the Department would take it matter up. In the meantime I would ask you to ship at once the necessary supplies for carrying on the primary work that will be done in such school. Ship them to "W. E. W. Hutty, Helton House, via Lake Winnipeg, Man."

REPORT OF INSPECTOR J.R.BUNN ON THE NELSON HOUSE DAY SCHOOL.

The old building used as a school house, here, is in a very delapidated condition and unfit for use as a school house. They have taken out logs for the erection of a new school building. These are on the ground. I think it would be well to consider the advisability of granting some financial assistance towards taking down the old building and erecting a new building sufficiently commodious to meet the requirements of this school.

Dear Sir;-

Yours of October the 4th, # 191433/5 received. We are sending out Elijah Sinclair to be the teacher at Nelson House. He was at Deer Lake for the summer and did excellent work there. Your Inspector and Agent and others have reported very favorably to me as to his influence and work among the people at Deer Lake. He is a very good carpenter and while here in the Brandon Industrial School he made a specialty of carpentry work, and he has done considerable of it on the Reserve and other places since leaving the School.

In making provision for building the school, it is just possible that he would be able to oversee and look after the building of it as well, if not better, than anyone we may be able to send in from far. I would suggest that a grant of about $1800 or $2000 would be sufficient. I think that this school and the one at Cross Lake should be at least 30 x 40 ft. Such a buildin; would not cost so much if it were not for the enormous prices that will have to be paid for freighting certain classes of lumber, hardware, doors, windows, etc, that will have to be sent in. I trust that provision will be made for both of these schools.

Yours sincerely,

T. Ferrier

My dear Mr. Waddy,

I am writing this in Trinoc Albert to [redacted] time. I [redacted] sorry that I missed you in The [redacted]as for I have not [redacted] you since two years ago. However, I thank you for your part in getting me down the line. It means much to me. I met the Dr., and got my mail. Many thanks for that also.

Now about Nelson House School, we have to give up the idea of a Boarding School there at present, so we must do the best we can with the Day School. I think the Department ought to erect a School House which would give some standing to the educational work. In the meantime the Church will be used, of course. Mr. Hutty and Miss Jackson think those diagrams can be used to good effect if you will send them out, and if you will secure the necessary food. They will give a hot meal this winter.

Mr. Ferrier secured a Miss Winter for Teacher, and she came to The Pas this week expecting to go out, but both Mr. Hutty and Miss Jackson think that in view of the scarcity of canoes and men, the lateness of the season, and the fact that all the people will be away fall fishing for the next six weeks it will be well for the teacher not to go out until the snow comes. Miss Winter has therefore gone back to Brandon to wait till November when she will come in time to catch the train to Mile 137 on the 23rd. November where Mr. Hutty will meet her with a dog team, and see her safely out. She will call and talk matters over with you. Ask the Dr. what he thinks of her. I feel sure she is the right person for the place. I know you will give her all the encouragement possible.

Should there be any change in the train dates please notify Mr. Ferrier and Mr. Hutty at once so that there will not be any misunderstanding. Also see that Miss Winter goes to Mile 137.

If there are any other matters please write me. I got those pictures off to Mr. Hutty by the men who brought me out.

Kindest regards.

Yours fraternally,

Arthur Barner.

INDIAN AGENT'S OFFICE.

The Pas, Man.,

September 19th. 1921.

Sir,

I have the honour to report that Rev. Arthur Barner, Superintendt of Methodist Missions, has asked me if the Department will consider erecting a day school building at Nelson House.

The building used there at the present is the Church, but it is not satisfactory altogether, as the children come a long way to school, and the intention is to give a lunch at noon, which the church people rather object to having cooked in the church. Also they wish to have the school in separate building to give the educational work some standing as distinct from church work.

Up until lately I understood that the Methodist Church intended to start a boarding school at Nelson House, and eventually this is what will be asked for as there are so many children at this point, so if an application for day school is considered it would be waste of money if a boarding school was to be erected in next few years.

No doubt we could carry on a school up at Nelson House, but I think the church people could still let us use their building until the question of a boarding school is decided.

I enclose, herewith, Mr. Barner's letter.

I have to acknowledge the receipt of your letter of the 26th ultimo, enclosing copy of a communication with reference to the application made by the Rev. Arthur Barner, Superintendent of Methodist Missions, for the erection of a day school building at Nelson House.

In reply, I beg to say that the Department has no funds available to erect a building at this point. It is considered that the present arrangements for carrying on school can be continued and the classes held in the church building until such time as the question of a boarding school is decided.

I have the honor to report that the teacher at Nelson House Day School informs me that she is teaching the children in the Methodist Church building. She complains, however, of the trouble she has to keep the children warm as the place is so big, and she asks that she be supplied with a canvas 10 feet by 20 feet so she can shut off a section of the building.

The request looks reasonable, and I beg to recommend that the canvas be supplied.

There are no tent firms here doing this work, but the Department could have it supplied by a Winnipeg firm if the expense is approved. It could be forwarded in my care.

OTTAWA, Dec. 22nd, 1922.

Sir: -

I have to acknowledge the receipt of your letter of the 5th instant, recommending that a canvas be supplied for the use of the Nelson House Indian Day School, in order to assist in keeping the building warm and to prevent draughts.

In reply I beg to say that it is considered the supplying of this material would not serve the purpose of making the building warmer. If you consider that the use of another stove would add to the comfort of the building, you may arrange for the purchase and delivery of the same. A stove of the Quebec heater type or similar would be the most serviceable. If you are able to arrange for the transport to the school of a suitable stove, you may purchase the same, as well as the stove pipe required.

If you purchase this stove you should, if possible, obtain competitive prices and make the purchase from the firm quoting the lowest price. All expenditure in connection with the purchase and transport of the stove should be kept down to the lowest possible point.

The Department will leave this matter in your hands.

Dear Dr. Scott,-

In my request of November 27th., I should have included an appropriation for a day school at Nelson House.

We have never received anything for a grant from the Department for this Reserve. The missionary in charge has been requesting this for a number of years. Your agent at the Pas will be able to give you further information as to the need for a school. I would suggest that an amount of $3,000 be incorporated in the estimates for this purpose.

I have your letter of the 14th instant, in which you urge the Department to provide a day school building at Nelson House, in northern Manitoba. In reply I have to assure you that the need at this school will not be overlooked; but I further have to state that it is doubtful if provision can be made for a new building in the coming year's Estimates.

Sir,

I have the honor to enclose the return for the June quarter 1924 from the teacher of the Nelson House Day School.

The school was closed when I was at the reserve. I examined the writing books of the pupils, and the ones who have attended steadily are doing well. This school will not be a success until a building is put up, the children being taught in the kitchen of the mission house at present, it is very unsatisfactory all round.

Dear Sir,-

Re a new day school building at Nelson House:

I have a report from Mr.Hutty and also one from Rev. Mr.Barner who has recently visited this mission. Rev. Mr.Hutty has a number of logs sufficient for a building 22' x 25' They are now constructing the building. The material needed will be ship lap for gable ends, flooring, ceiling, windows, doors, casing, shingles, wood fibre for morter between the logs, bricks, lime for chimney, and hardware such as nails, lock etc. The cost of this material in there will in the neighborhood of $350, or $400. The cost of freighting from the Pas to Nelson House will be about $500. A grant of $1,000 will I believe fill the bill. I understand there are a dozen school desks in the mission house. A few others may be required. Your Agent Mr. Waddy, will be familiar with the whole situation and no doubt will be able to give you a detailed statement of exact amounts of the above materials required.

I would appreciate very much the Department authorizing Mr. Waddy to make the necessary purchases and have the materials sent in at his earliest convenience.

Yours sincerely,

T. Ferrier

Sir:

I have to inform you that the Superintendent of Methodist Indian Schools has reported that the Rev. Mr. Hutty, Missionary at Nelson House, has arranged with the Indians for the construction of a new log day school building. The Rev. Mr. Ferrier requests that shiplap for gable ends, flooring, ceiling, windows, doors, casing, shingles, wood fibre for mortar between the logs, bricks, lime for chimney, and hardware such as nails, lock, etc., which material is needed to complete the building, be supplied by the Department. It is estimated that the cost of the material will be $400 and the freighting from The Pas to Nelson House, $500.

Please let me have your report and recommendation and, if possible, secure and forward a detailed list of the equipment necessary, with an estimate of the cost. You might also secure an estimate of the freighting on this material.

Sir

Re letter 128-11-5 of the 8th inst., I have not answered previously on account of getting figures on freighting the material to Nelson House for the proposed day school.

In reference to material I enclose a list I had the lumber company figure on some time ago for the information of Rev.T.Ferrier. The material will probably be about as shown but the price will change at any time, up to the present it has remained steady. The cost shown is $$308.10
The hardware such as nails would be about 30.00
The outside figure for freight would be Ry.. 100.00
and teaming . 500.00
The H.B.Co. say they may get the freight done for $4.00 per cwt next winter, but my figure is at rate of $5.00 per cwt. Lamont and Davidson give same information, so we could expect a cost of at least $400.00 for teaming alone.
I have not included any cost for painting this could be left over a year if considered necessary.

I would not recommend a day school at this place for the Methodist Church if there was any probability of getting a boarding school, but as there is no outlook for the latter just now I recommend that the building be proceeded with.

Memorandum:

Dr. Scott.

The Superintendent of Methodist Indian Schools and Mr. Indian Agent Waddy have, on several occasions, recommended that a day school be built at Nelson House. They make this recommendation because they have been informed that boarding school facilities cannot be provided for some years. On the first ultimo Rev. Mr. Ferrier reported that he had learned the Indians were constructing a log building and he urged the provision of $350 worth of finishing material and the allowing of $500 for freight. Mr. Indian Agent Waddy was asked to report and to make a recommendation. He has intimated that $338.10 will be required for finishing material and that at least $500 will be required for freighting. He recommends that the day school be provided if there is no probability of a residential school in the immediate future.

I wish to recommend that the $[redacted] expenditure be allowed. The Methodist Church have conducted a day school at Nelson House for many years, with practically no assistance from the Department in the matter of capital expenditure.

Sir:

I have your No. 2873-110 of the 29th ultimo, with reference to the material needed to complete the Nelson House Indian Day School and the cost of freighting the same. In reply I have to authorise you to purchase the finishing material necessary for this log building. Your estimate of $338.10 should not be exceeded. Competitive prices should be secured and when you are submitting a certified account, in duplicate, in favour of the firm given the business, you should support it with a statement showing the prices quoted.

I have noted that the railway freight bill will be approximately $100 and that at least $400 will be needed for teaming the material from the railroad. You are authorized to have the material shipped and delivered at Nelson House. The Department will rely on you to keep the expense in this connection as low as possible. Proper receipts and vouchers covering railway and freight charges should also be forwarded. An accountable cheque for $300, to pay for the teaming, is being directed under separate cover. Enclosed is a requisition for the freight on the railway.

Sir.—

In reference to two day schools under construction on the Nelson House reserve. I have the honor to request that I be allowed to purchase two 38" stoves, Camp Comfort, one for each building. Also twenty lengths of stove pipe and one elbow for each place. The aporoximate cost of the two stoves and all the pipe is $64.00. It may be slightly less.

When I was at Shoal Lake and Red Earth last week, both the teachers asked me if it would be possible for the Department to renew the stoves at those places, as those in use are badly cracked and when the teachers go home at noon the fires have to be put out to avoid setting fire to the buildings. If there are any funds on hand for such purposes I would be obliged if the Department can see fit to allow of expenditure to supply similar stoves to Shoal Lake and Red Earth as are asked for above for Nelson House.

Sir:

I have your letter of the 23rd ultimo, requesting authority to purchase stoves and stove pipe for the use of each of the Nelson House Methodist and R. C. Indian Day Schools, as well as similar equipment for each of the Shoal Lake and Red Earth Indian Day Schools.

In reply I have to say that you may arrange for the purchase of 28" stoves, "Camp Comfort", and the quantity of stove pipe required for each of the above named schools. If possible, competitive prices should be obtained and the purchase made from the firm quoting you the lowest price. You should arrange for the freighting of the stoves to the respective schools. Please forward properly certified vouchers, in duplicate, covering the expenditure incurred for each of the schools, separately. You should also forward accounts with receipts attached covering the cost of the freight charges. Please arrange for the purchase of the stoves at the lowest possible cost and for their transportation to the schools.

Sir;-

In reference to letter 128-11-5 of the 2nd inst giving authority to purchase four stoves for day schools in this Agency, I beg to state I purchased these, the cost is considerably less than estimate.

One of the teachers asks me if it will be possible to have a zinc screen to place around the stove, to keep the pupils close to the fire from getting too hot. This idea is correct, I beg to recommend that I may be authorised to get four such screens and supply them to the schools, the cost of each screen would be about $4.00.

In reference to letters of August 8th and September 4th last numbered 128-11-5 regards material for building the new school at Nelson House, I beg to state that both myself and Rev. Mr. Ferrier seem to have overlooked the matter of a wainscott for the building.

This is necessary and should be supplied, the cost would be $32.50 for the lumber and $3.75 for the cap, with probably $30.00 additional for freight charges.

I beg to recommend that this be allowed,

Sir:

I have your letter of the 16th instant, relative to the supplying of the wainscoting which you recommend be installed in the new Nelson House Methodist Indian Day School building. We note that the cost of the material will be $32.50 for the lumber, $3.75 for the cap and approximately $30 for freight charges. When this material has been delivered you should furnish properly certified vouchers, in duplicate, covering the cost.

I have also your letter of the same date requesting authority to purchase a zinc screen to place around each of the stoves purchased by you for the schools as mentioned in official letter of the 2nd instant. We note that the cost of these screens will be approximately $4 each. Please forward properly certified vouchers, in duplicate, for the expenditure incurred in the purchase of these screens.

Sir:

I have the honor to enclose two requisitions for school material for Day School No. 1, Nelson House Reserve. The first requisition if for stationery for the school. The second is for equipment required for the new school, which is being constructed. The teacher asks for 3 desks ~~#5~~ #3 and 3 rear seats ~~#3~~ #3 These are double seats, ~~size No. 5~~. She states they are made by the A. J. Co. I would be obliged if these were supplied.

In reference to the hydroplate black board. It might be well to allow this, although up to the present we have always used the black board cloth. This black board cloth is very good for a few months, after which it becomes shiny, and practically useless. The teachers use it for a considerable time after it loses its value, with the result that it is hard on the eyes of the children.

Ottawa, February 7, 1925.

Sir:

I have your letter of the 29th ultimo, enclosing a requisition from the teacher of the Nelson House No. 1 (Methodist) Indian Day School.

The school material considered necessary is being ordered from the Government Stationery Office to be sent to the teacher's address. A beaver plate blackboard, 21'x4', with chalk trough and moulding, is also being ordered to be sent addressed to you, The Pas, and when this arrives please arrange to have it forwarded and set up in the school.

Regarding the extra desks, teacher's desk and chair required, I beg to say that you may arrange for the purchase and delivery of this equipment. It is noted you state that any standard type of school desk will be suitable, and you may therefore place an order with one or other of the following firms, viz:

Western Seating Co., 179 Bannatyne Ave. E., Winnipeg, Man.
E. N. Moyer Co. Ltd., Winnipeg, Man.,
Christie School Supply Co., Brandon, Man.

You should obtain 3 double desks, No. 5; 3 double rear seats, No. 3; 1 teacher's desk or table and 1 teacher's chair, plain, suitable type.

Besides the above equipment, you may also purchase and have forwarded to the teacher 1 tea kettle and 1 tea pot.

You should obtain accounts, in duplicate, which you should certify when the goods have been received and forward to the Department in order that payment can be made.

Sir:

Under Vote No.7 in The Pas Estimates for the fiscal year equipment is asked for to fill requirements at the Days Schools, and the Agent advises that this should be purchased as soon as possible. May I ask you therefore to give me the necessary authority.

As far as concerns the item of $500.00 for equipment for the new schools at Nelson House, these latter were not built under the direction of this office and I do not know what is needed, or has been asked for. If the Department wishes to spend what has been requisitioned for a list of the articles to be bought should be furnished.

R

Sir;-

I have the honor to enclose report of visit to the Day School at Nelson House.

The new building is about completed it will be ready for occupation in a few weeks. I supplied what I thought was a sufficient number of windows for the place, I intended them for the side of the school, but two of them are placed at the back, not allowing enough light for the pupils. It will be necessary to put in two more windows at the side, I beg to request that I be authorised to supply them.

The teacher asks if it would be possible to have storm sash supplied, if so it would require eight.

She also asks for beaverboard to cover the walls above the wainscott. I do not see the need of it myself, but if it is seen in the future that a lining is required for the walls I will take the matter up again.

She also asks for kalsomine for the walls, on the other schools in the Agency we use white wash.

The ceiling is shiplap, and the teacher asks if it could be covered with V.Joint. She is living in a pretty cold part of the country so I think this should be supplied, it would require 750 F.B.M. and could be sent in next winter.

I am, Sir,

July 21st, 1915.

Sir,

I have your letter of the 15th instant enclosing the report of your visit to the Nelson House Methodist Indian Day School.

In reply I beg to say that it is noted that the new building at this point is about ready for occupation. You may arrange to supply two more windows for the side of the building and also to have the eight storm sash supplied. You may also purchase and have supplied the quantity of kalsomine required for the walls of the school building. You should furnish properly certified vouchers, in duplicate, covering the cost of the windows and the kalsomine.

We are not prepared to authorise the supplying of the beaverboard to cover the walls above the wainscott as the necessity for this is not seen.

If you consider that the 750 F.B.M. of shiplap should be supplied to cover the ceiling you may arrange for the purchase and forwarding of this quantity at a time most advantageous to having it sent to the school.

Your obedient servant,

A.F.MacKenzie.

DAY SCHOOLS:

At Nelson House, the school building is new, of log walls construction with a good shingled roof, comfortable and is well kept, the teacher is a young man, Charlie Clay, by name, he is a clean cut chap who handles and does his work well, he keeps his school and his equipment in fine shape. It was holiday season here and also at Split Lake othe pupils were not assembled. The improvements, I have mentioned for Nelson House extends to the school and it's grounds that so the pupils can take exercise during recess hour. I noticed however that a very important necessity is lacking here, proper lavatories have not been provided, this should receive immediate attention, as it provides better sanitary possibilities &c, Dr. Robertson mentions this in his report.

Sir:

Mr. Inspector Bunn, in a report on the Nelson House Protestant Day School, states he noticed that a very important necessity, viz. proper lavatory accommodation, had not been provided, and that this should receive immediate attention. In connection with this matter, I beg to refer you to previous correspondence. In your letter of January 24th, 1928, you stated as follows:

> "The Department gave me instructions to have two toilets built at this place and I gave orders to the H.B. Co. to do the work with the assistance of the teacher. This has upset the teacher very much and there will be some correspondence coming to the Department about it; when the time comes for an explanation from this office it will be supplied."

I may say that we had no correspondence from the teacher with reference to the instructions you gave to have this work done.

If it is not too late this fall, I have to request that you will arrange to have this work carried out. If, however, you consider it too late to have this work carried out, the matter should be drawn to the attention of the Department early next spring. It is thought that suitable toilet accommodation could be erected at a moderate cost.

If the work is completed this fall, you should forward an account, in duplicate, properly certified, covering the cost.

R.

Dear Sir, Re Nelson House Day School

In reply to your letter 128-11-4, dated the 30th ultimo, I estimate it will take approximately 400 feet of lumber to build the two toilets. It would cost about $100.00 for the lumber, hardware, transportation to Nelson House and the work of erection. I would have to get authority immediately in order to get the lumber in as it could not be taken in by canoe, so I would have to get it in during the time the lakes and rivers are frozen over.

The material and labour for painting the interior of the School would cost about $35.00.

Your obedient servant,

The Secretary,

Dear Sir:

I have to request that you will arrange for the purchase, from firms on the approved list, of the following equipment, for use of the residence occupied by the teacher of the Nelson House United Church Indian Day School:-

1 combination cook stove and heater,
1 dinette set, consisting of a dining table and 4 chairs.

1 bed, full width, with springs and mattress,
2 rocking chairs.

While serviceable articles should be secured, it is not intended that any expensive equipment be supplied. The equipment should be shipped, addressed to:-

Mr. Ewart Monias,
W a b o w d e n,
Hudson Bay Railway, Man.

I would request that you inform him when shipment has been made, in order that he can arrange to accept delivery. Please obtain accounts, in triplicate, covering the cost, which you should attach to proper voucher forms, certify in the usual manner and forward for payment.

Dear Sir,

With reference to your letter 128-11-1, dated the 29th ultimo, and further to my letter of recent date in connection with a house belonging to the United Church at Nelson House, which they intend to use as a residence for Mr. Monias, the new teacher.

I was up to Nelson House last week and I found the building the United Church refers to. It was formerly used as a warehouse but has been converted to a residence recently. It needs some repairs and kalsomining as the roofs leaks. The cost of the repairs would be about $50.00. May I please have authority to spend this amount.

As regards the furniture, I think this had better be left until the winter time. It is almost impossible to get furniture into Nelson House during the summer months as the river is so rapid and it has so many portages. The furniture would in all probability be damaged during the journey and the cost would be pronibitive.

Dear Sir:

I have your letter of the 17th instant, referring to the house intended for use as a residence by Mr. Monias, the teacher appointed to the Nelson House United Church Indian Day School.

In this connection I have to say that the Associate Secretary of the Board of Home Missions of the United Church of Canada visited the Department recently and requested that certain furnishings be supplied. We have requested Mr. Inspector Hamilton to arrange for the purchase and forwarding to the teacher, Wabowden, Man., of a small supply of furnishings.

Regarding the repairs and kalsomining, I have to say that you may incur an expenditure not exceeding $50 in having the work carried out. I would request that you have the repairs completed at an early date.

Please forward accounts, in triplicate, properly certified, covering the expenditure incurred for material and labour. If it is necessary to pay for the labour in making the repairs, the voucher should state the number of days or hours employed and the rate paid.

Dear Mr. Sutherland: Re: Nelson House Indian Day School

I have been away at the Western Ontario Leadership Camp and on returning find that Mr. Ewart Monias went into Nelson House single. There is therefore not as much urgency in regard to purchasing furniture for the house which he will occupy as I indicated in my recent conversation with you. If the goods have been shipped, no harm will be done, as his marriage is merely postponed and he will have to set up housekeeping for himself when he arrives at his destination, anyway. If, however, instructions for the purchase of this furniture have not been given, there is just a possibility that he might be able to borrow enough from the white people in the community to get through the winter.

My conscience tells me that I ought to notify you of this change in plans, though I am rather secretly hoping that the furniture has been purchased and gone forward. I do not regard a bachelor's life in that North country as very desirable - even when he has all the comforts of home.

Yours very sincerely,

Reverend Sir:

Replying to your letter of the third instant, I have to inform you that Mr. Inspector Hamilton, Winnipeg, was authorized, on the 20th ultimo, to purchase and forward furnishings for the residence that will be occupied by the teacher of the Nelson House United Church Indian Day School. It is noted that Mr. Ewart Menias, the teacher, is still unmarried, the event being merely postponed, and that he will, no doubt, be able to use the furnishings in setting up housekeeping for himself when he arrives at the school. I may add, further, that the local Indian Agent, The Pas, has been authorized to expend an amount not exceeding $50 in having some repairs and kalsomining done to the house.

Dear Sir:

Referring to your letters dated the 17th ultimo and the Department's reply of the 22nd of the same month, regarding the repairs required to the school building and teacher's residence at the Nelson House United Church Indian Day School, I have to say that it is noted you were authorized to incur an expenditure of only $50.00 in carrying out some repairs and kalsomining to the building that will be used for a teacher's residence. I have now to inform you that you may also expend $50.00 in repairing the school building.

After all the above work has been completed, please forward itemized accounts, in triplicate, covering the purchase of the materials, and accounts, in triplicate, covering the labour. The number of days or hours employed and the rate paid should be definitely stated. These accounts should be attached to proper voucher forms, certified in the usual manner and forwarded for payment.

Dear Sir,-

I am inclosing herewith voucher No.353 amounting to $72.90 in favour of W.E.W.Hutty, Nelson House, via Wabowden, Man., for material and labour building toilets and repairing school house at Nelson House Reserve.

I made arrangements for this work to be done when I was in at Nelson House in August. I purchased the lumber from J.Donkey, which he had whipsawed himself, and as he was destitute, I asked Mr.Hutty to give him the value of the $5.00 in food, which he did while I was there. Mr.Hutty should, of course, obtained a receipt from the Indian and attached to the account. If I wrote back to Nelson House for a receipt it would probably be several months before I got it and possibly would not get it until Spring, as the Indian would be out on his trap line.

I made a verbal agreement with Mr.Hutty for him to build the two toilets and supply the necessary logs for $50.00 and also to chink the school and procure the sand for $15.00.

Dear Sir,

May I please be authorised to purchase a heater for the teacher's residence of the United Church day School at Nelson House.

They have, at the present time only a small sized air tight heater and it is not big enough to heat the house they are living in.

The cost would be approximately $30.00 delivered at Nelson House.

Your obedient servant,

Samuel Lovell

Attention Mr. R. A. Hoey,

Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ont.

Dear Mr. Hoey,- Re Nelson House

You will remember some time ago you agreed to pay rent at the rate of $75 per year for the house in which Mr. Ewart Monias lives. This was paid to March 31, 1940. Will you be good enough to let us have a cheque for the year ending March 1941. We have made some repairs to the house and would like to have some money to pay for them.

Yours sincerely,

Dear Sir:

In official letter of May 3, 1940, you were advised that it had been decided to allow $75.00 a year rental for the house occupied by the teacher of the Nelson House Indian Day School. You forwarded your voucher No. 59 dated May 8, 1940, for payment of the rental for the period April 1, 1939, to March 31, 1940. However, it is noted that you did not forward a voucher at the end of March, 1941. We are arranging for payment of this amount and it will, therefore, not be necessary for you to forward a voucher for the period mentioned but at the end of March each year until further notice you should submit for payment the voucher covering this rent.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Ottawa, September 11, 1942.

Dear Sir:

Mrs. Mary O. Pay has been nominated by the United Church for the position of teacher at the Nelson House Indian Day School and this nomination has been approved by the Department. We are sending forward herewith the usual questionnaire forms, which should be signed by this teacher and returned to the Department in due course.

Dr. Dorey, in referring to certain repairs that are urgently needed at this school, states:-

> "The door does not close by more than a full inch at the bottom. The stove is badly broken and there are no storm windows. I think that steps should be taken to remedy this condition at once."

It would be appreciated if you would take the action necessary to have these repairs completed at once. In this connection it might be advisable for you to have a report from time to time on the repairs required at the schools in these outlying and remote districts.

Yours truly,

Encl.

R. A. Hoey,
Supt. of Welfare & Training.

Mr. S. Lovell,
Indian Agent,

Dear Sir:

Welfare & Training Division.

In reply to your letter of 30th July, file 128-11-5 (WT1). I would advise that we have requested a new school for Nelson House United Church in our estimates for the past three years. The old one is overcrowded and we cannot put anymore desks in it. I had to send 15 children home last year due to lack of space.

We have requested a new school and residence in this year's estimates, and would appreciate if we could be granted authority to order material this winter. The only means of transportation is by tractor, and if permission is not given to buy material this winter, it will mean a delay of another year.

Trusting to hear from you at your earliest convenience.

Your obedient servant,

T. A. Bowman
Indian Agent.

Nelson House U.C. Indian Day School

The question of providing a new day school at Nelson House is one that has received active consideration here. However, the problem has been, as elsewhere, to interest a contractor in its construction. The Indian Health Services intend to erect a prefabricated nursing station and nurses' residence, combined, at Nelson House in the near future. It is their hope that the North American Buildings Limited in Winnipeg will have this building ready to ship in by tractor and train during the winter. It has been purposely made large enough so that the teacher can live with the nurse or nurses. It is our hope that this company can also prefabricate a school for us for erection at Nelson House. Mr. Carpenter of the above company has just today visited my office and hopes to have the blue prints ready for our consideration in another month. We will be advising you later concerning this building programme.

Bernard F. Neary,
Supt. of Welfare & Training.

Mr. T.A. Bowman, Indian Agent, The Pas, Manitoba.

Nelson House U.C. Indian Day School.

Please find attached our requisition to the Departmental Purchasing Agent covering a pre-fabricated one-room day school for the above site.

The Indian Health Services are ordering a nursing station from the North American Builders Limited for Nelson House. This nursing station will have ample accomodation for the teacher of this school. It is felt that in such isolated places that it will be to the advantage of all concerned if the teacher and the nurse can live together. This, of course, excludes the possibility of there being a male teacher at such a place. It is hoped that the company concerned can finish this building to reach the dead line at Gabowden. You will note that we have requested a delay until January 1, 1949, if the former date can not be met.

It will be necessary for you to arrange for the excavation of the basement using local labour. Inspector Hamilton has had some considerable experience this summer in the erection of the three teacherages which were ordered for Manitoba Day Schools from this company. He is being sent a copy of this letter and you should refer to him for any further information you require from the company.

Bernard F. Neary,

2. FLOOR SECTIONS:

Prefabricated floor sections are constructed of 2x10 joists at 16" centres. Sub flooring is 1" shiplap applied diagonally with all joints cut over joists. Finish flooring of 13/16" #2 Maple is supplied for application over two-ply paper at the site.

Insulation from between joists has been omitted as we do not recommend insulation with a full basement.

3 and 4. OUTSIDE AND INSIDE WALLS:

Outside walls are prefabricated in panels of 2x4 studding spaced at 16" centres with double top and double bottom plate. The double bottom plate is left off panels and is supplied in lineal footage to be nailed down solidly through sub-floors and joists to the layout of partitions at time of erection forming a solid key. On the 11'6" wall, two rows of 2x4" girths are installed in panels for class room; on 8'3" wall, a solid line of 2x4" girths is installed at 4' height. Outside sheathing is 5/16" exterior grade rough plywood sheathing fastened to the studs with coated nails. Wall sections are insulated in the factory with Full-Thick RockWool Bats or Fibre Glass insulation fastened between studding over which is applied one-ply Duplex Scutan vapor seal paper. The interior finish is standard quality 1/4" 3-ply weatherboard plywood. Johns-Manville Cedar Grain Shingles and 12# asphalt felt is supplied for application at the site for exterior finish.

5. CEILINGS:

Ceiling material consisting of 1x2 strapping and 1/4" plywood is supplied for application at the site for the washroom and inside of stairs. Ceilings for vestibule are constructed of 2x6 ceiling joists on 16" centres; 1x2 strapping on 12" centres; vapor seal paper and 1/4" exterior grade for finish

Ceiling for class room is constructed in the following manner at the site after erection of roof trusses. 1x2" strapping is to be laid on 12" centres firmly nailed to the underside of the bottom cords of trusses; Vapor seal paper is then applied over strapping over which is applied 1/4"- 4x8 sheets weatherboard plywood for ceiling finish.

6. ROOF SECTIONS:

Roof for vestibule is constructed of two panels having 2x4 rafters on 16" centres. 1x6 ridge board, 2x4 bottom plate which is firmly nailed to ceiling joist at time of erection. Rafters are sheathed over with 1" shiplap which is applied diagonally on the panels in the factory. 2x4 collar ties are supplied for application at the site to go on at 16" centres.

Roof over class room for which we are supplying the trusses which are placed at 2' centres. Trusses are constructed as follows: 2x6 top cords; 2x6 bottom cords; 2x4 braces which are securely fastened together with 5/16" plywood gusset plates using coated nails.

The 2x4 ridge board is supplied which is to be inserted into top of truss at time of erection. 2x4 filler blocks are supplied, cut to length, to be used as spacers for trusses at top of outside wall which also forms a nailing backing for ceiling strapping.

Roof sheathing is supplied for application at the site.

1x6 lateral braces are supplied which are to be firmly nailed to the top edge of the bottom cords to prevent sway.

210# asphalt shingles are supplied together with 12# asphalt paper with starter strips and galvanized iron flashing for application at the site.

7. GABLE ENDS:

Gable Ends sections are constructed in a like manner to trusses with 2x4 additional fillers which are applied 5/16" exterior grade rough plywood sheathing the same as outside walls.

8. WINDOWS, DOORS & LOUVRES:

Window frames are factory made with exterior trim applied ready for fitting into openings at time of erection. Windows are 1 3/4" thickness, double glazed S.S. Glass equipped with sash locks, balances, weather stripping and sash lifts. Storm Sash are 1 3/8" thickness, single glazed with S.S. Glass

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL.

The undersigned has the honour to report:

THAT it is immediately necessary, and funds are provided in the 1947-48 estimates, Indian Affairs Branch, Mines and Resources, to provide a one-room Indian day school on the Nelson House Indian Reserve, The Pas Indian Agency, in the Province of Manitoba;

THAT it is essential that educational facilities be provided for the Indian children on the Nelson House Reserve;

EXTRACT

THAT section 36 of the Public Works Act, Chapter 166, R.S.C. 1927, provides, in part as follows:-

"Whenever any works are to be executed under the direction of any Department of the Government the Minister having charge of such Department shall invite tenders by public advertisement for the execution of such works except in cases (a) of pressing emergency in which delay would be injurious to the public interest. . ."

THAT, due to the very isolated situation of this reserve, there are no builders or contractors in the area nor are outside contractors interested in tenders if invited as aforesaid, as they have all the work they can do in their own localities;

THAT a competent building company, namely the North American Buildings, Limited, Winnipeg, Manitoba, has agreed to undertake the provision of a prefabricated school immediately on a basis of $7,544.50 F.O.B. Winnipeg, plus freight and erection supervisor's wages, fare and expenses.

EXT

THAT it is considered that the provision of this school is a pressing emergency and within the exception provided in section 36 above recited and further, it is considered that the work can be more expeditiously and economically executed as suggested herein.

The undersigned, therefore, recommends that authority be granted for the provision of this building as

Dear Sir:

This will acknowledge receipt of your letter of March 1, 1948, and attached invoices, etc. We immediately prepared Orders-in-Council requesting authority to purchase these prefabricated schools and forwarded them to our Departmental Purchasing Agent. We had received similar letters from you and was prepared to forward the draft Orders-in-Council for necessary action.

I hope to be advising you with further progress in this matter in the near future.

Yours sincerely,

Mr. T.A. Bowman, Clerk in Charge, Indian Agency,
The Pas, Manitoba.

Attached is Purchase Order No. 28439 covering a prefabricated one-room school.

It is our understanding that this building has been shipped and it is hoped that it has reached Nelson House.

I also attach an account in duplicate which you should certify and return if the building has arrived. We are anxious to pay the cost of the building from our appropriation for the fiscal year 1947-48. To permit us to do so the account will have to be received from you by April 21st, provided, of course, the building arrives by that time. If not you should advise us.

Re: Voucher 513 issued in favour of

The first item on this voucher covered the cost of freighting the cement for the Little Grand Rapids U.C. School. We are returning the account for $918.75 in order that you can attach it to a separate voucher.

The practice of including on one voucher accounts to be paid from different appropriations causes a great deal of unnecessary work at head office and also delays the payment of the account. I am, therefore, returning the account so that you can prepare it in the manner we desire.

Dear Mr. Connolly:

I understand that you are making arrangements for the work crew to go in for the Nelson House nursing station. As you are probably aware, we are also arranging for the purchase of a prefabricated school at Nelson House. In fact it is intended that the teacher will live with the nurses at the Nursing Station.

Therefore I am writing to you in the hope that a co-operative scheme can be worked out with regard to the erection of the day school also. I am sending a copy of this letter to our new Indian Superintendent at The Pas. I would suggest that you contact him through Mr. Waite in Winnipeg to find out if any arrangements have been made for the erection of this prefabricated school.

Dear Colonel Neary:

Nelson House Nursing Station,
Nelson House Day School

This will acknowledge your letter of May 21st asking for co-operative scheme in regards to erecting the day school at the time of the erection of our nursing station. I have delayed acknowledging this correspondence until I had thoroughly gone into the matter.

Circumstances with our construction programme are such that I have two carpenters working at Nelson House and am making arrangements to erect the foundation at the same time as the rest of our construction. So that when the erector goes up to erect our nursing station he will also be able to erect your day school. Mr. Law had previously staked out the location for the ~~nursing station~~ day school and it was shown to me by Mr. Hutty, free trader, in the district with whom our Departments carry on a considerable business and co-operative interests. Mr. Davis was in Norway House last week and we revisited the site and I established the lines of the building and we made arrangements for the excavation to proceed immediately and to obtain suitable stone, gravel and sand for the construction of your school basement. I have advised my carpenters that they are to keep an exact time account of the hours that they spend on either of the above mentioned projects so that the Departmental charges may be correctly distributed. Mr. Hutty is keeping separate accounts for the work done on the day school and the nursing station in regards to the local labour. Carpenters rates are $1.50 per hour each man with board and allowances.

The blue print supplied for the construction of this building indicates an area of the basement set aside for toilets but North American Buildings have told me that the facilities have not been supplied at the request of your Department. In consultation with Mr. Davis I have advised that in the event of a future desire to put in these facilities that the cast iron sewage waste pipe should be located in the floor and through the footing to the exterior of the building at the time of construction of the foundation. I believe Mr. Davis is taking the necessary steps to obtain the required pipe for this job.

In regards to finishing the building, i.e., laying the floors, putting on the trim, doing the painting, etcetera, I do not wish to take any responsibility for this work. You can probably make arrangements locally to obtain a carpenter to do this work but I expect that the schedule of constructing nursing stations will have reached such a peak that I will not be able to spare my carpenters from our particular work. I hope that our nursing station and your dayschool will be in the stage of erection by August 1st.

Yours very truly,

Nelson House U.C. Indian Day School.

It is presumed that you have discussed with Mr. Connolly of the Indian Health Services, the question of the joint erection of the nursing station and day school at Nelson House.

We have received a letter from Mr. Connolly concerning these arrangements and we note in the final paragraph that he states as follows:

> "In regards to finishing the building, i.e., laying the floors, putting on the trim, doing the painting, stoves, I do not wish to take any responsibility for this work. You can probably make arrangements locally to obtain a carpenter to do this work but I expect that the schedule of constructing nursing stations will have reached such a peak that I will not be able to spare my carpenters from our particular work. I hope that our nursing station and your day school will be in the stage of erection by August 1st."

It is presumed that Mr. Law is aware of the necessity for making local arrangements with regard to hiring carpenter for this work. Therefore, we are arranging to send him an accountable advance of $250.00 to cover immediate expenses in this regard. He can advise further with regard to other expenses and requirements.

Bernard T. Neary,
Superintendent of Education.

Mr. E. Law,
Superintendent,

Dear Mr. Law:

Nelson House Construction

Following conversations with Inspector Davis and Superintendent Neary it has been agreed that as soon as the nursing station at the above point has been completed that the erector will proceed with the erection and completion of the school. This Department has two carpenters engaged at Nelson House. They have already spent considerable time in the building of the foundation of the school and their services will be transferred for the erection work and finishing of the school. When the painter arrives at Nelson House and has finished painting the nursing station his services will also be transferred to the Affairs Branch for painting the school. It, therefore, is only necessary for you to obtain a heating man to do the installation of the furnace and heating pipes. This you should plan to be carried out shortly after September 1st. It would be advisable for you to keep in touch with Mr. John Johnson, North American Buildings erector who is now on the site and find out when he will commence the erection of the school, and his general progress from time to time at that unit.

On completion of the school the erector and the two carpenters should be brought to The Pas to erect the garage for the doctor. Five Indian labourers should be supplied for this work at The Pas. In view of the fact that this Department has taken the erection gang to Nelson House and borne the expenses we expect that you will make the necessary arrangements to take the erector and two carpenters to The Pas and return them to Norway House. Will you kindly keep in touch with the progress of the work so there will be no delay and their work may be expedited at Norway House. It will be necessary for you to contact Mr. Hughes occasionally in this respect.

Yours very truly,

Nelson House School

Erection gang carpenters working at Nelson House Nursing Station were employed in connection with the construction of the basement foundation and semi erection of the day school for the Indian Affairs branch at Nelson House on the following dates: July 12th, 13th, 14th, 15th, 16th, 20th, 21st, 26th and August 2nd, 3rd, 4th, 6th, 7th, 9th, 10th, 11th and 12th. I do not anticipate that they will be further engaged this month but on the 1st of September their time may be fully employed with the erector at the school.

Their daily employment is twelve hours at $1.50 per hour and this includes each of two men.

AIR MAIL.

Mr. E. Law, Supt. of Indian Agency, The Pas, Man.,

We have your voucher No. 1073 issued in favour of W.E.W. Hutty for labour and board for men working at the Nelson House U.C. School. We do not appear to have received any specific information from you regarding this building and we would appreciate knowing the progress that is being made and when the building will be completed. Will additional funds be required for labour? If so you should let me know the amount.

An immediate reply would be appreciated. Payment of the voucher will be withheld until you reply to this letter.

Mr. E. Law, Supt. of Indian Agency, The Pas, Man.,

With reference to requisition of the 19th ultimo, the Department approves the purchase of the under-mentioned items for use at the Nelson House U.C. Day School:

1	Large enamel pot,
1	Mid enamel pot
1	Enamel pitcher
1	Large wooden spoon,
1	Egg beater
1	Pyrex Measuring Cup
7	yds. Tea Towelling
2	cases Kleenex
1	" Toilet tissue
1	doz. bars Toilet Soap
2	doz. bars Laundry Soap

The teacher requests authority to purchase unlimited quantities of klim, cocoa, sugar and packaged soups. We do not issue such authority. As you are aware all Indian children are entitled to receive Family Allowances and we feel that as a result, the parents should be able to assist in providing their mid-day lunch for the children going to school. We are willing to provide small amounts of the items mentioned above for a period of four or five months during the extreme weather but we must know before hand the exact quantities which you consider should be allowed.

Mr. Philip Phelan,
Chief, Education Division,
Indian Affairs Branch,
Dept. of Mines and Resources,
Ottawa, Can.

Dear Sir:

Acknowledging your letter of October 4th, your file 128-11-5 (E1), in connection with the Nelson House U.C. School.

This building is near completion. There is only the painting, sanding of floors, and installation of desks., etc., yet to be done. We have in the office more return of labour sheets for carpenter work and labour. There will be further expenditures to come in yet for hauling gravel, digging the excavation for the building, painting, and installing the desks. At the present time I am unable to give an accurate estimate of these amounts.

This school has been built in conjunction with the Nelson House Nursing Station, and has been under the supervision of Mr. C. J. Connolly, Supervising Engineer, Indian Health Service, as well as our Regional Supervisor, Mr. R. S. Davis. At the present time Mr. Connolly is at Nelson House looking after the final details.

Your obedient servant

MEMO to B. F. Neary
Director of Education Indian Affairs

NELSON HOUSE SCHOOL

The a/m school was inspected on Oct 5th and found in operation despite the fact that it was not painted. Attendance was so large that the teacher had to make use of the space for the present.

A few minor things were omitted in the finishing but can be taken care of by the staff caretaker or a local indian carpenter. Some of the doors have swelled a bit since the heat has been put on and will habe to be dressed down. A couple of lock sets should be replaced. I will take up this matter with the Prefabricators. Inside window stops were not put on in the basement windows and these will be attened to by a local carpenter. I arranged with a local Indian to build a railing around the back porch landing and steps. Arrangements were also made to have the grounds graded and drained.

The glazed door for the basement entry was wrecked in the transportation but was temporarily repaired and will have to be replaced next year. Lowerrow of coats hoks should be provided immediately for the small children. A stove for the kitchen, a water cooler and pails should also be provided.

I am told that chemical toilets are being provided for the basement installations this I do NOT recommend as the space provided is not ventilated and does not have a window. The outside facilities could be used for this year and provision made for the above next Spring. Also a mistake was made in placing the doors to the proposed toilets,- they are hung backwards, and should be changed before being put into operation.

Mr Hutty (trader) and the Chief of the Band asked me to request that the Department turn over the old School for Community use. Mr. Hutty was at one time owner of this log building. And supplied frames windows and doors for its completion. Thus he has a personal interest init. He recommends that it shou d be disposed of 1. as a local community hall 2. as home for a deserving case 3.or to any benifit of the indian reserve but4. not to a non Indian person.

Would give the above your generous consideration and advise the interested parties.

I wired Mr Law that the caretaker for the Nursing Satation would not have time to look after the School and that he should have someone appointed immediately to take care of the fires and the cleaning. I tried to organize the Indians to clean the windows over the week-end. I hope it was successful. Dustbane should be supplied in ample quantitiy for sweeping. I requested Mr. Law to send in two kegs immediately.

I expect that Mr Law has arranged for painters to go in soon. I wired him that they should have the necessary quantity of paint with them on their arrival. Dr. Corrigan removed the paint form the Nursing Station and it will have to be resupplied. I advised Mr. Law to this effect.

I trust the above matters meet with your approval.

REGISTRY

Attention: B.F. Neary

Dear Sir:

In reference to your letter of October 15th, file 527-5(E1), regarding painting Nelson House United Church School, the paint for this building has just arrived in The Pas, as Dr. Corrigan flew into Nelson House and took the paint for the school along with that of the Nursing Station to Norway House.

I will be unable to finish the work on this building until after freeze-up. As no authority was given to anyone to use this building before floors and painting was done, however, this school has been in use for sometime now and I do not know the condition of the floors. It is almost impossible to secure a sander in The Pas, so I would like to have authority to have these floors sanded by hand before applying the varnish.

In regards the toilets for the school, I mentioned to you in Winnipeg that new ones were made a year ago for the old school and I would have them moved up to the new school.

In regards to the old school I believe this is an excellent idea in using this for a community centre, as the band on the whole would be benefitted by this, I would suggest that it should be moved near to the sports field before being put in use for this purpose.

Your obedient servant,

E. Law,
Supt. Indian Agency.

Re: Nelson House, Manitoba.

In a letter dated October 11th, from Mr. C.J. Connolly of the Indian Health Services we were informed as follows:

" Mr. Hutty (trader) and the Chief of the Band asked me to request that the Department turn over the old School for Community use. Mr. Hutty was at one time owner of this log building. And supplied frames windows and doors for its completion. Thus he has personal interest in it. He recommends that it should be disposed of 1. as a local community hall 2. as home for a deserving case 3. or to any benefit of the Indian Reserve but 4. not to a non Indian person. Would you give the above your generous consideration and advise the interested parties?".

We have forwarded a copy of this letter to Superintendent Law and asked him to let us have his comments regarding the suggestion that the old school be used for a Community Centre. In a recent reply he writes as follows:

" In regards to the old school I believe this is an excellent idea in using this for a community centre, as the band on the whole would be benefitted by this. I would suggest that it should be moved near to the sports field before being put in use for this purpose".

We have no objection to the old school being used for the purpose suggested above.

Mr. E. Law,
Superintendent,
Indian Agency,
The Pas, Manitoba.

Mid-day Lunch Supplies
Nelson House U.C. Day School.

We are in receipt of requisition dated November 9th from the above mentioned school.

The Department approves local purchase of the following:

80 lbs. Milk
50 lbs. Sugar
18 lbs. Cocoa.

We have been advised that Trumilk is .10¢ or .15¢ less a pound than Klim and we suggest that you purchase the former brand.

We feel that the amounts mentioned above should be sufficient to provide the children with a hot drink during the months of December, January, February, March and April.

Bernard F. Neary
Superintendent of Education.

Memorandum:

Col. B.F. Neary
Supt. of Training - Indian Affairs

Mr. C.J. Connolly, Supervising Engineer of the Indian Health Services, advised this office that E. Sabiston and F. Perchaluk, carpenters employed by this Service and flown in to construct the Nelson House Nursing House, were employed for 17 days in con ection with the construction of the Nelson House Indian Day School during July and August.

This matter was discussed with you by our Mr. Wright and it was agreed that the Medical Vote should be credited for wages, board and room paid by this service while these men were at Nelson House. Consequently we have prepared a cheque requisition in the amount of $778.00 with a statement attached to be credited as indicated, which is herewith forwarded for your approval and signature and the appropriate coding.

May this be given your immediate attention as the funds are required.

527-5

Extract from Regional Supervisor Davis' report dated January 4th on the Nelson House U.C. Indian Day School.

The teacher of this school is Miss Ruth Jardine. She appears to me to be more or less untidy and a little sloppy in her methods. However, the school was not in operation when I visited, as it was early in the morning.

Mr. Crafton inspected the school after my visit and I am forwarding his report. There are 43 children on he roll and 25 of school age living around the village who are not attending school owing to a lack of accommodation.

I would recommend that the old school building be repaired and another teacher hired to look after these pupils. I would estimate the cost of repairs at about $250.00. Some desks would be required, but for the time being tables could be erected by Mr. Arnfinson, who is a fairly good carpenter.

Nelson House Project - Paint Supplies

Attached is a memorandum of the quantity and cost of paint supplied to the Indian Health Centre and Indian Day School prefabrication projects at Nelson House by the North American Buildings Ltd., Winnipeg. Of the total cost we have arrived at the proportion of cost to your project, the Day School, to total amount $246.63. Also attached is a cheque requisition for the said amount to be signed by you and returned to this office at your earliest convenience, so that this account may be settled out of 1948-49 appropriations.

The amount of your share was derived from the following items:

Order No. 3434B (13 items)	$213.63
Plus 10% (Company's charge)	21.36
Proportion of freight charges $\frac{213}{395} \times 21.60 =$	11.64
Total	$246.63

We trust this is satisfactory and that we may be favoured with your early reply.

We have your requisition of April 28th in connection with water for the Nelson House U.C. Day School.

We would like to have a further explanation regarding the matter. We understand the Nursing Station is situated quite close to the school, and if they have a water supply it would seem that the teacher of the school could obtain the small quantity she requires. How far does Mr. Hutty live from the school, and what would he charge for supplying water?

Dear Sirs:

Attention: Mr. B. F. Neary,
Supt. of Indian Education.

Replying to your letter of May 18th, file 527-5 (E.1), in connection with requisition for water for the Nelson House U.C. Day School.

Most of last winter the water pump at the Nursing Station was out of order, and water had to be hauled ½ mile up hill from the lake on a stone boat. I will make further enquiries at Treaty time to see if there may be any improvement in the water supply next winter, and also find out what charges Mr. Rutty will make.

Your obedient servant.

1. Teacherage: Two room suite should be set up in basement. There is no other suitable accomodation in the settlement.
2. Toilet accomodation: Basement has four compartments for indoor toilets but doors were hung incorrectly with locks on the outside. Outdoor toilets are used (no plumbing)
3. Attendance: Number of children enrolled: 40
   Number of children not enrolled: 58
   The reason for this is lack of accomodation. The older school should be re-opened to take care of this surplus.

In submitting her report for the fiscal year ended March 31st, 1949, the teacher of the Nelson House U.C. Indian Day School writes as follows:

1. Teacherage: Two room suite should be set up in basement. There is no other accommodation in the settlement.

2. Toilet accommodation: Basement has four compartments for indoor toilets but doors were hung incorrectly with locks on the outside. Outdoor toilets are used (no plumbing).

Please let me have your comments regarding her suggestions. If you recommend that any of the work should be done, you should submit an estimate of the expenditure that will be required.

June 23, 1949.

Indian Affairs Branch,
Dept. of Mines and Resources,

Dear Sirs: Attention: Mr. Philip Phelan
Chief, Education Division

Replying to your letter of June 13th, file 527-5 (E.1) in connection with the U.C. Indian Day school at Nelson House.

Teacherage. I understand the original plan was to have the school teacher stay at the Nursing Station. This however, was never put into practice, due to the fact that the nurse in charge did not find this satisfactory. I think in future accommodation for the teachers should be kept in mind in building new schools.

I received word from Nelson House this spring that there was two inches of water in the basement of this school. My Assistant Agent on that Reserve was instructed to drain the basement and level off the ground to provide better drainage from the outside walls. Most of this water I believe drained into the basement from the stairway entrance on the outside of the basement. I would like to inspect this school further before making any suggestions in connection with the two room suite being put in the basement. I will be at Nelson House on my Treaty trip the end of July, and will advise you further on my return.

Toilet accommodation. On my inspection of this school last September while the erectors of this building were still there, I told them that chemical toilets were to be installed in the basement, according to our plans. I pointed out that proper ventilation should be provided for these toilets before they were installed. However, Mr. Connolly visited the school shortly after, and proposed that outside toilets be used. It was after his recommendation that I asked Col. Neary, when attending the Superintendent's Conference

in Winnipeg, if we could have the outside toilets from the old school, which had been recently built, moved to the new school, as the chemical toilets had not been shipped in. If there is to be a suite in the basement of this school, we will definitely require good ventilation for these toilets. A further check will have to be made to see whether this is possible, and I will include this information in my report, after the Treaty trip.

Your obedient servant.

We have noted your comments concerning the toothcrugs and your recommendation that we change our plans in future. Similar instances convince us of the soundness of your proposal.

I know we will receive a further report concerning the water in the basement and hope that this can be corrected.

Please requisition from Simpson's or Eaton's catalogue the chemical toilets which you wish, or provide us with a firm in Winnipeg with whom we can correspond. In view of the information in your report, we are prepared to provide these chemical toilets if you so recommend.

Dear Sirs: Attention: Mr. B. F. Neary
Supt. of Indian Education.

Acknowledging your letter of June 30th, file 527-5 (E), in connection with Nelson House U.C. Indian Day School.

On a recent visit to this school with our Regional Supervisor, Mr. R. S. Davis, we discussed the possibility of installing chemical toilets in the basement of this school, and we decided against this, as there is no means of obtaining adequate ventilation now, and there is a possibility that we might have to build another classroom in the basement.

We have enough children on this Reserve to fill two classrooms, but the average attendance is much lower than it should be. The reason for this is that during the trapping season the trapper takes all his family to the trap line, leaving the classroom practically empty for about two months. Until we make them see the necessity of leaving their wives and children at home I don't think it advisable to send materials in for a second classroom in the basement.

I instructed the Assistant Agent at this point to put more fill around the basement walls, and this should prevent further trouble with water in the basement.

I have arranged for the teacher to obtain board and room with the Assistant Agent at his home, but I am

RECOMMENDATIONS

Extension repairs needed:

1. Basement fills with water every spring or even every heavy rain. For the last eight years, nothing has been done, although promised many times. Water from the large field in front of the school passes around the school on its way to the river. It goes through the basement windows and cracks in basement walls and goes out the basement door at the rear when it has reached the door's level (X three ft.)

In my opinion, a dike-wall should be built in front of the school and two canals or ditches on each side of the school. (preferably cement) this would stop the water from getting to the school and would allow it to run to the river without passing through the basement. This was recommended seven years ago by a would be engineer but was never carried out.

2. Lighting: More windows are needed in front. Two windows were recommended 6 yrs. ago. This was approved but somehow only one was installed.

3. No light in vestibule: When outside door and classroom door (inside) are closed, there is complete darkness in the small vestibule. The outside door should be fitted with a window pane.

4. Toilets: They are an absolute disgrace. This is the worst I have seen for many years. Doors have fallen off of their hinges. Very dirty, the sight of them is enough to make a person throw up. (In fact I nearly did.)

5. Washing facilities: At present there is no washing facilities at this school. Washstand, basin, slop pail and reservoir urgently needed.

6. Drinking facilities: At present no drinking facilities.

7. Blackboards at back or room just nailed to wall, no chalk trough.

8. Cloakroom: this consists of hooks and rails on wall of closet. Rod, shelf, hangers type would easily be installed in closet at side of room. (back)

9. Kitchen now being used as a storeroom for books, supplies etc. If shelves put up in front cloakroom closet, all supplies could be stored there.

This could be a nice practical classroom if organized properly. Right now it is not good.

Sir:

I have your letter of the 19th instant, informing the Department that the Nelson House R. C. Indian Day School was opened on the 1st of October, last. We hope that there will be a regular attendance of all the Roman Catholic Indian children of school age at this point.

The Department will approve of the present teacher, Mr. Sicotte, continuing the school in operation during the month of July, 1926, provided there is a regular attendance. If he teaches continuously each school day until the end of July, he will have completed a full teaching year of ten months. This will only allow the month of August, next, as summer holidays, as it is expected the school will reopen again on the 1st of September, 1926. You should inform Mr. Sicotte of the authority granted to continue the school in operation during the month of July, next.

Re: Nomination for the position of Teacher
at Nelson House, Your letter No. 128-18-1.

My Dear Sir:-

In behalf of Bishop Charlebois, presently absent, I beg to acknowledge receipt of your letter of the 3rd inst. in connection with the nomination of a teacher for Day School at Nelson-House. I understand that the number of children at that post is very few this year. Some of them have become pupils of the Cross-Lake Ind. Res. School and some others have left the place with their parents.

I think this is the only reason why Bishop Charlebois did not ask for the nomination of a teacher to take the place of Mr. Sicotte.

Hoping this will be satisfactory, I remain,

Yours truly,

Mr. Roland Lauze, teacher of the Nelson House R. C. Indian Day School, called upon me on his way back to Nelson House to enquire regarding his salary cheque for the March quarter.

His cheques have alwayd been sent to Father Lazennesse, Bishop's Palace, The Pas, and they advised me the cheque for the June quarter had been received, but so far no cheque has been received for the March quarter. This report was forwarded April 7th, 1932 per our letter 1232-148.

Kindly advise me if this cheque has already gone forward.

Dear Sir;

I am writing to you concerning my March cheque; the latter being late to come I asked Mr. Lovell, "Indian Agent", of the, to be good enough to enquire over the 'phone. He was kind enough to grant my request and lately, the money was received but minus a 10% discount. So, I beg to advise you that when I received notification of a decrease in my salary you clearly emphasized that it would be effective from the 1st of April.

The original return for the quarter ended March 31st, 1932, did not reach the Department and, consequently, it was necessary to obtain another copy. This did not reach here until September 8th and, in paying the teacher's salary for the quarter ended March 31, 1932, a 10% deduction was made. As the deduction in salaries of teachers of Indian day schools only dates from April 1st, the above balance is therefore due.

I have the honour to enclose requisition for school supplies required at Nelson House School No. 2, under R. C. Auspices.

.....

The material for the school goes forward to-day and the building will probably be completed by spring. I desire to have this requisition filled as soon as possible so I can deliver the goods by winter freight which is much cheaper than the summer transport.

Dear Sir:

I am in receipt of your letter of the 6th instant with reference to providing accommodation for the teacher at the Nelson House R. C. Indian Day School.

An amount of $1200.00 is provided in the current year's appropriation for the above work but it is hoped that the necessary accommodation can be provided at a smaller cost.

I presume that this addition can be erected by day labour employing Indians. Will it be necessary to engage any white men? If so, please let me know what tradesmen will be necessary. An estimate of the cost of the labour should also be supplied. Full details should be furnished regarding the materials as these will have to be ordered through the Purchasing Agent. If any of the material can be purchased close to the school you should state the name of the firm and their address in order that we can give this information to the Purchasing Agent. At the same time you should let me know the best method of shipping the material to the school.

Yours truly,

Dear Sir:

The Department finds it necessary to return the attached credit voucher in connection with work done at the Nelson House R.C. and U.C. Schools.

The account of the Beaver Lumber Company dated September 8, 1940, includes two items of $1.33 each for freight. Before the credit voucher can be accepted it will be necessary for you to secure from the Company receipts from the transportation company for these expenditures. These receipts should be attached to the voucher.

Dear Sir,

Cheque No. 61966 Jan.26, 1944 - $10.40
Canadian Pacific Airlines,
Airways Building,
Winnipeg, Manitoba.

I have your inquiry of the 3rd instant, and advise that the above noted cheque is in payment of the following: Your statement of Oct.21, 1943, shown thereon Channing, Man., Agency.

Oct.15th	Waybill or Ticket No. WB-W-52	Our Charges $10.40	Total Charges $10.40

Covering 6 pcs mdse, Wabowden to Nelson House 208 lbs.

The form on which this account is rendered is marked Form 22 SPEC. And it does not show any invoice number.

I trust this information will be satisfactory; if not I will send you a copy of your account on which the payment was made. But the above is practically the full details.

You will note that this cheque was supposed to be mailed to Winnipeg, and possibly it was mailed in error to Montreal, as your letter is written from Montreal.

Yours truly,

Since last spring I wrote twice for a school register and Monthly Report blanks, and so far I haven't received either of them. So, will you kindly send me the above as soon as possible.

The attendance is not too bad this winter considering the intense cold, the bad storms and ailments. Maybe the children would be more enthusiastic to come if we had a decent school.

The Secretary,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Dear Sir:

In reply to your letter of February 12, I beg to advise that I have made a requisition in my estimates for the last three years, to try to get a new school at this point. Owing to lack of authority from the Department to go ahead, I have not been able to do much except keep it in the best of repair, without spending too much money. I received authority from the Department in 1946 to put siding on the teacherage, but found it impossible to buy same. I expect to be in Nelson House towards the end of March, and will visit this school and teacherage thoroughly over-hauling, and will make my recommendations upon my return.

I might add that this teacher, Mr. Leane, is very dissatisfied with his salary in connection with his work, principally due to the fact that his salary is low, and I sincerely think that he should be given an increase.

Hoping this will clear this matter up to your satisfaction, I remain,

Your obedient servant,

S. Lovell,
Indian Agent.

We have your letter of the 24th inst., with reference to the Nelson House R.C. School. It is noted that you intend to visit Nelson House about the end of March and that you will report further when you return to your office.

With regard to your recommendation about the teacher's salary, I enclose one of our regular application forms which you should have Mr. Lauzo complete and return. We will then be fully aware of his qualifications and be in a position to decide if these qualifications are sufficient to justify an increase in salary.

Nelson House R.C. Day School

It is understood from your letter to Mr. Hamilton of 24th March that separate buildings were erected at the above school for the teacher and for the classroom. At the present time we are concentrating on constructing a one room day school and combined teacher's residence.

We feel that it is better, where possible, to construct a single building rather than separate buildings for the teacher and for the school.

We are hoping to have Major Clark, our Educational Survey Officer visit you in the near future and wish that you would discuss thoroughly with him the situation at both Nelson House and Big Eddy.

Bernard F. Neary,
Supt. of Welfare & Training.

Dear Sir:

Attached please find our Voucher 1096 dated October 9, 1947, apparently Duncan Hart received $4.25 only, and the team and man used for hauling mud was Mr. Hutty's own.

We trust this is a satisfactory explanation.

This is in reply to your letter of October 30, 1947, file 128-18-5 (WT 1).

Nelson House R.C. Day School
and Garth Indian Day School.

I understand that it is agreeable to both Mr. Ostrander and yourself to have funds voted in our Estimates for the Red Earth Indian Day School transferred to the Nelson House R.C. Indian Day School.

This will enable us to order the materials required for this school and have them shipped in by winter freight to Nelson House. Thus, we will have on hand by the Spring a complete bill of materials as required for a one-room school. I am sending a copy of this letter to Mr. Indian Superintendent Law and am attaching thereto copies of the standard bill of materials for this school. It would be appreciated if Mr. Law could submit a requisition attached to one copy of this bill of materials. On this requisition he can indicate the names of local suppliers for the lumber required. It is presumed that it would b e cheaper to buy the lumber in The Pas than in Winnipeg. However, we will await your comments concerning this.

It is not necessary to have this bill of materials retyped on the requisition form but merely state on the requisition form as follows -

"To bill of materials as required for standard one room school with attached teacherage. The names of local suppliers are as follows - etc., ".

Bishop Lajeunesse visited this office recently and advised that Mr. A. Banville who is at present building the Valley River School had built a Church for him at Puckatawegan and that his work was entirely satisfactory. He suggested that he would be the ideal man to have erect the school at Nelson House as he is well acquainted with local conditions.

Memorandum:

CHIEF TREASURY OFFICER

In transfer of funds dated November 10th, 1948, we requested transfer of $7,500. to "Nelson House School". We should have stated that the amount mentioned was for Nelson House R.C. School for which it has been decided to secure materials at the present time and ship them by winter freight so that the school itself can be erected next summer, otherwise there would be another year's delay.

E.R. No. 2172 which is attached was issued for the Nelson House R.C. School and it should have read "Nelson House R.C. School, No.528".

I would appreciate it if you would change your records accordingly and return the requisition.

Reference your 206-4B of November 10

We have today forwarded to the Departmental Purchasing Agent a requisition for all the materials required for the erection of a one-classroom Indian day school with attached teacher's quarters (Index No. 837) on the Nelson House Reserve for the Roman Catholic children living there. It is presumed that you will have an opportunity in the near future of visiting this reserve and I would suggest that careful consideration be given to the exact site of the building. Every effort must be made to see that the "wall of windows" in the classroom faces towards the south so that maximum light will be provided for the school children.

I would suggest that Mr. Lamb be advised of our intention to ship in these materials by his tractor trains during the coming winter.

Superintendent of Education.

Colonel Neary:

New R.C. School-site at Nelson House:

The missionary weakened his case a little by seeming to imply that children from Dog Point homes don't attend so well as those from homes numbered 8 to 19 inclusive. Seven homes would not likely have as many children as twelve homes He might well have indicated the numbers of children.

Guy Residential school draws 13 pupils from the Nelson House Band.

It appears, however, to be less than a mile's walk from House # 1 around the bay to the new site.

Caution would be necessary to point the windows properly and to avoid shadow and fire risk from adjacent buildings.

Re: Nelson House R.C. Day School

You will recall our recent discussion with regard to the location of the new school to be erected at Nelson House. Please find attached a map prepared presumably by the local missionary, and sent here by Father Plourd.

Major Clark states that the missionary has weakened his case a little by implying that children from Dog Point homes do not attend as well as those from homes numbered 8 to 19 inclusive. Seven homes would not likely have as many children as 12 homes. Unfortunately, he has not indicated the number of children in these homes. The Guy Residential School draws 13 pupils from the Nelson House band.

We would appreciate your advising us on the siting of this school.

With reference to your letter of January 31, 1949, file No. 528-5 (E) regarding the location of the Nelson House R.C. School. I am enclosing copy of a letter from Mr. Law, which is self-explanatory.

Mr. Law has recently visited Nelson House and he suggests putting the school where the old teacherage now stands - which is on the Church property. I am still of the opinion that the school should be put on the reserve at Dog Point. However, as the lumber is on hand at the old teacherage site it would probably be as well to go ahead with the building of the school there.

This property I understand is owned by the Church and they probably will be transferring an acre or two of land to the Department. The transfer should take place before the building commences. In this connection I believe it will be necessary for a Surveyor to survey this land.

Please advise by wire if it is satisfactory to build the school near the Church in order that the gravel may be sent in at once.

You will note by the sketch, which I am returning herewith, that we will have to secure some land for a playground between the school and the Rectory. I have marked same with red pencil. The land marked out for the school site would not be large enough

Dear Mr. Davis:

Acknowledging your letter of February 4, 1949, your file 205-4A, in connection with the location of the Nelson House R.C. day school.

I have just returned from Nelson House, and a lot of the materials for this school have been checked and stored in Mission buildings to protect it from the weather. There is a considerable amount of materials to go in yet. Mr. Lauze will forward bills of lading as soon as everything has arrived.

After careful consideration, I would suggest that the new school be located near the old teacherage, where the materials are now stored. At the time that these new materials will be needed it would be next to impossible to secure any means of having them hauled to the location on Dog Point, and the cost would run into hundreds of dollars, , as it is only a rough trail. There is no storage space at Dog Point, so they could not be moved in the winter. There are only two teams at Nelson House, one owned by Indians and one by Mr. Hutty. Mr. Hutty requires his full time for his own use, and I doubt if the other team could pull half a load over to Dog Point. I hope you will see my point in considering the high cost of having the materials transferred to the Dog Point location, which is my only reason for preferring the location near the old teacherage.

Please notify me as soon as possible, as I have to have the gravel hauled immediately.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

Re: Nelson House R.C. Day School

Today we received an army signal from Regional Supervisor Davis stating that the windows and frames for the above school could not be shipped by winter freight, as they did not reach Wabowden in time.

On reviewing our file we find that we forwarded you on 2nd November, 1948, a requisition for materials required to erect the school. The bill of materials for a standard combined one classroom Indian day school with teacher's quarters, Index No. 837, was forwarded with our requisition. On Page 2 of the standard bill of materials, you will note the following:

7	pre. 2'1" x 2'9"	
7	" 1'2" x 2'9"	
4	" 2'1" x 2'5"	sash 1-3/8" thick
8	" 2'5" x 2'5"	
10	" 3'0" x 3'0"	sash 1-3/4" thick

2 only Vents for outside toilets, galvanized iron 6 dia. with cone protected top, total height 2'0" to be set on centre of ridge on roof of 1/3 pitch.

You issued Purchase Orders Nos. 36960 and 36961 to the Monarch Lumber Company, but on reviewing these Purchase Orders we cannot find that the windows were ordered.

We received your army signal of March 24th with reference to the windows and frames for the Nelson House R.C. School. Enclosed for your information is a copy of our letter of January 3rd addressed to Mr. E. Law, The Pas, Manitoba, and also a copy of the Departmental Purchasing Agent's memorandum of December 28th which was sent to Mr. Law with our letter of January 3rd.

You will note that authority was given for the purchase of the hardware and millwork not included on the purchase orders issued by the Departmental Purchasing Agent. It is evident from your signal that Mr. Law did not make any arrangements to secure the windows and frames. They should, of course, be ordered at once and the best possible arrangements made for their delivery.

Re: Purchase Order No. 36957

We note from your memorandum of the 11th instant that there has been an increase in the price of the 163 barrels of cement purchased from Canada Cement Company, Montreal, for the new R. C. Indian Day School, The Pas Agency.

While the price shown on the above order was that quoted by the company, an escalator clause stated that an increase in price was expected at the beginning of 1949.

In view of the above, it will be in order for you to submit the invoice at the increased price of $4.64 per barrel, or a total of $756.32.

Re: Purchase Order 36957

The above was issued in the amount of $715.57 f.o.b. Wabowden, Manitoba, covering the cost of cement for the Nelson House R.C. School.

We have now received the attached account and while Superintendent Law requests payment of $756.32, it is considered that the correct payment to the company would be $740.02. However, neither of the above amounts requested on the Voucher coincide with the amount mentioned on the Purchase Order.

We would appreciate it if you would review this Voucher and advise what action should be taken. We would like to pay it from the 1948-49 appropriation.

We have your letter of the 23rd instant with reference to the construction of the Nelson House R.C. School. It has become increasingly difficult to obtain the Minister's approval for a heavy expenditure in connection with the construction of our new day schools, unless we advertise.

It is noted from your letter that you have a quotation of $6,420.00 from Mr. McKenzie. You should obtain a written tender from him, outlining completely what work he is prepared to do for that amount, and forward to this office. In addition you should make every possible endeavour to obtain other tenders. If one or more can be obtained, they should also be forwarded to us. If not, we should have a definite statement from you that no other party is prepared to submit a tender.

Attention: Colonel H. W. Neary.

With further reference to my letter under file No. 205-4A, dated February 15th, regarding construction of the R. C. School at Nelson House, I have been in contact with Mr. McKenzie who built the school, of the same type, at the Peguis Reserve last year. Mr. McKenzie has given me his contract price of building this school as $6420.00. I do not consider this price too high as the price of wages has increased and the cost of living would be much higher at Nelson House than outside.

Would you please advise me as soon as possible in order that I may let Mr. McKenzie know, and he can make preparations to go in at an early date.

I am stating that we have a house to build in the Nelson House Reserve, The Pas Agency, which has not a basement. He could go there and start on this house, and by the time it is completed the frost will be out and he will be able to continue right along with the school.

Attn. Mr. B. F. Neary, Superintendent of Education

In accordance with the instructions contained in your letter File No. 527-5 (E.1) I enclose, herewith, a written tender from Mr. McKenzie in amount of $6,420.00.

I have made every effort to obtain a second tender on this work and have had specifications and plans out at The Pas for this purpose but so far have been absolutely unable to secure a second tender.

In the event that Mr. McKenzie's tender is acceptable to the Department he is prepared to leave for Nelson House immediately in order that he may be there prior to break-up and ready to start our work at the earliest possible date.

Dear Sir:

Herewith tender for the construction of a one room Indian Day School with Teacher's Residence in accordance with your plans and specifications, No. 888 for the Nelson House Indian Reserve, in the Pas Agency in Manitoba.

This school is the same type which I built for the Department at Peguis, No. 1, during the year 1948.

I will undertake all labour including painting, putting in a basement and septic tank, for the sum of $6,420.00.

The above price will cover all labour in connection with the building of this school. The above figure does not include transportation of myself and three men to and from the school site.

Mr. E. Law,
Superintendent, Indian Agency,
The Pas, Manitoba.

We are in receipt of a requisition dated March 9th for supplies for the Nelson House R.C. Day School. Incidentally, it is noted that the teacher refers to this school as "St. Patrick's R.C. School". You should point out to him that the official name of this school is "Nelson House R.C. School", and in all future correspondence it should be referred to by that name.

The Department approves purchase of the following articles:

3 brooms
1 large potato pot
1 large water pitcher
1 ice chisel
15 gal. coaloil
1 funnel
36 cups (do not purchase Pyrex, as they are too expensive).
2 cases Kleenex
1 case toilet paper
1 boiler
1 wringer
2 water pails
24 saphine discs
1 garbage can

The undersigned has the honour to report:

THAT it is immediately necessary, and funds are provided in the 1949-50 estimates, Indian Affairs Branch, Mines and Resources, to complete the erection of a one-room Indian Day School on the Nelson House Indian Reserve, The Pas Indian Agency, in the Province of Manitoba;

THAT it is essential that educational facilities be provided for the Indian children on the Nelson House Reserve;

THAT Section 36 of the Public Works Act, Chapter 164, R.S.C. 1927, provides in part as follows:

"Whenever any works are to be executed under the direction of any Department of the Government the Minister having charge of such Department shall invite tenders by public advertisement for the execution of such works except in cases (a) of pressing emergency in which delay would be injurious to the public interest ....."

THAT, due to the very isolated situation of this reserve, there are no builders or contractors in the area nor are outside contractors interested in tenders if invited as aforesaid, as they have all the work they can do in their own localities;

THAT the building materials for this school have already been purchased and have been shipped in by tractor train to the site;

THAT a competent building contractor, namely the Matthews Construction Company, of The Pas, Manitoba, has a building crew in the neighbourhood, and has agreed to undertake the erection of this one-room school immediately at the price of six thousand two hundred and fifty dollars ($6,250.00). This tender covers all transportation and boarding costs and is felt to be fair and reasonable.

The undersigned, therefore, recommends that authority be granted for the erection of this building as outlined above, this being the most suitable arrangement possible at the present time and it being essential that this work be undertaken at once and carried on to completion in order to provide educational facilities for the Indian children of the Nelson House Reserve.

Respectfully submitted,

[redacted]

Minister of Mines and Resources.

Memorandum:

[redacted]

Nelson House R.C. Indian Day School.

During the winter a complete bill of materials was shipped by tractor train to Nelson House for the erection of this school. Included in our Main 1949-50 Estimates is the sum of $7,000.00 as a re-vote for the completion of this school.

Mr. Regional Supervisor Davis has endeavoured to obtain labour tenders for the erection of this school and has only succeeded in obtaining the one firm tender. In a telegram received here, he states as follows:

"RE YOUR RADIO DATED APRIL 27/49 MATTHEWS TENDER COVERS ALL TRANSPORTATION AND EXPENSES -stop- RECOMMEND WE ACCEPT MATTHEWS TENDER FOR NELSON HOUSE R.C. SCHOOL -stop- NO OTHER TENDERS FOR NELSON HOUSE AVAILABLE".

Please find attached Mr. Matthews' tender for the construction of this school for the lump sum price of $6,250.00. You will note his crew is already in the neighbourhood and is prepared to start work almost immediately.

PRIVY COUNCIL

CANADA

Certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the May 17th, 1949.

The Committee of the Privy Council have had before them a report dated 9th May, 1949, from the Minister of Mines and Resources, representing:

That it is immediately necessary, and funds are provided in the 1949-50 estimates, Indian Affairs Branch, Mines and Resources, to complete the erection of a one-room Indian Day School on the Nelson House Indian Reserve, The Pas Indian Agency, in the Province of Manitoba;

That it is essential that educational facilities be provided for the Indian children on the Nelson House Reserve;

That section 36 of the Public Works Act, Revised Statutes of Canada, 1927, chapter 166, provides in part as follows:

"Whenever any works are to be executed under the direction of any Department of the Government the Minister having charge of such Department shall invite tenders by public advertisement for the execution of such works except in cases (a) of pressing emergency in which delay would be injurious to the public interest .....";

That, due to the very isolated situation of this reserve, there are no builders or contractors in the area nor are outside contractors interested in tenders if invited as aforesaid, as they have all the work they can do in their own localities;

That the building materials for this school have already been purchased and have been shipped in by tractor train to the site;

That a competent building contractor, namely the Matthews Construction Company, of The Pas, Manitoba, has a building crew in the neighbourhood, and has agreed to undertake the erection of this one-room school immediately at the price of six thousand two hundred and fifty dollars ($6,250.00), which tender covers all transportation and boarding costs, and is considered to be fair and reasonable.

The Committee, therefore, on the recommendation of the Minister of Mines and Resources, advise that authority be granted for the erection of the said building as outlined above, this being the most suitable arrangement possible at the present time, and it being essential that this work be undertaken at once and carried on to completion in order to provide educational facilities for the Indian children of the Nelson House Reserve.

(2) Where there are special circumstances which in the judgment of the Minister of Labour make it expedient that he should do so, he may decide what are the current or fair and reasonable rates of wages for overtime, and what is the proper classification of any work for the purposes of wages and hours. Immediately upon receipt of notice of any decision of the Minister of Labour hereunder the Contractor shall adjust the wages and hours and classification of work so as to give effect to such decision. In case the Contractor shall fail so to do, or fail at any time to pay to any employee or employees for any services performed or for any hours of labour wages according to the rates set forth in the schedule or fixed therefor by the Minister of Labour hereunder regarding overtime and classification, the Minister of Labour may authorize and direct the Minister to pay any such wages at the rates so fixed and to deduct the amount thereof from any moneys owing by the Government to the Contractor and any such payment shall for all purposes as between the Contractor and the Government be deemed and taken to be payment to the Contractor, and the Contractor shall be bound in every particular by any such authority, direction and payment as aforesaid. Minister of Labour to determine disputes.

(3) For the protection of the workmen employed, the Contractor shall post and keep posted in a conspicuous place on the premises where the contract is being executed, occupied or frequented by the workmen, the Schedule inserted in this contract, also the preceding paragraph (2) and any decision of the Minister of Labour made thereunder. Schedule to be posted.

(4) The Contractor shall keep proper books and records showing the names, trades, and addresses of all workmen in his employ and the wages paid to and time worked by such workmen, and the books or documents containing such record shall be open for inspection by the Fair Wages Officers of the Government at any time it may be expedient to the Minister of Labour to have the same inspected. Books, etc., of contractor open for inspection.

(5) The Contractor shall not be entitled to payment of any money which would otherwise be payable under the terms of the contract in respect of work and labour performed in the execution of the contract unless and until he shall have filed with the Minister in support of his claim for payment a statement attested by statutory declaration, showing: (1) the rates of wages and hours of labour of the various classes of workmen employed in the execution of the contract; (2) whether any wages in respect of the said work and labour remain in arrears; and (3) that all the labour conditions of the contract have been duly complied with; nor in the event of notice from the Minister of Labour of claims for wages, until the same are adjusted. The Contractor shall also from time to time furnish the Minister such further detailed information and evidence as the Minister may deem necessary in order to satisfy him that the conditions herein contained to secure the payment of fair wages have been complied with, and that the workmen so employed as aforesaid upon the portion of the work in respect of which payment is demanded have been paid in full. Payment by contractor for labour etc.

(6) In the event of default being made in payment of any money owing in respect of wages of any workmen employed on the said work and if a claim therefor is filed in the office of the Minister and proof thereof satisfactory to the Minister is furnished, the said Minister may pay such claim out of the moneys at any time payable by His Majesty under said contract and the amounts so paid shall be deemed payments to the Contractor. Power to pay wages in default of payment by contractor.

(7) These conditions shall extend and apply to moneys payable for the use or hire of horses or teams, and the persons entitled to payments for the use or hire of horses or teams shall have the like rights in respect of moneys so owing them as if such moneys were payable to them in respect of wages

(8) With a view to the avoidance of any abuses which might arise from the subletting of contracts it shall be understood that subletting, other than such as may be customary in the trades concerned, is prohibited unless the approval of the Minister is obtained; subcontractors shall be bound in all cases to conform to the conditions of the main contract, and the main contractor shall be held responsible for strict adherence to all contract conditions on the part of subcontractor; the contract shall not, nor shall any portion thereof be transferred without the written permission of the Minister; no portion of the work to be performed shall be done at the homes of the workmen. Subletting, etc.

(9) All workmen employed upon the work comprehended in and to be executed pursuant to the said contract shall be residents of Canada, unless the Minister is of opinion that Canadian labour is not available or that other special circumstances exist which render it contrary to the public interest to enforce this provision. Workmen to be residents of Canada.

I have just returned from Nelson House where the R.C. School is being built. The school is well underway and they are making a very good job of it. The basement has just been completed. It was noted that water could be secured in the basement without going very deep.

I instructed Mr. Arnfinson, Assistant, Indian Agency, Nelson House to have a well dug and cribbed with material we have on hand at a cost of not more than $100.00. I hope my action meets with your approval. I would request that you forward a $100.00 advance to Mr. E. Law, Superintendent, The Pas, in order that he may pay the men while working on the well.

While the school is fairly near the lake it is on a high hill and it will be necessary for someone to haul water. Therefore, a well will certainly be a great asset to the school.

Nelson House R.C. Indian Day School.

Reference your 205-11 A.G. of July 12.

We are pleased to note the progress which is being made with the erection of this school. We concur in your action concerning the digging of a well in the basement and presume that you will order a small pump to be sent to Mr. Lee.

An accountable advance will be sent to him also, to cover the payment of the well diggers.

Bernard F. Neary,
Superintendent of Education.

Re: Nelson House R.C. School

On my recent Northern trip, I visited the above mentioned school which is under construction, and found that, by some error, no material was ordered for the flooring of the teacher's residence. (Owing to the high freight rates, I have shipped in plyboard and battleship linoleum, in order that the school can be completed.)

The windows for the toilets and a number of minor things were also missing, and I have had these all shipped in so as not to hold up the contract. I trust my action meets with your approval.

OTTAWA, October 22nd 1949

Mr. B.F. Neary,
Superintendent of
Indian Education,
Indian Affairs Branch,
Ottawa, Ont.

Dear Mr. Neary:

His Excellency Bishop M. Lajeunesse informes me that there are two vacant buildings close to the new Nelson House Indian Day School: 1) the teacherage, 2) the old School.

The sub-agent has mentioned using the old School as a Dance Hall. For reasons which you will appreciate, His Excellency is not favourable to this project. Both these buildings are on the Mission property.

However, to simplify matters, he is willing to purchase the old School, provided the price is raisonable. Would you please let me know, at your convenience, what would be the decision of the Department in this matter.

Thanking you in anticipation, I remain,

Yours very truly,

J.O. Plourde, O.M.I.

of Indian Education

With reference to your letter of October 28, 1949, file No. 528-5 (E) regarding the old school and teacherage (R.C.) at Nelson House. The school and teacherage are of very little value being old log buildings. It was my intention to have these buildings pulled down and the material given to the Indians to build homes. I still feel this would be the solution to disposing of these buildings.

I am certainly not in favour of the buildings being used for dances etcetera as social events could be held in the school. If the Church authorities need these buildings for any special purpose, and as they will be used by them for the benefit of the Indians, I feel it would be in the interest of all to hand them over to them at a cost of not more than $50.00.

Dear Father Plourde:

Nelson House Indian Day School

I have now received a report from Mr. Regional Supervisor Davis indicating that it is his intention to have these buildings demolished and the material given to Indians for the purpose of building homes.

I presume from your letter that the Bishop would be in favour of this plan. Naturally, Mr. Davis agrees that these buildings should not be used for a dance hall or other entertainment centre.

I would appreciate hearing from you as to whether it would be the Bishop's wish to purchase these buildings or whether he is prepared to have them used for the purpose indicated by Mr. Davis.

Yours sincerely,

Bernard A. Neary,

My Dear Lord Bishop

As requested, I visited the Sioux Mission on the second of October and on the following day had an interview with some of the principal Indians

I thought it well to visit the tents and houses on the Reserves and glean as much as possible regarding the small attendance at the day school

Copy

The difficulty was Considerably lessened by the fact that I was able to speak directly to the Indians by the aid of one here and there among them who understood Ojibway, while admitting the fact that the school was badly attended no Indian hinted that the teacher was in fault. There were, however, numbers of reasons of reasons given why the children not attend. Some said the school was a long way off, some of the children had but scanty clothing, others were needed at certain times to help their parents, and it was hard for smaller ones to come to

to school alone. Some alleged they had tried to induce their children to come to school and had not succeeded

The Chief was of the opinion that the parents needed urging and he proposed going around among them with him tomorrow with this object. I imagine this action on the part of the Chief will have the desired effect, as numbers of people have promised to send their children more regularly

As the school is a very important part of the work of this mission I regret very much it is not more successful. With the other part of Mr Hartland's work, I am very well pleased: the attendance of the Indians on Sundays, the neat and tidy way in which improvements have been made in the Mission premises, in the past year, and last but by no means least, the progress made in the language all convince one that Mr Hartland has qualities that fit him for the position he had do

And now, May God bless

Dear Mr Reed.

A report dated September 18th. was sent me from the Assistant Commissioners Complaining of the unsatisfactory Condition of the school at the Sioux Reserve, Oak River school, under Mr Hartland, I had heard something to the same effect at Birtle from the Agent there

Copy

This report has been a matter of regret and surprise to us, as we have had every reason to suppose that we had in Mr Hartland, a young man of devotion and energy, much above the average

We sent Archdeacon Ohair to visit the Mission. Mr Burman was unable to go with him.

His general report of the missionary work of Mr Hartland was, as we had supposed and anticipated. It is very favorable and all we hear points to the same conclusion

But the school is unsatisfactory. Archdeacon Ohair made a separate Report to me bearing on the school, which I enclose.

We regret very much that the school attendance is unsatisfactory, but we are of opinion that Mr Hartland is not in fault. No difficulty of any regular attendance had been always very great at that Reserve.

Mr Hartland seems to us to be carrying on the general work, for the Indians, so effectively and encouragingly that we regret very much that there is this difficulty about the school

I am

" John Moore says That the school is never open for more than a couple of hours a day. That if not at least four attend, they are sent home. That Chief Sioux has kept an account of the attendance for the year.
(* John Moore is an Indian of the Band)

Note. The first statement bears evidence of truth. The teacher admits that he only teaches half a day, and says that the pupils are exceedingly unpunctual. The Inspector states that if only a few pupils attend they are sent home again. I requested the Inspector to see Chief Sioux, as this information reached me as I was leaving by train, and to send me his statement of attendance. I append a copy of the same.

Extract from Letter of J. S. Sinnett, dated Oak River Dec. 22nd/91, addressed to this Department

"As you requested me to take Chief Sioux's statement about the school I have done so. He cannot give me the dates, but he knows the months and how many days the school has been opened in each month. He says there was school for 10 days last April 15 in May, and 6 in June, and that the school was not opened again after 7th of October. Since then the school has been open a good part of the time. He says that he has spoken to the teacher, and the teacher told him he would not teach if there were less than 6 children . . . . . "

School Inspector's Report on the Protestant Indian School situated on Oak River Sioux Reserve Birtle Agency

28296

School Inspected on December 21st/91 Inspector accompanied by G. Lindsay.

Number of pupils present 7 Boys 6 Girls 1 Number of children of school age on the Reserve 22 Boys — Girls —
Number of children claimed by teacher to be of his own Faith. Number of children that should attend this school 22.
Number of children enrolled 16, being 70 of those that should attend. Average Attendance for 9 months 5.6.
being 35 % of those enrolled. Reasons given for unsatisfactory attendance, remedies, suggested, &c.

The Church authorities are being written to regarding the matter of allowing the Agent to be authorized to expend $15 or $20 in putting the building into proper condition.

For Supt

The average stated above, low as it is, seems to be higher than that really attained. The bad habit has been to open the school for the morning only, and to mark two attendances when in reality there was only one. This he admitted. I think it is that the location of the school is bad that it would be well to move it, as the Agent suggests to the centre of Section 23. The roads seem to be so irregularly conducted, and the teacher so unfortunately unpopular that there is little wonder that the attendance is bad.

It is my opinion that a change should be made at the earliest opportunity. Since before leaving Griswold received some Indian statements (memo. attached) which led to a request for further information. I append a letter from the Secretary which contains information that conflicts with the returns.

No details on the returned blank. Should be filled to take the returns each year and kept with building.

Sir:

I beg to acknowledge the receipt of your letter of the 12th inst. relative to the suggestion in Mr. Inspector Jarvis's Report on the Oak River Sioux School, that the building be replaced by a new structure centrally located, and to say in reply that I have felt, for some time past, that this is an unfortunate site, as the school is not well situated, and also there seems little possibility of having it at a point where pupils can attend from as suitable site on which buildings were not for some, for a new building, should never be left in abeyance. Since the present building, a log one, 14 by 16 feet, ~~however~~ is found to be all and the logs themselves not of the best description, it would, in my opinion, be more profitable to build a new house, than to attempt the removal of the old one.

The latter course would not be inexpensive, as there is no available spot for the purpose, when I propose sending

requested from The $750 allowed for the Quarter.
I have also known you that my school is now being fully conducted with an average attendance of 40 to 50 pupils.
The pecholics too, are making good progress as will be seen from the full papers I am sending to Mr. Agent Markle, as a sample of our work.
I hope to see your way clear to allow me the full Grant for said Quarter as I need the money badly having had heavy losses by death & sickness.
There will not be any further cause for complaint with my part & as I am determined to do my best & keep everything according to the wishes of the Department

Hon. T. Mayne Daly
Minister of the Interior,

Dear Sir,

I regret very much to have to call your attention to the unsatisfactory state of affairs in connection with one of the Indian Schools under my supervision. I refer to the Indian School among the Sioux Indians at Oak River near Griswold.

For some years, there has

has been an unpleasant correspondence between the teacher Mr. H. Hartland, in charge of the school, the Indian Agent Mr. Markle, and once in a while, the authorities at Regina.

The Archbishop of Rupert's Land has had numbers of letters written from these parties as well

The whole matter has been laid before me from time to time, and I have felt so keenly that there was so much of personal feeling mixed up in the matter, on all sides, that I had hoped a little advice, and a little patience would have brought about a more desirable state of things

Mr Hartland has been instructed

instructed to conform to the rules of the Department as closely as possible, and as far as he is able, to give satisfaction to the officials over him, but it seems quite clear that there is a desire to magnify trifles, and to make it hard to have all parties work together with the harmony and co-operation desirable.

Thirty years' experience among Indians has taught me that there is much to bear with even in trying to elevate them, and success need not be looked for if agent

Agent and teacher do not co-operate, and sink all petty feelings in the grand object of lifting these poor creatures on to the level of white men.

I shall go up and visit the Mission, have a talk with Mr Hartland, and once more urge upon him the importance of doing his utmost, not only to elevate the Indian, but to give satisfaction to the Department, but I should like a word or two of advise given to Mr Agent Markle to co-operate with Mr Hartland, and instead of throwing the entire blame of the non-attendance of children

children upon the teacher to make an effort to induce the parents to send their children with more regularity

I fear the times he has done this are but few.

I never have to write the Department about any of the many schools in connection with our church. We generally get on without, but there is more trouble with the little school in Griswold than with all the others put together, and therefore I feel a word from head-quarters is called for.

In the other reservations the

the Agents co-operate with the teachers to get a large attendance. I think this would succeed at Griswold.

Trusting this matter will have your early attention,

dear Sir.

Dear Sir,

The Venerable Archdeacon has written to the Department about the difficulties which have occurred at the Metlakahtla school at the present moment. As soon as circumstances will permit, we hope that the matter will be settled in a manner satisfactory to all the parties concerned, but we will be glad in the very near future to receive a report from you as to the present condition of affairs and whether you consider it desirable that the children should regularly attend school, and if so, what you will be prepared to do in the matter in the event of their refusing to do so. In any event, we would like to receive from you a report as to the present condition of affairs at the Metlakahtla school, and the reasons why the children do not attend regularly.

Yours truly,

Deputy Superintendent General.

Sir,

I have the honour to inform you that the school building on the Oak River Sioux reserve, No. 58, stands in an exposed position; and both Farmer Scott and Teacher Hartland declare that when there is a high wind blowing on the ends of building, the ends vibrate. You are aware that there is no upper floor in this building, if there was, it would steady the ends; and to guard against a mishap to building, I will be glad if you authorize me to get an iron bolt, ⅞" or 1", and have same placed through the building, from one end to the other, and tightened up with nuts at ends that project through the walk; also if considered necessary, after that is done, a 4"×4" scantling placed on top of this rod, and fastened to the inside ends of building; or if you suggest a better way of overcoming this difficulty, I will carry it into effect.

Obediently &c.

Sir,

I have the honour to enclose herewith Return for the quarter ending 31st December 1913 of the Oak River Sioux school forwarded by the Department on February 11th accompanied by a voucher for the grant of $12.12 for the 84 days school was open during the quarter.

The Return shows that a portion of the grant for the December quarter was withheld viz., $12.12, being 10 days fines at $1.20 per day on November 21st, when school was closed and time not claimed as holidays. The teacher has since requested that the 10 days may be reckoned as part of the 20 weeks holidays available for fiscal year 1913-14. I therefore wish to draw a cheque in payment and direct in his favour for the further grant of $12.12.

During my late visit to the Oak River Reserve I did not inspect the Day School as the teacher was ill — having furnished a doctor's certificate to that effect —

I observed that there was no privy at the school, and as there are some 22 children on the roll, boys and girls, it is necessary that one should be provided.

The Person could build this himself on a suitable one, if he were allowed, say $15.00 or $18.00 to buy material (lumber shingles & nails),

Dear Sir:-

I beg to inform you that I shall probably be leaving the Mission at a very early date, atbthe end of September if possible. This step is being taken in the interests of the School as a change of Teacher might prove benefic ial in every respect. At present I have not any other position in view, and as I have my Mother to support, and winter will very soon be upon us, I beg to ask your favor with regard to the variou sums which have been deducted from my salary, on account of illness and other causes.

I shall leave here in very poor circumstances and shall have a hard matter to live until I get employment.

I shall be glad if under these circumstances, you will use your influence in the matter stated above as the money, if only a small sum will be of very great service to me at this time. I beg to ask also if you will kind- ly ask for an early remittance of the salary which will be due me on my retirement from the work here as I shall need the money to go away with. Hoping to receive youb favor,

Dear Sir:-

In reply to yours of 23rd would say that I have arranged to stay on here until end of December, or in case a successor is not appointed to take my place, shall remain until this matter is satisfactorily arranged. I saw Mr. Mackie and explained the matter to him. By remaining till end of December, I am completing three month's notice which I am entitled to, and which is required by the Church authorities according to agreement. From what I understood I expected that had I left here at end of present quarter my salary would have been paid till end of December; my supposition was incorrect, and consequently I shall not be moving till I receive further notice. To do so now would cause me great loss and inconvenience, which I cannot afford.

Trusting this explanation will be satisfactory,

Sir,

I have to acknowledge the receipt of copies of correspondence had with Mr Hartland teacher of the Oak River Sioux School in reference to certain deductions which were made from his salary during the past year, and asking that the balance of the year's grant may be paid him. In reply I beg to say that no recommendation has been received from you for the payment of this balance, and in fact no comments are made. These deductions were apparently made for unauthorized absences, and if Mr Hartland had performed his duties faithfully, he would have received the full grant. From the Reports and correspondence on file the Department does not consider that it would be justified in acceding to Mr Hartland's request.

The pupils so far have made but little progress, Mr. Harris appears to be doing his best but complains that it is impossible to make much headway. He thinks that the children should be forced to attend, I do not agree with him in this. My opinion is that the school should be closed, it cannot be made a success, as matters have been for the past year it is money thrown away. It is conveniently situated to two Industrial Schools where the children would be better trained than it is possible in a reserve day school. The exterior of the school building requires

Mr. Inspector Marlatt in his report on the Sioux band of the Birtle agency calls attention to the very irregular attendance at the Oak River day school, and gives it as his opinion that the school should be closed, as it cannot be made a success.

This school was, as a remark, re-opened at the urgent request of the Archbishop of Imperia Land, but until as there is a prospect of securing a more re- attendance, the Department does not see its way clear to continue it after June 30, next.

Sir,

Referring to your letter of the 19th. instant re the Oak River Day School, I may say the Teacher resigned, to take effect on the 31st. December last. Since then the school has been closed. On the 9th. ultimo I wrote His Grace the Archbishop of Rupert's Land, enquiring whether he would select another Teacher for the position. He replied on the 16th. of the same month that he was anxious to keep the school open, if possible, but that the parsonage on the reserve, the only place where the Teacher could board, was so cold that it had to be abandoned for the winter. They intend to build a new mission house early in the spring, and when it is completed they would be glad to have a Teacher again appointed. I recommend that another opportunity be given His Grace to secure an attendance of pupils for the school.

School

There is an easy remedy for this by transferring the present day-school building situated about one hundred feet from the agency house,into an office. It is adapted for an office in every way and I very much doubt the possibility of its ever being required again for a school. In any event we have Industrial and Boarding schools adjacent both east, west,and north,that will take care of all the children the parents can be induced to have educated.
An office is necessary here, as during my visit the Indians were coming to interview the Agent from 9 A.M. until 9.P.M. and it was difficult to get any work done in the office. This will be better understood and realized when it is remembered there are about fifty-five farming Indians here who constantly require advice, disputes settled, and the hundred and one things the Indian thinks the Agent should help him in. *********

The day-school was closed for want of pupils at the time of my visit and no pupils had attended since the 4th.September last. According to the register there are 33 children of school age in the vicinity of the school i.e. on the reserve ,and the average attendance during the last three quarters has been as follows viz:-

March quarter	5/619	Boys 3.	Girls 7.	Register	
June	"	5/285	" 4	" 9	"
Sept.	"	1/003	" 1	" 6	"

he could to induce the children to come, but without effect and he considered it useless to continue the school any longer, but was most enthusiastic in his arguments favoring the establishment of a boarding school there. However I did not encourage this as I am of the opinion the Industrial Schools at Brandon & Elkhorn and Boarding Schools at Birtle and Portage la Prairie can well take care of the educational problem on these reserves.

Notes. It would be well to convert the school building into and office.

Most Reverend Sir,

As Your Grace is aware the day school on the Oak River reserve was closed in the fall of 1907 on account of lack of attendance.

This is a point where it should be possible to maintain a good day school and the Department is of opinion that one of the features which militated against its successful operation in the past was the combining of the duties of teacher with those of the missionary. There are 121 children of school age on this reserve, many of whom are within a reasonable distance of the school, and it is thought that there should be a good field for an energetic teacher who could devote his or her whole time to the school work. The Department in making this suggestion is reflecting in no way upon the work of the Missionary, whose duties in administering to the spiritual needs of these Indians must be sufficiently onerous without having added to them those of teacher.

If Your Grace could secure for this reserve a capable female teacher with proper qualifications, whose heart would be in the work, the Department would be prepared to pay a liberal salary. It is presumed that a single teacher could board with the resident missionary as a former teacher did.

The Department realises the great difficulty

experienced by your Church in obtaining the services of devoted teachers; but, nevertheless, many have been found for the Indian school service, and of late it has been the policy of the Department to recognize the work of such in a substantial manner.

My dear Sir,

Yours of Jan.20th, No.11693C/I is to hand. It has been a great regret to me also that the School at Oak River had to be closed. When I was up there a short time ago I had an interview with some of the leading Indians and asked them to suggest any possible way by which the School could be reopened. They urged what almost every Reserve does, viz, that the only solution was the establishment of a boarding school in their midst. I told them that I did not think that at all practicable, at all events while the School at Ekhorn was in existence. I then broached the question of an "improved Day school". They appeared to take to that but they admitted that no school would succeed unless there was compulsory education. I asked how compulsory education coul be carried out and their reply was "by appointing constables on the Reserve of leading Indians".

As to the securing of a competent lady teacher I shall be only too glad to coperate with the Department in looking out one if you will kindly let me know what the salary will be. I cannot do anything without first knowing that. How would it do to experiment at Oak River with one of the proposed "improved Day Schools?"

Yours most truly

Most Reverend Sir,

I have the honour to acknowledge the receipt of Your Grace's communication of the 6th instant in further reference to the reopening of the school on the Oak River reserve.

In regard to the means to obtain regular attendance I beg to say that the Department will be prepared to enforce the compulsory clauses of the Regulations relating to the Education of Indian children and to appoint one or more Truant officers as provided for in the Regulations.

The Department would like to obtain for this reserve a teacher and nurse such as was appointed on the John Smith's reserve in the person of Miss Hawley. Miss Hawley is a graduate nurse and holds a teacher's certificate and the work she has accomplished on the reserve and in the school-room since her appointment in September, last, has exceeded the expectations of the Department. For a person with similar qualifications the Department would pay a salary of $50.00 a month. If it is not possible for Your Grace to secure a nurse and teacher, the Department will pay a salary of $500.00 to a competent teacher who

holds a professional certificate.

The Department, in view of past experience with the Indians of this reserve, is not prepared at the outset to incur the large expenditure necessary to establish a day school of the improved type at Oak River. Should they show a disposition to avail themselves of the facilities it is now proposed to offer them to obtain an education for their children the Department would take into consideration the question of increasing the accommodation, etc., if necessary .

of Inspector S.J.Jackson, Stonewall, Man.

General Remarks.

The state of affairs among the Indians in the inspectorate is good from the standpoint of having enough to eat and drink and good clothes to wear, but I should like to see more interest taken by the Indians in the education of their children. The Department of Indian Affairs is spending a very large sum of money every year on the day school, and little or no benefit is to be seen. The teachers, as a rule, are not capable of imparting what knowledge they possess, and some system of training should be devised to prevent this waste of the public funds.

for Mar. 31, 1912, of Inspector
Jackson, Portage la Prairie.

Inspector's visit at present Crooked & Oak Lake Agency.

× × × × × ×

The day school on the Oak River reserve is still closed, not for want of pupils, but through the indifference of the Indians on the subject of education. Fourteen of the children are at Elkhorn Industrial School, also a few are at the Brandon Industrial School; but there are seventy-two children on the roll on the reserve between the ages of six and fifteen, also twenty-five between fifteen and twenty, leaving say fifty without education owing to negligence on the Indians' part.

On the Oak Lake reserve there are about twenty school children who do not go to school. Birtle Indian boarding school, they say, is too far away, and being Presbyterian, they are, through the influence of the lay-reader, kept from the Elkhorn School, which is less than ~~forty~~ 40 miles from the reserve. The heads of the Presbyterian Indian work informed me that they will make a special effort to get these children to the Birtle Indian boarding school as soon as their addition is finished.

Mr. Pedley,-

In reference to Mr. Aikins' letter of the 30th ultimo to the Minister in regard to the need of a school on the Oak River Reserve at Griswold (Sioux) I beg to say that there was a day school in operation on this reserve for many years prior to 1908, when it was closed on account of the very unsatisfactory attendance, the average having dwindled down to one while the Rev. Mr. Maggrah was in charge.

This school was carried on under the auspices of the Church of England and continued for some years after it should have been closed for want of attendance.

The Department was in frequent correspondence with the church authorities regarding this school before it was closed and after that the correspondence was kept up with a view to having it re-opened under a competent teacher.

In June, 1911, the Archbishop of Ruperts Land suggested the engagement of Mrs. Maggrah, wife of the missionary

missionary, as teacher for this school. She was offered an initial salary of $300.00, which she declined, saying that unless she was paid an initial salary of $500.00 per annum she would not accept the position. The Department informed Mrs. Maggrah that it was not disposed to pay her that amount, as she was not a qualified teacher.

Archbishop Matheson was then informed that, in view of the fact that the opening of this school was at best only an experiment and that as Mrs. Maggrah's qualifications were hardly satisfactory, it was considered advisable to continue the efforts to recruit children from this reserve for the Elkhorn and other industrial schools.

There are enough children on the reserve of school age to justify a day school being maintained there, if a competent teacher could be placed in charge, and the Department has signified its willingness to pay a fair salary to a qualified teacher, but past experience has shown that it is simply a waste of money to carry on the school with the class of teachers furnished by the church authorities.

Steps may be taken to re-open the day school at the Oak River reserve, near Griswold, Man., upon the Department being satisfied that a suitable teacher can be secured. If the Church of England is still desirous of having this day school conducted under its auspices, Archbishop Matheson may be asked to nominate a properly qualified teacher , to whom the salary of from $400.00 to $500.00 per annum may be paid. Favourable consideration might be given the suggestion that the school be of the improved type, and the question of providing the destitute pupils with comfortable clothing and conveyance for those living a distance from the school might be looked into and reported upon.

With further reference to your letter No.11673/1 of date the 30th.ultimo.

As mentioned in my letter No.893 of date the 14th.inst. I wrote Archbishop Matheson on the subject, and his reply follows.

"Winnipeg,15/11/12.

Dear Mr.Jackson,

I thank you for yours re the School at Oak River. I will see what I can do towards procuring a teacher, but I am not very hopeful of sucess. We advertised recently for teachers for these schools but there was only one reply and that one has withdrawn his application. I have just heard from a lady at Fisher River who may take a school but I have to give her the assurance that we can find her a comfortable place to lodge. As soon as I hear again from her I will let you know. With kind regards, yours very sincerely,

Sir,-

I have to acknowledge the receipt of your letter of the 21st instant in reference to the engagement of a teacher for the Oak River School.

In reply I beg to say that the Department trusts that His Grace the Archbishop of Rupert's Land will soon be in a position to nominate a competent teacher. It would be well if the school could be re-opened after the Christmas holidays. In view of the contemplated opening of this school you should ascertain what will be required in the way of equipment and report to the Department.

Sir,

Your letter No.116953/1 of date the 7th instant received and in reply. I was at the Oak River reserve on the 20th of February and went into the matter of the reopening of the day school at that point. A full meeting of the band on that date decided that they did not wish the Department to convey the children to school but would like a warm meal given them at the noon hour. On my return to Winnipeg I saw the Rev Canon Jeffrey, who is in charge of the Indian school work for the Anglican Church. He tells me that he is corresponding now with a competent lady teacher in England and expects shortly to have her decision in the matter of coming out to take charge of the Oak River school. The old school house will require some repairs but the old desks will do till it is finally determined whether the reopening of this school will be successful.

I think Miss Havard to be eminently suited for the post in Canada for which she is making formal application.

She is a good disciplenarian is kind but firm with children. She has been for some time teaching in our village school, and is desirous of a better post------ she deserves it.

She is a Communicant and a Sunday School Teacher and makes herself useful when ever she can in the Parish.

She is also musical and is capable of playing for the Church services.

To the Secretary of the Department of Indian Affairs,
Ottawa,

433/55

Dear Sir:-

In the absence of Archbishop Matheson I write on behalf of Miss Rowena Havard with whom we have been in correspondence hoping to be able to appoint her as teacher of the School on the Oak River Reserve at Griswold.

The Archbishop is satisfied about her character, experience and ability to teach the School. He is willing that we should offer her the appointment provided she is satisfactory to the Department.

The work, as you know, will be very elementary and I am of the opinion that she will be entirely capable of doing it to the satisfaction of the Department and of the friends of the School.

I enclose her letter of the 12th inst. making application for the School and also letters testimonial from Mrs. A. Hawcutt, Rev. T. Longley, Rev. J. Rees, Mr. J. Bowen, and James Harries.

We understand from Mr. Jackson and the Archbishop that the Government will pay $500.00 as a salary. I trust that it will be possible to accept Miss Havard for a year at least. If then the Department refuses to continue the permission to her to teach or requires her to pass the Provincial Examinations so as to obtain the standing of a Second or Third Class Certificate it will be quite in order and satisfactory to us for the Department to do so.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 26th ultimo nominating Miss Rowena Havard of Gloucestershire, England, for the position of teacher of the Oak River School.

In reply I beg to say that Miss Havard's qualifications and testimonials are quite satisfactory and the Department will be pleased to have her take up this work as soon as possible. A salary of $500.00 per annum will be paid. I should be pleased to know at an early date when Miss Havard will be able to take up the work as some repairs to the school building are necessary. The Department has already communicated with the Agent in regard to this.

Dear Sir:-

I beg to acknowledge receipt of your favor of the 2nd inst. enclosing Miss Havard's Application and Testimonials.

I am greatly pleased that Miss Havard will be satisfactory to the Department. We think that a School is greatly needed on the Oak River Reserve. I learn that there are some Forty children with-in a radius of Two miles of the Church and Parsonage of School Age, but who have no School to attend. It is most important that these young people should be receiving instruction. I have cabled Miss Havard to come at once.

I note what you say about certain repairs being necessary on the School Building. In case the School Building will not be available for a short time Miss Havard will have full permission to use the basement of our Church as a School Room until the repairs are completed. The basement is all finished up in good shape and is well adapted in every way for the purposes of the daily school.

Thanking you for prompt attention in the matter and with kind regards, I remain,

Very sincerely yours,

I have to acknowledge receipt of your letter of the 6th instant, in further reference to the appointment of Miss Maynard as teacher of the day school on the Oak River Reserve. As the building which it was proposed to occupy as a school is now in use as an Agent's Office, the Department would be very pleased to accept your offer to use the basement of the church as a school-room until such time as some other provision can be made.

The Agent is being authorized to have the seats repaired and to purchase some articles of furnishings.

To the Secretary of the Department of Indian Affairs,
O T T A W A,
O N T .

Dear Sir:-

I duly cabled Miss Havard asking her to come at once and I am now expecting her daily.

I understand from Mr. MacDonald, your Agent at Griswold, that if she should fail us after all that there is a teacher at Griswold who would take the position at once, so the School is likely to be started up at an early day.

With reference to the use of the basement of the Church for School purposes Mr. MacDonald is afraid that it will be too damp for the children in the Summer time, as these Indian children are subject to all sorts of tubercular troubles, and in case they take cold, I suppose Mr. MacDonald thinks it best to keep them above ground and I dare say he is right.

Now he is using the old School Building for an office. I think, therefore, it will be necessary in the interests of the School and having due regard to the health of the pupils that the Department should decide to at once provide an office for Mr. MacDonald so as to set the School House free for School uses..

Trusting that this matter can be arranged without delay, I remain,

Yours very sincerely,

Sir

I have the honour to inform you that on April 15th last I received a cablegram from the Rev. Canon Jeffery of Winnipeg informing me that I had been appointed Teacher on the Oak River Day School at a Salary of $500.00 per year

I left England on May 1st, arriving at Griswold on May 16th — spent two days the 19th & 20th helping to get the school in order for opening on the 21st

From what date does my salary begin?

On my arrival I found that there had been no school here for six years; so for the last six weeks the teaching has been very simple indeed.

If it meets with the approval of the Department I should like to begin school on August 4th.

The children are doing very well indeed & the parents are taking keen interest in the school work.

Sir,-

In connection with previous correspondence regarding the re-opening of the Oak River Sioux School I beg to say that since the school was re-opened on the 19th of May, last, the return received shows an enrolment of 20 pupils and an average of 16. On the strength of this favourable report the Department has been asked to take up the question of constructing an up-to-date school building on the reserve with accommodation for at least fifty pupils.

Before taking any action on this application the Department would like to have a report from you as to the likelihood of the attendance being kept up. Apparently Miss Havard is making a success of the school and if you are confident that the Indians will take advantage of the educational facilities offered the Department will be prepared to favourably consider the application. The present building has only accommodation for fourteen pupils and you will see the necessity for better accommodation. Be good enough to attend to this matter at your earliest convenience, as the Department would like to know whether it would be justified in going to the expense of erecting a new building.

Ottawa, December 16, 1913.

Sir,-

I have to acknowledge the receipt of your letter of the 19th instant stating that thirty new individual desks and two blackboards are required for the Oak River Indian Day School.

In reply I beg to say that you may purchase from Vincent and McPherson, Brandon, Man., thirty desks of suitable sizes and two hyloplate blackboards, four feet by eight feet, with the necessary moulding and chalk trough, and have them placed in position in the school. You may also order from this firm the teacher's desks and chair authorized in official letter of April 16th, last. The accounts for these should be forwarded to the Department through your office for payment.

Sir,—

With reference to letter # II6953/I dated December I6th, I9I3 I have the honour to inform you that after considering the matter I think it would be advisable for the Department to furnish a mid day meal for the children attending the Oak River Day School, some of these children come a long way and most of them are very poor.
I think a hot dish of soup along with the biscuits would be very acceptable.
I am sure that it would have a tendency to increase the pupilage.

There would need to be a cheap cook stove bought if this is carried out.
I think that this would be a kind action to the credit of the Department, and the expense will not be very heavy.
The weather just now is bitterly cold.
I have the honour to be, Sir,

Sir,—

I have the honour to inform you that in regard to the holidays at the Oak River Day School; I had an interview with the Teacher and advised her, instead of taking a months holiday in the Winter it would be more profitable for the School children if the School was closed on the 1st of July and re-open on the 10th of August, and to take the balance of the holidays at the season of the Big Game Hunting; as quite a number of the Indians take their children with them at that time. Dividing the holidays in this way will give a much better average attendance for the year.

Hoping that this suggestion will be satisfactory to the Dept,

Deputy Supt:General,

Department of Indian Affairs,

Ottawa.

Sir,—

Dear Sir,

I hope you arrived home safely;I am sorry that I did not see you again before I left Brandon.

I would like to draw your attention to one of the subjects we were talking about on the train;the Oak River Day School has 25 Pupils on the roll and last month the avarage attendance was 25,it is more than one Teacher can manage properly, teach,prepare a hot meal at noon and keep the School clean.

I would advise that Miss Havards salary be raised to $ 700-00 per year,the several salaries for Teachers in this grade of work in Manitoba are $ 700-00.

I take the liberty of forwarding for your perusal a letter as received from Chief Nelson Oak River.

I would recommend that a Matron be got as soon as possible to assist Miss Havard;two could work better than one and they could live in the School and board themselves.

It would only cost about $60-00 to furnish two rooms.

A good Matron could be got for $ 300-00 or $ 400-00 per year.

I feel sure the School is the best thing that could have been started on the Reserve,the Indians are taking a keen interest in it and it will be an excellent feeder for the Elkhorn Industrial School.

Kind regards to Mrs Scott and yourself and hoping that you will both be able to pay us a visit next year

Yours sincerely,

DEPARTMENT OF INDIAN AFFAIRS

MEMORANDUM OF INSTRUCTIONS FOR FIELD MATRONS ON INDIAN RESERVES

1.—Much of the ill health among Indians grows out of overcrowding in their small houses. Wherever more than two persons occupy space less than 10 x 10 x 10 feet for each person, you should bring the matter to the attention of the Indian Agent. You should urge upon the Indians the necessity of proper ventilation and the admission of fresh air by such means as are available. The Indians should also be advised against the practice of frequent overcrowding due to visiting.

2.—As the excessive infant mortality arises so frequently from artificial feeding, it is essential that mothers, everywhere, be encouraged to nurse their children. But as nutrition is essential to health, careful inquiry must be made in all cases where artificial feeding is utilized. Cow's fresh milk ought to be always available, but it is essential that it be received into clean vessels, pails or cans, after being poured through the air several times into the can or pail standing in cold water. Thereafter it must be placed in a box kept in ice or in a cellar or other cool place away from flies. It is equally essential that feeding bottles be replaced by a clean tin for the milk, and that spoon feeding be always practised. The danger from giving crackers, bread or other starchy food until three months after birth, ought especially to be impressed on mothers.

3.—As personal cleanliness is very gradually learned, the mother is to be taught this especially for the sake of her child. The danger of eye infection at birth (ophthalmia neonatorum) ought to be especially taught, and a warm solution of boracic acid used for cleansing the eyes for several days after birth. This can often be urged with good effect by pointing to individual cases of blindness in the band dating from birth. Similarly the daily bath for the baby, always in a warm room, must be insisted upon, and incidentally the keeping a supply of clean clothes for the baby should be urged.

4.—As the child grows and is able to play on the floor, a special danger results from the dirt of the floor with tuberculous expectorations too often present in the small, badly kept houses. The first duty is to urge constantly the scrubbing and cleaning of floors, and for the baby it is essential that a clean sheet or rug be placed where it can creep about, so that it will not soil the food it may have in hand, on the filthy floor. It is certain that more tubercular infection is transmitted thus than in any other way.

5.—When the child is running about, the dangers are lessened in a degree, as he can get into the fresh air; but it is the general experience that the next great danger to the infant is when contagious diseases, as measles or whooping cough, occur. The mother is too often ignorant of nursing such cases, and when the first sickness is over, the child is generally allowed out of bed, only to die from supervening pneumonia, due to cold and exposure. You should insist on these children being kept in bed until the bronchitis and cough have passed in measles, and during the feverish stage of whooping cough. When scarlet fever or diphtheria occurs, insist on a physican's attendance at once.

As you may be at a distance from a medical officer, it is well to know that parasitic diseases, such as pediculi and ringworm, are liable to affect the school children. For such cases it is essential to get calcium sulphide ointment or, if not attainable, quick lime and sulpher in parts of 1 to 2, and boil them well for two hours and then work them into an ointment with fresh fat, if no vaseline can be procured. For cockroaches in houses, sprinkle borax generously around the cracks of the floor and see that bedsteads are carefully cleaned with coal oil if they become affected.

6.—Practical instruction should be given when possible in plain cooking, sewing, washing and the cutting and mending of garments, as well as other branches of knowledge essential to proper management of a home.

7.—These are hints that will prove of much value when each Field Matron succeeds in gaining, through kindly interest, the confidence of the housekeeper. Through such visiting the teacher will succeed in getting parents to see that their children attend school regularly.

8.—You should keep a diary and you will be expected to make monthly reports showing the nature and extent of duties preformed. This report should be forwarded through the office of the Indian Agent.

DEPUTY SUPERINTENDENT GENERAL OF INDIAN AFFAIRS.

MEMORANDUM.

Approved G.J.

Mr. Scott,-

With reference to letter from Mr. Agent McDonald in which he recommends that the salary of Miss Havard, teacher of the Oak River Day School, be raised from $500.00 to $600.00 and that she be allowed a matron to assist her I beg to say that the returns from this school show that there is an enrolment of 23 for the June quarter with an average attendance of 15.7. Mr. McDonald says that the enrolment has increased to 26 with an average attendance of 23 and that it is more than one teacher can manage properly and prepare a hot meal at noon and keep the school clean. If this is the only work the matron would be required to do there would be no need to have one, as an Indian girl could be hired for $10.00 a month who would look after the preparation of the meal and the cleaning of the sch ool, but as there are 322 Indians on the reserve there would be ample field for the services of a competent field matron.

Mr. Agent McDonald has again written stating that he can secure the services of Miss Florence Blake,

Indian Affairs. (RG 10, Volume 6241, file 529-1, part 1)

who has been a matron for two years and would be a suitable person for the work. He says that her services could be obtained for $325.00 a year and she would board herself.

If the Department approves of the appointment of a field matron her duties should not be confined to the school, but she should be required to take up the work outlined in the Memorandum of Instructions for Field Matrons on Indian Reserves approved by you, a copy of which is attached hereto.

Miss Havard had nine years' experience in teaching in England and came highly recommended. Since she has been in the Department's employ she has been doing good work.

Sir,-

I have to acknowledge the receipt of your letter of the 3rd instant recommending that the salary of Miss Havard, teacher of the Oak River Day School, be increased from $500.00 to $600.00 per annum.

In reply I beg to say that the Department approves of your recommendation and Miss Havard will be paid at the rate of $600.00 per annum from the 1st of July, last.

With regard to your recommendation that a matron be engaged to assist Miss Havard I beg to say that the Department approves of the appointment of Miss Florence Blake at a salary of $325.00 per annum, the amount mentioned by you in your letter of the 19th instant. Miss Blake will be expected to assist in the preparation of the mid-day meal and to perform such of the duties outlined in the Memorandum of Instructions for Field Matrons on Indian Reserves, a copy of which is enclosed herewith, as her work in connection with the school will permit. She should send in monthly diaries, as asked for in the last paragraph of these instructions.

Dear Sir -

I am in receipt of a communication from an Indian of the Oak River Reserve named George Waken, who writes on behalf of a committee, complaining that a Protestant girl named Mabel Wasuna has been recruited for the Qu'Appelle Industrial School without the consent of her mother, who is said to be very much agitated over the matter. Complaint is also made of interference by the priest in matters pertaining to the day school.

I would ask you to report dealing particularly with the recruiting of the girl above referred to.

I may say that the return of admission to the Qu'Appelle Industrial School does not show any girl of this name recently admitted, although on the 1st of July a girl bearing this name was discharged after having been nine years in the school.

Dear Sir,

Your letter # II6,953-I of the 9th,Inst to hand re Mabel Wasuda.

As soon as it was reported to me that this child had gone to Qu Appelle School I sent for Mrs Wasuda to come to the Office on the Reserve and she came.

She did not seem to be deeply agitated when I saw her.

I asked her if she had given the Grandmother authority to take the child to Qu Appelle School:she said they had been talking about it some time before and she did not want her to go.

These are a few questions I asked her.

Q.Are you a member of the English Church on the Reserve.

A.No,but I attend there sometimes and Mabel was baptised in the English Church on the Reserve.

Q.What Church do you belong to?

A.Presbyterian.

Q.What School do you want your child to go to when she is old enough?

A.Portage la Prairie Boarding School;where I was educated myself.

I think there has been a lot of unnecessary excitement in regard to this.

I do not know if any interference by the Priest with the Oak River Day School except that this girl was a Pupil there.

As soon as I found out she had left the Reserve I did all in my power to have her returned.It was the Grandmother who took the child;not the Priest.

I expect this child will be returned to the Reserve shortly and I will see that the Mother of the child looks after her. This child was sent to the Oak River Day School and was getting along well. I think when Pupils are attending this School some notice should be given to the Teacher or Agent before they are taken away.

The Teacher, Mrs Mc Donald and myself have done our best to [illegible] the School a success but we are two only ones who are working for it on the Reserve.

Since the authorities at Qu Appelle have decided to return this girl I do not see what more we can do about it.

Yours very truly

I have to acknowledge the receipt of your letter of the 13th ultimo in further reference to Mabel Wasuda, who was placed in the Qu'Appelle Industrial school and is to be returned to the reserve on religious grounds, and enclosing a copy of a letter from the Principal of that school stating that this girl will be returned to her mother, who is a Protestant.

With reference to your suggestion that some notice should be given to the teacher or agent before a child is taken away from a day school, as was done in this case, and placed in an industrial school I beg to say that the Department requires that this should be done and you will be good enough to see that this rule is carried out in future.

Regina Sask. Aug. 26th, 1919.

Sir:-

I have to acknowledge receipt of your letter No. 427041-33 of the 19th instant advising me that Miss Inches has resigned her position as matron on the Oak River Reserve.

It seems to me that th suggestion to pay Miss Havard $10.00 per month to cover the extra services rendered by her in cooking the mid-day meal until such time as a new matron has been engaged, should be adopted. The objections which Miss Havard has to residing alone on the reserve during the winter could not have been raised if the Agent's house was situated on the reserve as it ought to be. A change was made from the reserve to the town of Griswold some years ago, but I think it would be an opportune time to consider the erection of a house for the Agent on the reserve, where accommodation could then be provided for the school teacher and matron.

With reference to your letter of the 11th August in which you reported that Miss Indhoe, the field matron at the Oak River Reserve has left recently, I beg to say that the Department will make payment at the rate of $10.00 a month to Miss E. Sir,—

I have the honor to inform you that Miss R. Havard, the Teacher on the Oak River Reserve informs me that the Church wishes her to move to another Reserve so that they can combine the duties of the Church and School on the Oak River Reserve.

I do not think Miss Havard is very anxious to change places, as it is farter North and the remuneration is no more than she is receiving here.

I do not approve of changing Teacherson the Reserve, as the Teacher Miss Hav rd has been here seven years and has done excellent work. I have my doubts if the next one will stay any length of time in this work; so far, there have been three different Missionaries on the Reserve in the seven years and if the Teacher changed as often I do not think the children would make the same progress they have been doing.

Indian Childrer are bashful and hard to get along with at first.

Does the Department approve of this change? so far, we have received no word from you in regard to this.

Miss Havards Quarter does not run out until Sept 30th and she has been teaching the first two weeks in July would it be necessary for her to remain here until the end of the quarter in order to get her holiday money that she is entitled to or shall I send in the returns to August 31st?

Ottawa, July 30, 1920.

Sir,-

I have to acknowledge the receipt of your letter of the 23rd instant, in which you inform the Department that it is the intention of the church authorities to remove Miss R. Havard, the present teacher at the Oak River Reserve, to another reserve.

In reply I beg to say that the Rev. J. H. Edmison, Secretary of the Board of Home Missions of the Presbyterian Church, is being written to regarding the proposed change. As soon as a reply is received from him you will be further advised.

I may say that your letter was the first intimation that the Department has received that there was a change contemplated in the teacher at this school. If Miss Havard begins duties at another school her salary would be continued without any reduction for annual holidays, but if she resigns or leaves her present duties salary can only be allowed her for the period which she taught since the first instant and in that event returns should be prepared by her showing the attendance and days taught. If she is to be continued at Oak River, it will not be necessary to forward a return for the current quarter until the end of September, next.

the interest of all concerned to suggest a combination of Church and School,with a respectable income sufficient to attract a good man to the position.

On the occasion of my visit to the Reserve,I fully discussed the matter with Mr McDonald,the Agent,who for purely personal reasons found objection to the scheme.

I,also,discussed the matter at greater length with Miss Havard and found that she was willing to make a change provided that a similiar position in the Diocese could be secured for her and,herself,suggested Peguis as a place to which she would like to go.

Later,after correspondence with Mr Carter,the Agent at Half-way,we offered her the new School on that Reserve which she accepted.

She also resigned the position at Oak River to take effect at the end of August.

The combined position at Oak River was thereupon offered to the Rev.D.A.B.Steddart,a clergyman of long experience and a graduate of the Manitoba University,who accepted it,but after meeting the Agent refused to go.

The position has now been offered to the Rev.T.D.

My dear Sir.

Your letter addressed to Canon Jeffery re Miss Mavard and the proposed change on the Oak River Reserve,has been handed to me for reply.

Previous to leaving for England,His Grace the Arch-Bishop instructed me to visit the Reserve with a view of making some arrangement for the appointment of a resident clergyman,and suggested the combination of Church and School if found advisable.

For some time past,and indeed since the resignation of the Rev.A.Birch some two years ago,we have carried on the work with the assistance of two local Catechists and a monthly visit of an ordained man,but this has been found entirely un-satisfactory and a return to the former state advisable.

The Indians refuse to contribute to the stipend of a clergyman believing it to be the duty of the Church,or the Department,to provide such without cost,Hence we have found it extremely difficult in the past to attract good men to the work,or to keep them in it for any length of time,on the stipend which the Church is able to offer.Thus it was considered in

Very Reverend Sir,-

I have to acknowledge the receipt of your letter of the 13th instant regarding the proposed change in teachers on the Oak River Reserve.

In reply I beg to say that the Department will approve of the arrangement made for the combination of teacher and missionary on this reserve and of the appointment of Rev. T. D. Conlin to carry on the work of teacher to replace Miss Havard. The Department will continue salary to Mr. Conlin at the same rate as was allowed Miss Havard, namely,- $600.00 per annum, together with the bonus at the rate of $150.00 per annum during the period which it is continued to teachers in Indian day schools. It is presumed that Mr. Conlin will be prepared to take up his duties as teacher when the school re-opens after the present summ er holidays, on or about the first of September, next.

It is noted that Miss Havard has been offered and has accepted the position as teacher at the new school on the Peguis Reserve. Her appointment as teacher of this school, which is known as the Peguis Center School, is approved. Her salary will be at the same rate as was paid her at Oak River.

Mr. Agent McDonald, Griswold, is being informed of th approval of the Department of the appointment of Rev. T. D. Conlin at Oak River and Mr. Agent Carter of the appointment of Miss Havard as teacher of the Peguis Center Day School.

Sir

In answer to your letter # II6953/I dated July 30th 1920 I have the honor to inform you that you have written to the wromg Minister;it is the Anglican Church on the Oak River Reserve;Venerable Archdeacon Thomas,Synod Office,Somerset Block,Winnipeg is the General Missionary.

Miss Havard informs me that she would like to finish out Her term at the Oak River Day School;she has given me to understand that she does not wish to go to the Pequis Reserve although the Church authorities are asking her to go;so far,Miss Havard has not sent in her resignation.

Miss Havard thinks that after seven years steady work on the Oak River Reserve a better School should be given to her and she does not think that her nerves will allow her to stay in such a lonely place.

If the Department will allow her to finish her term here she will be glad to will then give place to the Missionary-Teacher.

I have the honor to be,

Sir,
Your obedient servant

Sir:-

Mr McDonald has informed me that he has just received a letter saying that I have accepted the position as Teacher at the Peguis Centre School.

There must be some misunderstanding as I have not accepted it.

Archdeacon Thomas asked me if I would change from the Oak River School to another Indian School, so that the work of both Church & School on the Oak River Reserve could be combined and carried on by a Missionary Teacher.

I agreed to this change providing a school was given me which had the same advantages.

When Peguis school was spoken of I found that the Teacher's residence was entirely unfurnished and that I was expected to furnish it even to the Stoves & pipes. This I could not do on a Quarter's salary and I doubt, at the price of things to day whether it could be done on al six months' salary, and this

School (Peguis) is not on an equal to the one I am now at.

I am hoping the Church or the Department will find me a more convenient school very shortly, as I would like to continue in the Indian work.

I want to finish out the September quarter here.

Sir,—

With reference to letter No II6,953-I dated August I7th and received here August 21rd I have the honor to inform you that I saw Miss Havard this morning and she informs me that she did not give anyone to understand that she would accept the Peguis School.

I wrote to the Department on August I3thto say that Miss Havard wished to finish out her term at the Oak River Day School so that she could get her salary for the September Quarter and after the end of September she would not care who the Church put in her place. There has been a misunderstanding somewhere as she has not accepted the position as Teacher on the Peguis Reserve;this business seems to have been carried out in a very peculiar way.

I would advise that Miss Havard be allowed to teach at the Oak River Day School until the end of September We will never get a better teacher here.

I want to see this business carried out fairly.

Very Reverend Sir,-

In further reference to the proposedchange of teachers on the Oak River Reserve I beg to say that the Department has received a communication from Mr. Agent.McDonald, Griswold, Man., enclosing a communication from Miss Havard, in which she states that that there must be some misunderstanding regarding her transfer to the Peguis School, as she has not accepted the position. The Agent advises that Miss Havard be allowed to teach at the Oka River Day School until the end of September, in order that she can obtain her full salary for the quarter and he states that after the end of September she would not care who the church put in her place.

As she is an old teacher and has given satisfaction, the Department would be pleased to accede to her wishes as far as possible and, if Rev. T. D. Conlin has not taken up his duties, it might be well to allow Miss Havard to remain till the 30th of September, next. However, this matter will be left in the hands of yourself and the church authorities, but I should be pleased if you would communicate with Mr. James McDonald, Indian Agent, Griswold, Man., regarding the matter.

Miss Havard considers that she has not been fairly dealt with and the Agent states that she informed him on the 23rd instant that she did not give anyone to understand that she would accept the Peguis School.

It will be necessary to obtain the services of a qualified teacher for the new school on the Peguis Reserve.

Your obedient servant,

For Asst. Deputy and Secretary.

I have to acknowledge the receipt of your letter of the 23rd instant in further reference to the change of teachers on the Oak River Reserve.

In reply I beg to say that Ven. Archdeacon Thomas, Winnipeg, is being written to in the matter and it has been suggested to him that, if Rev. T. D. Conlin has not arrived on the reserve to take up his duties, it might be well to allow Miss Havard to remain until the end of September, next. This matter has been left in the hands of the church authorities and Archdeacon Thomas has been requested to write you in this connection.

Re:- School on Oak River Reserve.

My dear Sir.

The Rev.T.D.Conlin finds that he is unable to assume charge of the School on the Oak River Reserve until the 1st of October.

With your consent,and in order to reopen the School on the 1st of September,we have invited Miss Havard,the former Teacher,to remain in charge until the end of the month.

Very sincerely yours.

CHURCH OF ENGLAND OBSERVES CENTENARY

(Cont'nued from Page 1)

to accomplish the work which had been outlined for the church to do.

The present age he said, was an age of worry. Men in all circumstances were in mental distress. For such a state of mind God was the only real comforter, but it was necessary for people to open up their hearts to Him if they were to obtain that solace which was needed today. There was no other source of real comfort, he said. God alone could provide relief.

Aged and almost blind, Dr Peck gave a brief missionary message in which he declared that the real object of task was to make Christ. Christ to-mediate meant, he said, that it was necessary to make known His marvel-ous works. Then, as in all other times, the world's great need was the Saviour. The missionaries had gone out and done successful work because they had been compelled by divine love. The church too would be revitalized as it had at its disposal such a force.

Bishop Reeve dealt with Christ's commission to His disciples to preach the gospel. The church had been to some extent unable to do this but to some extent had failed to fulfil them. The success of the missionary work, however, had been due to the aid of the Holy Spirit. The same power which had enabled the disciples to speak to the multitudes from different nations was manifest today and had enabled the missionaries to leave civilization and preach the gospel to the natives of the north.

In the past 100 years, he said much had been accomplished in Western Canada. A century ago there was not a single Christian Indian, while today all were at least nominally Christians. For the work which had been done Anglicans today had reason to be thankful for. The Church of England had sent missionaries from the north-west and other missionary society. Great things had been achieved, he said, but the present was not a time for rejoicing. The Forward Movement would be carried on afresh to attain the spiritual objectives, and the present day members of the Church of England would have to meet their responsibilities if the good work of the past were to be successful.

Indian Speaker in Evening

"It is up to the government of this country to provide good schools and good teachers for our Indian boys and girls. Government Minister I pressed my grandfather that the government of this great land would fulfil its duty in giving our Indian children as good schools and teachers as it was possible to provide and they have not yet kept their word," was the unanswered statement made by Mr Ahenakew, a full blooded Cree Indian and graduate of Emmanuel College, Saskatoon, who addressed a congregation which packed St. Luke's Anglican church last evening.

"It is not up to the church to spend any more money on the building of schools for the Indian children," he said. "Teachers are sent to small settlements of English-speaking people, where they receive adequate salaries to teach a few children, while our hundreds of schools [illegible] neglected. [illegible] member that education apart from Christianity is a curse to any race. We shall get no satisfaction on this point [illegible] commissioner is appointed to investigate the Indian school situation. The church must exert her influence to obtain this commission. She is helping to develop the Indian's soul. We want her help in helping to develop his mind, too. As an Indian I appeal for something to be done about this."

Rev. Canon B. W. Heeney of St. Luke's church, who introduced Mr. Ahenakew, also spoke briefly emphasizing the fact that it is the duty of the Christian church to obtain adequate provision for the education of the Indian race. "If the church takes the matter up, and insists on something being done the government will have to scurry," said Canon Heeney. He then introduced Rev. J. Hines an old time missionary who came to Manitoba in 1874 being one of the first representatives of the Anglican church to go to Saskatchewan and the far west. Mr. Hines is the author of the well known book "Pioneers of the Prairie" and has spent practically all his life in missionary work among the natives of this country. He also accomplished much translation work during his many years' work in The Pas and other northern points.

Mr. Hines spoke of the remarkable development of the Anglican church in the west during the years since he started his work 180 miles north of the Saskatchewan river in 1874. In those days, he said he had had to superintend the missionary work in the whole of Alberta and Saskatchewan, while today, these two provinces are divided into [illegible] dioceses having three bishops and an army of clergy.

At the Sunday school service in the afternoon the oldtimers who took part in the morning service addressed the boys and girls. An especially interesting feature of this service was provided when the five missionaries present united in singing the hymn "Jesus Loves Me" in as many different Indian dialects.

Mr. Ahenakew who is in the city to attend the Anglican centenary celebrations, will address a meeting to be held in [illegible] this week. He will then return to Saskatoon to continue his [illegible] of medicine as he intends to [illegible] his life to his own people in the capacity of a medical missionary.

Sir,—

With reference to letter # 133-3-1 dated November 3rd 1920 I have the honor to inform you that there are three different services of three different Teachers for the Oak River Reserve each July 1st 1920 and if the Council and we all went our way there would have been no School there since July 1st. Is it a case to pay this time?

There is only a small supply of coal at the School and coal is hard to get, I put in all the coal I could secure at that time in order to the necessity of these I could get if the School could be used this Winter.

The Council in Oak River and I went down to the Department, we secured an order to get more coal.

I have decided to ask you to close the School until Spring as it is too cold for the children to attend School in the Winter.

Referring to the last paragraph of your letter; I have done everything in my power to get this School and money; the Chiefs of the District were notified of the School and as it was impossible to collect enough funds for the Department. I trust that you will look up the reports of the Teacher he has been with us and see if any can be done to get the School for the last.

Sir,-

I have to acknowledge the receipt of your letter of the 26th ultimo regarding the Oak River Indian Day School.

In reply I beg to say that, as you have been advised, the Church of England authorities have nominated Rev. J. H. Hill, B.A., as teacher of this school and his appointment has been approved. The nomination of the teacher for this school rests in the hands of the church authorities. Archdeacon Thomas informed the Department that Mr. Hill would commence his duties on the 1st instant.

If the school is re-opened you should endeavour to obtain the supply of fuel necessary for the coming winter and have it delivered at the school as soon after the teacher arrives as possible.

With reference to the serving of a midday meal to the children I beg to say that you should take this matter up with the new teacher and, if he is willing to do this, you may furnish him with the supplies required for the purpose.

The late teacher performed the janitor's work at this school and it is expected that Mr. Hill will attend to these duties.

The Department is aware of the interest you took in the work of this school when it was under the charge of Miss Havard and it is hoped that you will continue your interest and give Mr. Hill any assistance you can and that he will meet with success in the work.

Dear Sir:-

I beg to acknowledge, with thanks, your letter of the 23rd of November, approving the appointment of the Rev. J.H.Hill, B.A. to the position of Missionary-Teacher on the Oak River Reserve.

I regret to have to report that Mr Agent McDonald considers the step inadvisable inasmuch as (1) no fuel can be obtained for the school and, (2) in the absence of a Field Matron the customary mid-day meal cannot be provided. He recommends, therefore, the school to remain closed until the Spring.

We are not in a position to estimate the gravity of these objections and should be pleased if you would communicate with Mr Agent McDonald regarding them, advising us, as soon as possible, of your decision in the matter.

In the meantime, Mr Hill will be held in readiness to commence his duties as arranged.

Very Reverend Sir,-

I have to acknowledge the receipt of your letter of the 27th ultimo in further reference to the appointment of the Rev. J. H. Hill, B.A., to the position of teacher on the Oak River Reserve and the re-opening of the school.

In a recent communication from Mr. Agent McDonald he recommended that this school remain closed until the spring, as he stated that it was hard to get the children to attend in the winter and also on account of the difficulty in obtaining fuel. He was requested to endeavour to obtain the supply of fuel necessary and informed, as advised by you in your letter of the 17th ultimo, that Mr. Hill would arrive on the reserve to commence his duties on the first instant.

The Agent and yourself are in a better position to decide as to whether the school should re-open or not, in view of the fact that you have already engaged the services of a teacher, whose appointment the Department has approved. I shall be pleased if you will take this matter up direct with Mr. Agent McDonald and, if it is decided, in view of the difficulty in obtaining fuel and the small number of children who would likely attend during the winter months, that it would be well to allow the school to remain closed until the spring, the Department would consent to this arrangement being carried out.

I beg to add that Miss Havard, the late teacher, made a success in her work at this school and the Agent reports that the citizens of the district were proud of the school and the way it was conducted by her and that it reflected credit on the Department. It is regretted that it was found necessary to make a change in the teacher of this school.

My dear Sir.

I regret that my absence from the city has delayed a reply to yours of Dec:the 6th.

His Grace is now in correspondence with Mr Agent McDonald and it is hoped that some arrangement may be made for the re-opening of the school at an early date. The Rev.J.H.Hill is being held with this in view.

From the latter part of your letter,I gather that you are not in possession of all the facts concerning the resignation of Miss Havard from the Oak River School, and,unless necessary,I do not intend to persue the subject further except to say,that Miss Havard is in a position provided for her by the Church at a salary much in advance of that given in her former position.

I am,dear Sir.

Very sincerely yours.

Dear Sir,

With reference to letter # I53-3-I dated December 2nd 1920 I have the honor to inform you that the Oak River Indian Day School was re-opened on January 10th 1921 with an initial attendance of 9 pupils and the Rev J. W.Hill in charge as Teacher and Missionary.

I think I have secured enough coal to last for the balance of the Winter, it was delivered at the School a week or so before School commenced; as soon as the coal came I notified Archdeacon Watteson, Fort Frances Ont. Mr Hill informed me that he would do his best to give the children hot dinner but he will not be able to teach the girls sewing and knitting;this will be a loss to the girls as it was an important part of their training.

Re No. 133 3-1.

Septr. 8th, 1921.

Dear Mr. MacKenzie:

I am in receipt of yours of Septr. 2nd, re a teacher for Oak River School, and your reference to my reply to the same on July 20th, a copy of which I was not able to keep as I was in camp at the time. It was our intention to place a missionary at Oak River, (a very good teacher) and recommend him to the Department for taking charge also of the school. I saw the man last week and offered him the post but while he was considering it I had the following communication from Mr. Hill re the Oak River situation, namely:

> "The Inspector of Indian Agencies was here last week to arrange for the removal of the Agent back to the reserve and, in consequence of the fact that the Agent's house is now used as the School, for the using again of the old school-house. Mr. McDonald, the Agent, informs me that the school is a cold building and not fit for use, and suggested that I should inform you of the intended change."

In view of that, all action is held up for the present and it is a question now whether the man whom I had in mind will consent to go under the circumstances. There is a great scarcity of both missionaries and teachers at present and it may be impossible for us to procure a suitable man in the near future. If the old school is unfit for use, as it is claimed, it might be possible as a temporary arrangement for the Department to secure the use of the basement of the Church for school purposes. It is quite a comfortable place but the Synod might ask a small rent for it. If there are any further developments either Archdeacon Thomas or myself will let you know. With kind regards, I am,

Very truly yours,

Most Reverend Sir, -

I have to acknowledge the receipt of your letter of the 9th instant, regarding the securing of the services of a teacher and in obtaining suitable accomodation for carrying on the work at the Oak River Indian Day School.

It is noted that, as the Indian Agent is returning to live on the Reserve he will require the house in which the day school was formerly conducted. The Department has no funds with which to make the repairs that will be required to put the old school building in good condition. We will, however, consent to pay a small rental for the use of the basement of the church for school purposes, as you state it is quite comfortable and would be satisfactory for the purpose.

I will, therefore, be pleased if Your Grace will arrange with the Synod for the use of the church basement and inform me of the amount of rental that would be charged. If satisfactory arrangements can be made for carryin on the school in the church basement, I will be pleased if you will also arrange for the securing of the services of a suitable teacher.

As soon as the Department is informed as to whether the accommodation mentioned above can be obtained, instructions will be given our Agent to have it fitted up for school purposes. I will be pleased to hear from you at your earliest convenience regarding this matter.

Venerable Sir,

I have to acknowledge the receipt of your telegram of yesterday, concerning your readiness to appoint a University Student to the Oak River (Sioux) Indian Day School, near Griswold, Man. It is noted that your plan was to operate this school from May to September, and that your nominee for the position has been recommended by the Archbishop and approved by Mr. Agent McDonald.

In reply I have to confirm my wire of yesterday's date, as follows: -

"Department approves appointment Teacher Oak River Indian School for summer months. Salary Eighty per month plus bonus."

If you refer to official communication of the 19th of September, last, you will note that the Department agreed to pay a small rental for the use of the basement of the church for school purposes rather than repair the old school building. I trust that satisfactory arrangements have been made, and the work nicely under way.

As intimated by telegram, the salary allowed will be $80.00 plus the bonus of $15.00, a total of $95.00 per month. You should intimate to the Department the name of the teacher, and the nature of his qualifications.

If the attendance is good this summer, and the classroom arrangements are satisfactory to all concerned, it is extremely desirable that a permanent teacher be appointed. The Department would like a recommendation from you concerning the advisability of keeping this school open after the first few months if known there is a need.

Mr Wilfred Westgate who has now been appointed Teacher of the said school,is a University student in his third year;and is the holder of the Lieut:Governor's gold medal for general proficiency.He is a son of Dr Westgate,the Secretary of the Indian & Eskimo Commission of the M.S.C.C.and is in every way admirably fitted for the position to which,with your approval,he has been appointed until the middle of September.

I am taking him to the Sioux Mission on Saturday next,the 13th of May,and we hope to open the school on Monday the 15th.

In the absence of a suitable school building,the basement of the church will be used for the purpose,and

At Fairford we found Mr. Hyson partly to blame and without the cooperation of the band. Archdeacon Thomas and I arranged for a transfer to Oak River Sioux, where young Westgate is at present. As his wife will not have a field matron's position at the new place, we agreed to pay him $800 plus any bonus and his wife $100 per year as Janitor.

The school is being held in the church missionary's residence and, in lieu of rent, we will pay fuel bills up to $75 per annum. As Missionary, the church will pay Hyson $200 per.

I trust this will be satisfactory.

Dear Mr. Scott :-

I am today in receipt of a letter of the 14th instant, signed by Mr. McLean in which he informs me that the Superintendent of Indian Education and Arch Deacon Thomas of Winnipeg, who recently visited the Fairford Reserve and have arranged for the transfer of Mr. and Mrs. Hyson to take charge of the school at Oak River(Sioux) School, in the Griswold Agency.

The letter goes on to say that the school will be conducted in the Missionary's residence. I cannot understand this as we have a school right close to the Agency and close to the Missionary's residence and school should be held there. There might be a few minor repairs needed, but if school is to be conducted in the Missionary's residence I do not think it would be satisfactory, not only to the Missionary, but from our own standpoint.

Kindly advise me if there is any reason why the school building should not be used.

Yours very truly,

W.M. Graham,
Indian Commissioner.

Sir,-

I am directed to acknowledge your No 208-14 letter of the 19th ultimo concerning the Oak River Indian Day School, and asking if there is any reason why the school building on the reserve should not be used by Mr. Byron, the teacher lately appointed.

In reply I beg to state that the information available from the files is that the school buildings were erected in 1892. In 1910 the Department decided to use the church basement rather than repair the old school house. This course of action was never taken, because immediately after Mr. Agent McDonald moved into the town of Griswold. This released the Agency buildings, which have been in use for school purposes until last year, when the Agent was returned to live on the reserve.

Last year Mr. Agent McDonald stated to the church authorities that the old school buildings were cold and not fit for use, so he suggested that school be held in the basement of the church. As no teacher was available at this time, that plan was never completed. This year, when the school was opened for the summer months, Mr. Agent McDonald advised against using the church basement on the grounds that it would not be a healthy place for studying, and he and the church authorities recommended to the Department that we use two rooms in the missionary's home.

The Superintendent of Indian Education visited the Oak River reserve this summer, and found the school being conducted fairly satisfactorily in the missionary's home. Mr Byron, who was moved from the Fairford reserve, understood that two rooms, which open into each other in the missionary's home, were to be used for school purposes.

If you or your Inspector find that the old school building could be put into good condition without too much expense, the Department is quite prepared to arrange to have the school held there. I might state that the public school Inspector, in his report, mentions that the old school building could be used. The Department, however, has to pay attention to the facts on file, and to Mr. Agent McDonald's opinion that it was too cold to be used in the winter time.

Very Reverend Sir,-

I have to refer to that portion of your letter of the 30th ultimo concerning the Oak River Indian Day School.

The Department approves of the appointment of Mr. A. Ayson as from the 1st instant, and we agree with you that any e tention of his engagement should depend entirely on the success with which he meets. The salary allowed Mr. Ayson will be at the rate of $800.00 per annum, plus any bonus provided by law. His wife is to receive $100.00 per year as janitor, and for performing some services as Field Matron. We are prepared to pay fuel bills up to $75.00 per annum, in lieu of rent, as long as the school is held in the two rooms of the missionary's residence.

Sir : -

I beg to acknowledge receipt of your letter of the 9th instant, No.133-3-1 concerning the Oak River Indian Day School, and in reply to say that I have carefully noted the contents of your letter.

The Superintendent of Indian Education has been on the Reserve this summer you say. I think if he made an examination of this building, he would have found that it was not in the condition that the Department have been led to believe that it is. That is, that it is unfit to use as a school room. I cannot understand how the Department was led to believe that teaching school in the basement of the church would be more satisfactory than holding it in the school. As a matter of fact Mr.Inspector Murison was on this Reserve some little time ago, examined this school building and found it in not bad shape, aside from some minor repairs and the fixing of the windows. This summer I had the exterior of this building painted.

I must say that I think the Department have not been getting accurate information from the sources where it should expect to get it. We were let to believe that the Agent's house on the Reserve was unfit for occupancy and when I sent an Inspector down I found that the

house was in good shape and took steps at once to have the Agent sent back to the Reserve, where he should never have been moved from in the first place. The same remarks apply to the school. The school should have been carried on in the building that was built on the Reserve for the purpose.

I am personally going to visit this Reserve in the near future and I will have the satisfaction of seeing the building and will report just what repairs are considered necessary. As the school has been started in the residence I am not going to ask that any change be made until I visit the Reserve, however, it is just possible that Mr.Hyson would prefer to carry on the school in the residence as it would mean perhaps, that it would be less trouble to him to do so, but this is not to be considered if we decide that the school should be held in the building that was erected for the purpose.

Might I suggest that in future before transfers take place, and if the Department is in doubt as to conditions on the Reserve that this office be communicated with as I feel satisfied we could save a lot of trouble and give the Department first hand information regarding buildings and conditions existing on Reserves. Had I been consulted in this matter, I can assure you I would never have recommended that Mr.Hyson open school in his residence.

EXTRACT FROM REPORT OF INSPECTOR CHRISTIANSON ON HIS INSPECTION OF THE PORTAGE LA PRAIRIE AND MANITOWAPAH AGENCIES, DATED SEPT. 15, 1922.

Original on File No. 77 - 127.

The Indians do not appear to be friendly disposed towards Mr. Hyson and his family and I understand that threats have been made by them not to allow their children to attend the school while Mr. Hyson was the teacher there. I did not investigate this matter as Mr. Ferrier, Superintendent of Indian Education, had arranged to visit the reserve for the purpose of looking into the complaints made against Mr. Hyson. Several Indians told me that the Hyson family looked upon Indians as if they were no better than dogs, and after staying at the school for two nights I came to the conclusion that Mr. & Mrs. Hyson and their daughter, a young lady of about 19 years of age, were not in sympathy with the Indians, and it is undoubtedly a mistake for these people to be engaged in Indian work. I believe since my visit to the school that Mr. Hyson has been transferred to the Griswold Agency, but unless he and his family become more sympathetic towards and tolerant with the Indians, he will meet with no more success there than he did on the Fairford reserve.

I would particularly draw your attention to the Inspector's remarks in regard to Mr. Hyson, the school teacher, who has been transferred to the Griswold Agency. I have to refer to that portion of your covering letter and Mr. Inspector Christianson's report on the Manitowapah Agency, concerning Mr. Hyson, who has been transferred to the Oak River Sioux Indian Day School on the Griswold Reserve. I have noted that it is your opinion that Mr. Hyson should not have been retained in the service of the Department.

The Department has received a full report from Mr. Ferrier, Superintendent of Indian Education, in this connection, and we are prepared to give Mr. Hyson another opportunity. At Fairford, he failed because of his intolerant and antipathetic attitude toward the Indian people. He and his family realise this mistake, and are being given another opportunity at Griswold. Mr. Hyson is quite capable of giving faithful service as a school teacher and, if he becomes sympathetic in his attitude, may do satisfactory work. If he is not successful at Griswold, this Department will be ready to inform the Church of England authorities that he will have to be taken from Indian school work.

EXTRACT FROM [illegible] COMMISSIONER'S JOURNAL
RE: O.M. RIVARD'S VISIT TO INDIAN DAY SCHOOL, ON GRISWOLD RESERVE.
DATED SEPT. 29, 1922, ADDRESSED TO DEPUTY SUPT. GENERAL.

Original on File 77-133.

I was not at all pleased with the school on the reserve, at which there were six pupils, four of whom were regular in their attendance and two were not. These children did not look clean, and had an unkempt appearance.

The class is being taught in the mission house, which is not a very good place for it to be held, but this accommodation will have to suffice during the winter months.

I was not impressed with Mr. Lyson, the teacher, who has only been in charge of this school for a month, and who, as you are aware, was transferred to that point from the Fairford reserve. He is not tidy, which is an essential qualification in our school teachers if the children under their charge are to be taught to be cleanly and tidy. It is most regrettable that Miss R. Rivard, who was in charge of this school for nearly six years, was transferred to another reserve. She performed her duties most efficiently, and took a great interest in her pupils to whom she taught many industrious habits such as sewing and gardening. The Department paid her a salary of $600.00 per annum. Mr. Lyson, who is also paid by the Department, receives a salary of $800.00 per annum, and in addition is paid $200.00 per annum by the Church authorities for mission work. It seems to me that the Department should have more control over the teacher at this school, and as I have already stated, it is a pity that Miss Rivard was transferred, as ever since she left the school the work there has deteriorated.

Dear Mr. Graham:-

I beg to submit the following report on the Oak River Day School in the Griswold Agency, which I visited on the 13th. instant.

The classroom is in the Missionary's residence on the reserve, where what was intended for a dining-room and sitting-room,with an arch between,is used for this purpose. The room is fairly large and is well lighted and provided with good ventilation. A large window in the East, two in the South, and one in the West side of the room provide good light. An ample supply of single desks is provided for the number of pupils enrolled.

Mr. A. Hyson is in charge as teacher. He has had 23 years experience in England, and 13 years in Canada, but does not hold a certificate for Manitoba. There are 22 pupils enrolled; 11 boys and 11 girls. The average attendance for the past five months has been slightly over 63% of the enrollment. All the pupils are in the lower standards; 17 in Standard 1, and 5 in Standard 2. The attendance is very irregular and

Inspector Murison's Report on the Oak River Day School

as a consequence the progress is not satisfactory, to my mind. There is, in my opinion, no good reason why the attendance should not be good at this school. The distance from the school at which the children reside is not greater than at Little Pines or Cote reserves, and other points where we are getting a much more satisfactory attendance. This is attributable, I am fully convinced, to indifference on the part of the parents. There were only eight children present on the day of my visit, although the parents had been notified the previous day that I was going to visit the school. In view of there being two residential schools within thirty miles of this reserve, viz:- Brandon and Elkhorn, to which the Protestant children could be sent, and the Qu'Appelle School at Lebret, which can be reached direct by railway,to which the children of Roman Catholic parents could be sent without imposing any hardship on the parents, I am of the opinion that the Department would be justified in closing this school, and insisting on the compulsory attendance of the children who are physically fit at the residential schools. There are 71 children in the Band from six to fifteen years of age, and only nineteen of these are in attendance at residential schools. Apart from these and the 22 enrolled at the Day School there are 30 of school age who have never attended any school. Of course there are a few who are physically unfit, but the number is small. I have been visiting this school for the past six years, and have brought the importance of providing the children with an education to the attention of the parents. They, however, appear to have no sense of

responsibility

responsibility regarding the welfare of their children in this connection, and I feel that so long as they have a Day School on the reserve, it provides them with an excuse for depriving their children of obtaining an education. Dear Mr. Scott:-

I beg to forward herewith a report on the Oak River Day School in the Griswold Agency. The report is not satisfactory. The attendance is small and I quite agree with the Inspector when he says that the continuance of this school is merely an excuse for the Indians to keep their children from attending residential schools.

It appears that every effort has been made to get these children to attend this Day School, but with little result. The progress in the class work is, I would say, unsatisfactory. The Department should consider, I think, the recommendation made by the Inspector.

Sir:

I am directed to acknowledge your 204-9 of the 12th instant, enclosing the report of Mr. Inspector Murison on the Oak River Indian Day School. I note that there are 71 children of school age belonging to the Indian Band, 19 of which are enrolled at residential schools and 22 in the local day school. This leaves 30 of school age who are not attending any school - most of whom are physically fit.

In September, when it is determined what vacancies there are at Qu'Appelle, Elkhorn and Brandon, a letter will be directed to you with reference to placing these 20 or 25 children, who are not in attendance at school, at these three institutions. When the action is being taken on the reserve, the parents of those children who are attending the day school should be given to understand that, if the attendance is not up to the mark, the day school will have to be closed and all children placed in residential schools.

Dear Mr. Graham:-

I beg to submit the following report on the Day School of the Griswold Agency.

The school is held in the Mission House owned by the Church of England. The two rooms on the South side of the house have been taken for class-rooms. These rooms are well lit, but an archway separates the two rooms, allowing only two rows of seats to extend the full length of the rooms. The other rows of seats are broke by the projection of the arch on either side.

The blackboard is not at the front of the children but on the side wall, and consists of a piece about 8 ft. long. On account of the arch, the board can only be seen by those in the front half of the school. Those behind the arch can see very little, some not at all.

At present there are 25 on roll. The day I attended, there was 6 present. The average attendance for quarter ending September 30th, was 17.8; for that ending June 30th - 12.6. There are seven or eight children on the reserve of school age, not attending school, which should not be the case. These added would bring the roll up to 33.

All these pupils are either in grade 1 or 2, and range from 8 to 13 yrs. of age, which figures do not speak well of advancement made. The parents of many of these children are away much of the time in summer, and consequently the children are with them instead of being at school.

being at school. Then in the winter, some have as far as 3½ miles to come and many are really not physically fit to walk this distance, with the result that perhaps they come one day and stay home the next. Then again, only odd Indians have time pieces, so that the children come to school any time from 8 to 11 A.M. They can't help it because they do not know the time. Under these conditions and with boarding schools as close as Brandon and Elkhorn and Lebret, it seems to me the only solution, whereby their children may have a decent education is to close the Day School and move these children to boarding schools. They would then be able to attend regularly the class-rooms, and also receive attention for any of their physical ailments.

Mr. Hyson is the teacher, and it looked to me as if he was just as satisfied if 6 were present as 20. He is an old man and entirely out of date, and I doubt if under the best of attendance, much progress would be made.

I have the honour to be,

Sir,

Your obedient servant,

Sir:-

I beg to enclose herewith a short report on the Day School in the Griswold Agency. This report shows that the attendance at the school is far from satisfactory, and it seems to me that the Department would be well advised to close this school and transfer all the children to the Elkhorn Boarding School where they would get a real training. The Griswold Agency is so close to Elkhorn that this seems the natural place for them to go.

Right Reverend Sir:

I have to inform Your Lordship that recent reports concerning the Oak River Sioux Indian Day School have led the Department to seriously consider its closing. The Inspector of Indian Agencies writes in part as follows:

> "The parents of many of these children are away much of the time in summer; consequently the children are with them instead of being at school. . . . . The children come to school any time from 8 to 11 A. M."

It is suggested that the only way of educating these children is to place them in residential schools. Please let me have Your Lordship's opinion in this connection.

Re:- Oak River Sioux Indian Day School.

My dear Sir:-

I have received your letter of Nov.the 24th regarding the above School,and will reply to it fully, within a few days,after I have visited the Reserve and carefully gone into the whole matter on the spot.

At present,I am quite convinced that a Day School is essential at Oak River,particularly for the education of the younger children,but think that successful work in this regard will not be accomplished by the present Teacher.

Very faithfully yours.

In addition to obtaining these figures, the accuracy of which can be relied upon as they came from the books of Mr Clarke, the very excellent Indian Agent, I also carefully investigated the management of the School, and endeavoured to form a just estimate of the qualification and ability of Mr Hyson to properly discharge his duties. My conclusions are as follows, namely-

(1)There is essential need for the continuance of the Day School at Oak River, and that if the said School is efficiently conducted it can be, and I trust will be, one of the largest Day Schools in the West.

(2)That there are too many children of school age(71) and too great a number closely following in their wake,(54) to depend on their absorption into the Residential Schools.

(3)That the present enrollment and average attendance is an evidence of the inability on the part of Mr Hyson to attract the pupils to the School, or to interest and instruct them when they are in attendance.

I beg leave, therefore, respectfully to recommend that the Indian Day School at Oak River be retained. That the services of Mr Hyson be discontinued at the end of the present school year. That a qualified Teacher be appointed to succeed him, and that the said Teacher be a married man whose wife shall be required to take the Junior Class.

I shall count it a privilege to be permitted to nominate such a man, and will assist in every possible way to promote the success of the work.

I am,

Very faithfully yours.

Re:-Oak River Sioux Indian Day School.

My dear Sir:-

I very greatly regret that the increased duties of the Christmas season have delayed the sending of a report on my visit to the above School.

In accordance with my letter of December the 1st, I visited the Sioux Reserve and went most carefully into its educational problems, I interviewed the Teacher, then the Agent, and last of all I talked with some of the leading Indians on the Reservation.

The following is the result of my inquiry, and upon which I base my subsequent recommendation:-

(1)The population of the Reserve, as given in the Census of 1926, is three hundred and six souls. Of this number seventy-five per cent are members of the Anglican Church, and of the remaining twenty-five percent nine families are Roman Catholic, and the rest Pagan.

(2)There are resident on the Reserve 125 children between the ages of 1 and 15 years. Of this number 54 are under the age of 6 years, and 71 are between the ages of 6 and 15 years. In addition there are 26 children in Residential Schools, namely- Elkhorn. 3. Brandon. 4. Portage. 15. Le Brette. 4.

(3)From the School Register I gathered that the present enrollment in the School is 24, being made up of 17 boys and 7 girls, and that the daily average attendance is about. 13.

Right Reverend Sir:-

I have Your Lordship's letter of the 8th instant, recommending that the Oak River Sioux Indian Day School be continued and that a new teacher be engaged for the coming academic year.

The Department is pleased to have your full report on school conditions on this reserve, and I should be grateful if Your Lordship would nominate a suitable worker for the post who could take up duties on September first next. Towards the end of the current academic year, the Department will inform the Indian Agent that Mr. Hyson's services are not required after June 30th. The Department will allow the new incumbent salary at the rate of $100. per teaching month. If the attendance is such that the engagement of a second teacher is necessary, consideration will be given to the payment of a small stipend to the teacher's wife.

I wish to thank Your Lordship for your co-operation and your efforts to make this school a success.

With further reference to your No. 204-11 of November 9th, I wish to inform you that the Bishop of Brandon has made a careful study of the educational problem on the Oak River Sioux Reserve. It is His Lordship's firm belief that the day school should be given a further trial, and the Department has agreed. It is understood, however, that Mr. Hyson, the present teacher, will be relieved of his duties as from June 30th, next.

I should be grateful if you would let me have a report concerning the advisability of fitting up the old classroom for the coming academic year. It is quite possible that the present arrangement - classes being conducted in the teacher's residence - should be discontinued.

I beg to acknowledge receipt of your letter of the 14th. instant, 133-3-1 with reference to the Oak River Day School.

I note that His Lordship, the Bishop of Brandon is of the opinion that the Day School should be given another trial, and that the Department have agreed to this. I am quite satisfied in my own mind that this school should be closed and the children of this reserve, which is more or less Anglican, should be sent to the Elkhorn School where they will get a much better training.

In view of the fact that it is very doubtful if the school will be kept open any length of time, the building of a new classroom would be a great mistake, and the old classroom you mention in your letter has been moved and converted into a storehouse for Department use, so that it is not available as a school. This building was idle for a number of years and the school authorities did not think it worth while to make use of it so the Department have taken it over.

Re:- Oak River Sioux Indian Day School.

My dear Sir:-

In reply to yours of January the 24th, I beg to state that the rooms in the Mission House at Oak River Sioux Reserve will continue to be available for school purposes.

The house is commodious, and permits of two large rooms on the ground floor, both of them well lighted and ventilated, being utilized as one for a classroom.

The use of the house also makes it easy to provide a warm mid-day meal for the scholars, thus avoiding in many cases a long walk to their respective homes between the morning and afternoon sessions.

In this connection, I trust that the Department will be able to continue the present financial arrangement, namely, an allowance of $100 per annum for the duties of janitor, and $75 per annum for fuel.

I am,

Very faithfully yours.

Right Reverend Sir,-

I beg to acknowledge receipt of Your Lordship's letter of the first instant, informing the Department that the rooms in the Mission House at Oak River Sioux Reserve will continue to be available for school purposes. We note that this house permits of two large rooms being utilized on the ground floor, both of which are well lighted and ventilated and one of which is suitable for classroom purposes.

If the services of a qualified teacher are obtained to begin duties the beginning of the next school year, on or about September 1st, 1927, the Department will allow a salary at the rate of $100.00 per teaching month, which is to include all services performed at the school. At the present time, we allow Mr. Hyson salary at the rate of $95.00 per teaching month and Mrs. Hyson an allowance of $100.00 per annum for janitor's services. Besides, the sum of $75.00 is allowed for fuel, in lieu of rent for the building. We will continue the allowance for fuel, but the salary above mentioned will include payment for the janitor's services. It is hoped that Your Lordship will be able to nominate the services of a qualified teacher for this school for the next school year. Full information should be given regarding the name, qualifications and experience of the teacher nominated by Your Lordship.

COMMISSIONER'S OFFICE,

ED REGINA, SASK., April 11th, 1927.

APR 11 1927

Dear Mr. Graham:-

I beg to submit the following report on the Oak River Sioux Indian Day School, inspected April 4th, 1927.

I arrived at the school shortly after 3 P.M., and was informed by Mr. Hyson that as there were only two children present, he had dismissed school early. A snow storm occurred in the morning and the roads were very bad; this, Mr. Hyson explained, was the causefor such a small attendance. I again visited the school on April 6th, and found six pupils present, five being there on the previous day. I will admit the weather and roads were bad, but it is impossible to educate children with such attendance.

The average attendance for January was 14.
" " " " February " 10.6
" " " " March " 14.
" " " " the quarter being 11.2

In reality, only about half the children enrolled are in attendance.

In addition to the children enrolled, there are the following who, I believe, should be sent to boarding schools if they will not attend day school:-

Viola Eastman, 8 yrs. old - 4 miles from school, never attended school.

George Williams, 12 yrs. old - never attended school. He is R.C., but does not wish to go to Lebret; asked to attend Brandon.

Albert Elk, 10 yrs. old - never attended school. Pompana boy

Pompana boy, 9 yrs. old - never attended school.

Chaska Hapa, 10 yrs. old - attended day school for a while; at present has discharge of ears.

Willie Mimie, 12 yrs. old - attendance very irregular, with the result that no education is being received.

I reported on conditions here last Fall, and with the attendance at such a low ebb during this inspection, it is impossible to state whether any progress has been made or not. However, I might add that many of the children have yet to learn to speak English, so that in view of such a condition, progress is slow. I am of the opinion that little effort is exercised, except by the Agent, in trying to secure a fair attendance. In spite of having a day school on the reserve for so many years, little progress has been made, and I have no doubt this has been partly due to the fact that the children attend very irregularly. I still feel, as I stated in my last report, that the only remedy is to close this school and send the children to boarding schools. This would entail no great hardship on the parents, as the schools are close and can be easily visited. It would allow the children to be in regular attendance, without having to endure so much cold weather with perhaps insufficient clothing and lack of proper food.

Dear Mr. Scott:

I beg to enclose herewith a report of an inspection that was made of the Oak River Indian Day School by Mr. Hamilton on the 4th of April.

You will see by the report that conditions existing at this school are not very favourable. This matter was reported to you on the occasion of the Inspector's last visit, and I have before me your letter of the 14th of January, in which you state that His Lordship, the Bishop of Brandon, is anxious to give the school another chance, which chance was given, and I cannot see anything ahead for this school under existing conditions.

With regard to the children who should be attending school, these can be made to attend by having a Policeman from Brandon take them to Elkhorn. We might warn them beforehand to bring their children to school voluntarily. If they do not do this, we can get the police.

My dear Sir:-

I beg to recommend the appointment of Deaconess Winnifred Stapleton as Teacher of the Oak River Sioux Indian Day School, in succession to Mr A.Hyson.

The Deaconess has had many years of experience in teaching Indian children, and is at present in charge of the Central Indian Day School on the Peguis Reserve.

I heartily recommend her appointment, because she is particularly efficient in the training and teaching of little children, of whom there are many on the Oak River Reserve.

I have to inform you that His Lordship the Bishop of Brandon has nominated Deaconess Winifred Stapleton as teacher of the Oak River Indian Day School for the next school year to succeed the present teacher, Mr. A. Hyson. Miss Stapleton is at present teaching at the Centre School on the Peguis Reserve, and the Department is approving of her transfer to the Oak River Sioux School to take effect at the beginning of the next school year. The salary allowed her will be at the rate of $80 per teaching month.

My dear Sir:-

I have much pleasure in informing you that Deaconess Winifred Stapleton has accepted the position of Teacher in the Oak River Day School, and will take up her new duties on the first teaching day in September.

I notice that the salary allowed her is the same as she is at present receiving, namely, $80 per teaching month.

I presume, however, that the Department will continue to allow the sum of $75 for fuel, in lieu of rent for the building. In addition to this, I would respectfully recommend that some amount be allowed for janitor's services, for the cleaning of the school-room requires considerable attention and labour.

I am,

Very sincerely yours.

Right Rev. Sir:

I have to acknowledge receipt of Your Lordship's letter of the 1st instant, relative to the salary, allowance for fuel and payment for janitor's services at the Oak River Sioux Indian Day School.

In reply I beg to say that, as stated, the salary of Deaconess Winifred Stapleton, who will take up duties at this school in September, next, will be at the rate of $80 per teaching month. The Department will continue to allow the sum of $75 for fuel in lieu of rent for the building. We are not prepared to allow any stated amount for janitor's services, but will consider the payment of accounts from time to time covering the cost of scrubbing the school. It is considered that the sweeping and dusting of the classroom should be performed by the older pupils under the direction of the teacher.

Referring to that portion of your No. 204-9 of the 29th ultimo, enclosing the report of Mr. Inspector Hamilton in which he gives a list of the children who do not attend the Oak River Indian Day School, I beg to say it is considered that steps should be taken to have them placed in residential schools. It is noted by the return received from the teacher for the quarter ended June 30th that the names of these children do not appear thereon.

You may arrange to have the children mentioned placed in the respective residential schools to which their parents desire to have them sent. We note that of the number stated by the Inspector, seven wish to send their children to Brandon, one to Birtle and that two are Roman Catholic. I shall be pleased if you will take the necessary action in having the children referred to placed in residential schools after the summer holidays.

Sir:

I have your No. 204-11 of the 21st instant, relative to the request of the newly appointed teacher of the Oak River Indian Day School that the sum of $100 per year be allowed Miss Lena Wilkins to act as school janitor. At the time Miss Stapleton was appointed, His Lordship the Bishop of Brandon was informed that the Department would continue to allow the sum of $75 per annum for fuel in lieu of rent for the building, but that we were not prepared to allow any stated amount for janitor services but would consider the payment of accounts from time to time covering the cost of scrubbing the school. It was considered that the sweeping and dusting of the classroom should be performed by the older pupils under the direction of the teacher.

Relative to the irregular attendance, I would refer you to official letter of July 9th, last, regarding the report of Mr. Inspector Hamilton, in which he gave a list of the children who did not attend, and requesting you to arrange to have them placed in the respective residential schools of the religion to which they belong and to which their parents desire to have them sent. If these children do not attend the day school regularly after the parents have received due notice, steps might then be taken to have them placed in residential schools.

Inspector Murison's Report on Oak River Day School

Dear Mr. Graham:-

I beg to report that I visited the Oak River Day School on April 4th., and found 14 pupils in attendance - 6 boys and 8 girls, out of an enrolment of 30. The bad state of the roads through the snow thawing makes it impossible for some of the children to attend until the water subsides. The average attendance for the March quarter was 16.2. The pupils were tidily clean, and were warmly clad. They presented a healthy appearance, and I am informed that there was little sickness there during the past winter. The pupils enrolled are all under the age of 16 years. Miss Stapleton, a Deaconess of the Anglican Church, is in charge as teacher, and is assisted by Miss Watkins, who attends to keeping the school clean and preparing the midday meal. It is Miss Stapleton's policy to send the children on to a Residential School when they have attained the age of 16 years, and to operate the Day School as a preparatory school. The classes are held in two rooms connected with an arch. I noted that the ventilation was very good, but this

will be better when the storm windows are removed. For recreation the children are provided with swings and a football. During the winter months sleighs are provided for coasting.

Miss Stapleton appears to be getting along very well with the Indians on the Reserve, and I consider that her influence among them is excellent. Church services are conducted by her on Sundays, and the men gather during the week in the basement of the church for a social evening, when they are given a talk by the teacher.

The building in which school is held is the property of the Anglican Church.

Inspector Hamilton's Report on Oak River Day School, Griswold Agency.

Dear Mr. Graham:-

I beg to submit the following report on the Oak River Day School, inspected on December 11th, 1930.

There is no school building at this point, and the classroom work is carried on in the Missionary's house. The room used is not suitable as the lighting is poor, and ventilation bad.

The roll calls for 24 pupils - 12 boys and 12 girls, and I found 12 children present. The attendance is irregular, and I noticed that some of the pupils were very late. The average for September was 11, for October 10, and for November 12. The grades are arranged as follows:-

Grade	I	- 16
"	II	- 4
"	III	- 4

This is the first time I have visited this school since Miss Stapleton took charge, and undoubtedly some progress has been made. The children read fairly well, and their book work was tidy and clean. The children sing a number of songs, and are much brighter and more alert than when last inspected. If the pupils could be made to attend more regularly, I believe progress could be accomplished.

The children are made to wash on arrival, and also before lunch is served at noon. They were clean and

clean and tidy in appearance.

A noon-day meal of porridge, cocoa, and biscuits is provided for the children. I noticed they are not fond of the porridge, and I think if vegetable soup could be substituted for the porridge, it would be appreciated.

At present there are a number of children who attend school very irregularly, while others are not even enrolled. I doubt if these children can be recruited for Elkhorn or Lebret without police assistance. I talked to most of the parents, and in the majority of cases they expressed willingness to send the children to Brandon. These Indians often drive to Brandon, and could no doubt more often see their children if enrolled there. The fact that they are not allowed to send the children to Brandon makes them more determined not to allow them to attend any boarding school. Some of the children have long distances to come, and will never be regular attendants at day school. The following is a list of the children and their ages as near as I could obtain:-

Oak River Reserve.

	Louis Tacan	June 5th, 1917.
	Alfred Tacan	May 5th, 1919.
	Norris Tacan	Dec. 3rd, 1921.

Dear Mr. Scott:-

I am enclosing herewith a report of an inspection at the Oak River Day School, which was made by Mr. Hamilton on December 11th.

You will note that the register at this school calls for a pupilage of 24, but that the average attendance is between 11 and 12. It seems to me that if this does not improve we should take steps to send the Protestant children from this reserve either to Elkhorn or Brandon, and the Roman Catholic children to Lebret. There is accommodation at all these schools, and I do not see why this condition should be allowed to exist on the reserve. I am writing to the Agent, instructing him to see these Indians at once and advise them that if there is no improvement in the attendance of their children at Day School they will be sent to Boarding School.

The classroom work carried on here appears to be satisfactory.

Re:-Oak River Indian Day School.Griswold.

My dear Sir:-

I regret to inform you that Deaconess Stapleton,Teacher at the above School,has been a victim of typhoid fever,and that Dr Purdie, of Griswold,advises a period of rest and recuperation before she resumes her duties.

I visited the Reserve yesterday,and found that the School has been faithfully carried on,during the illness of the Deaconess,by her Assistant,Miss L. Wilkins,and I now beg to recommend that she be officially recognized as substitute Teacher until Deaconess Stalpeton is able to return.

Miss Wilkins is a thoroughly capable woman, and was a former member of the Staff of the Lac la Ronge Indian Residential School.

I am,

Very faithfully yours.

Right Reverend Sir:

I have Your Lordship's letter of the first instant, informing the Department of the illness of Deaconess Stapleton, teacher of the Oak River Indian Day School. It is noted that Miss Stapleton will require a rest from her duties in order that she can recuperate.

The Department has approved of leave of absence for Miss Stapleton and will allow her salary until April 30th, next. Approval is granted for Miss Wilkins, who has acted as janitor and assistant, to perform the duties as teacher during the absence of Miss Stapleton. We were informed that the arrangements for the carrying on of the work by Miss Wilkins were made by Miss Stapleton, and, as our funds this year are extremely limited, there will be no increase in salary to Miss Wilkins for the period she acts as substitute teacher. It is understood that, besides the teaching duties, she will continue her work as janitor and preparing and serving the pupils' midday lunch.

Sir:-

I am enclosing herewith a report on the Oak River Indian Day School by W. R. Beveridge, Provincial School Inspector.

The Department will note the number of children enrolled as being 12, and that the average attendance for September was 5.71 and for October 7.33. As the Elkhorn and Brandon Residential Schools are located in close proximity to this reserve, there has always been a question in my mind as to whether this day school should be continued. In my report of November 4th, 1926, I pointed out the difficulties experienced in obtaining regular attendance, and suggested that the pupils would no doubt obtain a better education if transferred to one of the boarding schools. I am still of the same opinion. It will be noted that Mr. Beveridge states the pupils' success is "Fair", and in the general remarks he points out that the school has lost some ground during the past year, possibly due to the absence of the regular teacher. It will also be noted that the regular teacher in her qualifications does not state any standing or normal training, although she has a number of years teaching experience.

Right Rev. Sir:

The Department has received the report of the Provincial School Inspector on his recent inspection of the Oak River Indian Day School. The enrolment at this school is twelve pupils only. The average attendance for September was 5.71 and for October 7.33 pupils. As the Elkhorn Residential School is located near this Reserve, it is doubtful whether the day school should be continued; the pupils being placed in the residential school. There has been difficulty in obtaining a regular attendance, and it is considered that the children would, no doubt, obtain a better education if transferred to a residential school. The Inspector points out that the school lost some ground during the past year, possibly due to the absence of the regular teacher.

I am forwarding the above information for Your Lordship's consideration, and should be pleased to have your views as to the closing of this school as from the end of the present school year - June 30, 1933, and the placing of the children in the Elkhorn School.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

Sir:-

With further reference to your letter 133-3-1 dated December 21st, I note that the matter of closing the Oak River Day School has been referred to His Lordship, the Bishop of Brandon. The average attendance for the month of January was reported to be 7.5, which is no improvement over the month of December.

I shall be glad to be advised if any understanding has been arrived at between the Department and the Church authorities.

(4) Unquestionably, the teacher, Deaconess Stapleton, is held in high esteem and affection by the people. Last year, owing to her enforced absence from the school through an attack of typhoid fever, progress was much hindered, but she has now fully recovered. In addition to her teaching duties, her voluntary ministrations as a qualified Nurse increases the bond between herself and the people and, should the school close, the Reserve will lose one whose work and influence is a potent factor in the harmony of the place. For twenty-three years she has worked amongst our Indians in the West and is regarded by all as one of their best friends.

These, I think, are the main features to be considered in the case, and while I fully recognize the necessity upon the Department, in these difficult times, to effect economy in every possible direction, yet I recommend and urge that the work at the Oak River Day School be permitted to continue, even though it may have to be done at a further reduced salary. I am confident from all I can gather that the closing of the School would re-act most detrimentally upon the Indians on the Reserve, and I earnestly hope in their behalf that the Department will not find it necessary to take the proposed step.

I am,

Faithfully yours.

Re:- Oak River Indian Day School.

My dear Sir:-

I regret the delay in replying to yours of December 21st regarding the proposal to close the above Indian Day School at the end of June.

The whole subject bears so vitally on the well-being of the Reserve and the contentment of its people,that I felt it was most desirable for me to confer with the Agent,the teacher,and some of the leading members of the Band,before attempting to give my considered opinion on the proposal made. I was able during the past week to visit the Reserve and now respectfully submit the main features of the case for your consideration.

(1)There are 82 children on the Reserve at this date,and of this number-

12 are on the School Roll.
7 are of school age and will shortly attend.
9 will reach school age next year.
7 in the year following.
47 younger children of ages between infancy and five years.

(2)The average attendance during the past few months has been only a fraction over five,but it is generally acknowledged that this is due to the exceptionally severe winter we have had in the West. Some of the children living at a distance of two miles and more from the School.

(3)There is,I find,an antipathy on the part of the parents to send their children to the Residential Schools before they have reached at least the age of 10,except in the cases of orphans and children in destitute homes.

Right Reverend Sir:

I have Your Lordship's letter of the 6th instant, regarding the proposal to close the Oak River Indian Day School at the end of the present school year, June 30th, next. In this connection I have to advise that the Department is making further enquiry. When the report asked for is received, a definite decision will be given in the matter and you will be advised.

Ottawa, March 13, 1933.

Sir:

I enclose herewith, for your information, extract from a communication received from His Lordship the Bishop of Brandon, with reference to the matter of closing the Oak River Indian Day School at the end of the present school year.

In this connection I would refer you to your No. 204-11 of December 6, 1932, and February 21st, last. I would request that, after fully considering His Lordship's report and opinion in the matter, you will advise the Department whether you would recommend the continuing of the school or not. No doubt, if the Indian parents were informed that, if their children did not attend the day school regularly, they would be placed in the Elkhorn Residential School and the day school closed, this might lead to a larger and more regular attendance.

Before definitely deciding whether this school is to be continued or not, the Department will await your views, after considering His Lordship's report. In the meantime, His Lordship is being informed that the Department is making further enquiry.

Your obedienr servant,

Encl.

Dear Sir,

I have the honor to inform you that with reference to the enclosed Quarterly School Return I see that Mr Hyson has put the Government grant toward the Teachers Salary as $ 240-00 wheras your letter No I33-3-I dated August I4th I9I2 states that Mr Hyson's Salary will be $ 800-00 per year, if there has been any raise since that date I have not heard of it.

There were a few of the School Children had bad colds and one was very ill with pneumonia.

Sir,-

In reply to your letter of the 31st ultimo, I beg to say that the salary of Mr. Hyson, teacher of the Oak River Indian Day School, who began duties at this school on September 1st, last, is $800.00 a year.

As there are ten teaching months in the year, Mr. Hyson was paid 1/10 of his yearly salary for the month of September, or, $80.00, and 3/10 of his yearly salary, or, $240.00 for the December quarter.

For your information I may say that, commencing with September 1, 1923, all teachers of Indian day schools will be paid in the same manner.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

Sir:

Referring to official letter of the 15th ultimo, I beg to inform you that His Lordship the Bishop of Brandon has nominated the services of Deaconess Winifred Stapleton as teacher of the Oak River Sioux Indian Day School to succeed Mr. A. Hyson. Miss Stapleton is at present teacher in an Indian school on the Peguis Reserve. The Department is approving of her transfer to the Oak River Sioux Indian Day School to begin duties when the school reopens after the summer holidays, on or about September 1st, next. The salary that will be allowed her is at the rate of $30 per teaching month.

I shall be pleased if you will give Miss Stapleton every assistance you can when she takes up duties at this school.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

F. J. Clarke, Esq.,
Indian Agent,

E X T R A C T from Indian Agent Clarke's Report for the Month of January, 1932, regarding the OAK RIVER SIOUX INDIAN DAY SCHOOL.

Original on File 133-3-7.

The school was closed one week from 4th to 10th January, owing to Miss Stapleton being laid up with an attack of Typhoid Fever and schoolroom was fumigated and scrubbed out during this week. School room opened on the 11th and Miss Wilkins substituted Miss Stapleton as teacher for remainder of month and Miss Lauder is substituting Miss Wilkins as janitor.

On advice from her doctor, Miss Stapleton is contemplating taking a trip and her partner Miss Wilkins, is willing to carry out her duties whilst she is away.

Ottawa, February 5, 1932.

Right Reverend Sir:

I have Your Lordship's letter of the first instant, informing the Department of the illness of Deaconess Stapleton, teacher of the Oak River Indian Day School. It is noted that Miss Stapleton will require a rest from her duties in order that she can recuperate.

Mrs S to be allowed salary to April 30/32

The Department has approved of leave of absence for Miss Stapleton and will allow her salary until April 30th, next. Approval is granted for Miss Wilkins, who has acted as janitor and assistant, to perform the duties as teacher during the absence of Miss Stapleton. We were informed that the arrangements for the carrying on of the work by Miss Wilkins were made by Miss Stapleton, and, as our funds this year are extremely limited, there will be no increase in salary to Miss Wilkins for the period she acts as substitute teacher. It is understood that, besides the teaching duties, she will continue her work as janitor and preparing and serving the pupils' midday lunch.

I have the honour to be,
Right Reverend Sir,
Your obedient servant,

Russell T. Ferrier

I have the honour to acknowledge the receipt of your letter of the 30th ultimo, relative to the new building required for the Oak River Sioux school; and in reply, to enclose herewith plans of a building which have been generally used in all erections where timber could be had.

Owing however to the scarcity of suitable logs in that vicinity, the structure would require to be a frame one, sheeted outside, and clapboarded, with tarred paper between, plastered or ceiled inside, no upstairs ceiling overhead to be used to rafters; roof to be of good shingles, shingled, with tar paper between.

A building like this can be put up for $500.00.

Your obedient Servant

H. A. Hayter

MEMORANDUM

To The Deputy Superintendent General of Indian Affairs,

Ottawa, 16 May 1892

Re. Matter of Plans & specifications of School Buildings Oak River Sioux & Comparison with Plans &c of Plans sent from Dept for several School Buildings

I have examined the plans & specifications of the school houses sent here by Dr. Common Oak River Reed and consider them very good for small schools — These buildings would accommodate 27 Children each - The children of the Oak River School number is. on roll — 17 - & the attendance only 7.76 - The present old log building could properly speaking only have space for 9 children —

The cost of the school appears high averaging 9½ Cents per foot of course in certain places out west it is difficult to get lumber & other material without paying a high price for it. At a rough estimate I think 7½ Cents per cubic foot should build these schools or $343.20 for the structure B

As regards the comparison of the Plans I would state that the school Plans &c prepared in the Dept. were done so with the view to economy as well as to give a much better structure than generally built in the Interior portions of the Country and along the Rainy river.

Dr. McCallum

his Report 1891. "I would recommend the more substantial & "comfortable furnished with all modern conveniences "to substituted in their places" (referring to the "School Houses) "whenever the attendance "justify the Dept. in incurring the expense of it"

MEMORANDUM. Immediate

To the Acting Deputy Minister — Department of Indian Affairs.

Ottawa, 15 June — 1892

Re. Oak River School House (Sioux) } Shg to state that for the Construction of the stone school four tenders have been sent in Ranging from 595.00 with stone foundations & 850.00 and from 555.50 with block or pole foundations to 800.00

The lowest of Jas. B. Pentland 595.00 stone & 555.50 pole or block foundations being the lowest

Mr. Hayter Reed's estimate for the building is $500.00 Please see his letter turned down — In my check estimate for the building I considered such a building as specified should be done for about $360 without stone foundations being about 7½ cts per foot of course this does not allow any thing as regards profit on the work being only the actual cost of the structure —

The lowest estimate being $595.00 with stone foundations, the tenderer would evidently be well paid for his work & make a good profit.

Please write the Indian Agent N.W.T.S. and ask him the good enough to give the Dept. his opinion of the Lowest tender sent in i.e. W. Rentlands' - also ask if the building could be put on blocks instead of having a stone foundation — there is nothing mentioned in the specification about foundations - Nor anything definite in his letter of 10th Inst —— The approximate estimate made in the Dept. was say $350. for the structure and ask if other tenders were called ~~did he think~~ was he of opinion that lower tenders would be rec'd. or did he think the lowest tender i.e. Rentlands' a fair price for the structure and if so the work had better be proceeded with at once - and the contract papers and bonds had better be made out.

WRITTEN

Dear Sir,

I beg to acknowledge the receipt of your letter, 2147, of the 17th inst., enclosing the result of the invitation to tender for the erection of the schoolhouse on the Gaick Indian Res.

The lowest tender appears to be that of C. A. Rutland, at $395.50 for Okanese, and $350.00 for Red Pheasant.

Your recommendation according the lowest tender states: "The Agent seems of the opinion that the nature of the work requires such limitation as is intended by the

2nd The tenders having been examined are thought to be high. The estimate which was made in the Dept of a Structure similar to the Contractors Experience $300.00, & our own estimate $500.00, would, probably, cover the whole cost.

With the Hon't consent I will say further that $2,000 intended for the Bridge at $2,500.00 and $3,500.00 are reasonable, in which case it would be really wrong while to adopt new tenders.

In any case it would appear that returning the to some Competent

With reference to Departments letter of the 20th inst relative to the Leader pasture for the erection of a Schoolhouse on the Qu'Appelle River Reserve.

I have the honor to state that I am of opinion that nothing would be gained by asking for new Tenders, as Mr Pinkham offers to complete the building for $595.50 with a stone foundation, and $555.50 with wooden sills, are as low as can be obtained from a contractor in this country. My estimate of $500 was intended to cover material, and such work as could not be done by the Farmer and Indians, ~~and labour~~

Estimates

Dear Sir;-

For your information there was an item of 600 lbs of Biscuits for Day School inserted in 1934-35 Estimates . And I beg to advise this item will not be required as I have enough now on hand from last year to carry us through this fiscal year. This was owing to such a small enrollment of day pupils at the Day School.this term. And the item may be cut off,

I have the honour to be,Sir,

Dear Sir,

The class-room work on Oak River Reserve is carried on in a room in the mission house.

The teacher wishes the school-room repaired and states it will cost $23.00. The plaster is broken and V-joint is required half way up on the walls.

In view of the small expense for upkeep at this point, I would recommend the amount be allowed. I would also recommend a further expenditure of $5.00 for painting.

Yours truly,

A. G. Hamilton

I make a special appeal that a child last until the supplied as this year there had neither breads been used given with their mid day meal. Which seemed rightly an unnecessary hardship, - with so much wheat in the country to turn a deaf ear to the children's pleas - that I give them bread with their soup (or porridge or rice,) when the Government provided more this past year neither these usual luxuries ever bread to take its place. -

Extract from Inspector Clarence Moore's report on the Oak River Indian Day School visited on November 20, 1944.

The school room is in the residence. I would suggest that the lighting system be checked over. More, and stronger lights are needed, and several minor repairs to the floor and verandah are now necessary.

In reporting on his inspection of the Oak River School Inspector Moore states that the room used in the residence for school purposes is insufficiently lighted. He recommends that more and stronger lights be installed and that minor repairs to the floor and verandah be made. I should appreciate a report from you regarding these suggestions and indicating the expenditure that would be necessary to carry them out.

Griswold Agency,

Indian Affairs Branch, Dept.of Mines & Resources,Ottawa.

Re your letter 133-3-5 re Oak River Indian Day School:

This classroom is located in one room of the Anglican Manse on this Reserve.The church have their own private lighting system,which consists of a six volt storage battery and a small wind generator.I therefore do not feel that it is our place to interfere with the plans of this classroom or their own private lighting system.

The day Inspector Moore visited this school happened to be a dark,foggy day.Miss Smears,the teacher claims that under ordinary conditions the light which comes in through the windows is quite satisfactory.

I feel that what we really need is to build our own separate day school,but until this can be done,a few repairs are needed,as follows:

OK

Covering for hall floor leading into classroom:
The app.cost of good grade of linoleum $18.00

One Blackboard and easel app.cost 18.00

The verandah step needs only minor repairs and we can do that work ourselves.The labourer here could lay the linoleum.

With reference to requisition for supplies of the 10th instant for Oak River School, biscuits have already been ordered and should reach you in the near future.

With the payment of Family Allowances, it can be reasonably expected that the Indian Children should benefit by having better meals and consequently it should not be necessary to supply as much lunch as we have in the past. However, you may expend an amount of $25.00 during the current academic year for the purchase of materials required for hot drinks.

The purchase of the following supplies is also approved:

10 Pkgs. Sewing needles

HOUSE OF COMMONS
C a n a d a

Ottawa, February 17, 1947.

Honourable J. A. Glen, P.C., M.P.,
Minister of Mines and Resources,
O t t a w a.

Dear Mr. Glen:

During the recess I left with Canon I. A. Norris, of Brandon, the reports of the meetings of the Committee on Indian Affairs. He had not had the opportunity previously of reading these reports and some other literature.

Canon Norris has now returned them to me and in an accompanying letter he refers to the handicap under which the Mission at Griswold Reserve is working as a result of there being no school building on the Reserve. As it is, they are using a small room in the Mission House. I visited the Reserve in October last and was in this room which is much too small and altogether inadequate. It was merely a sort of excuse for a school.

Canon Norris urges that some provision be made in this regard and he suggests that possibly a building could be secured and moved to the Reserve from the airport at North Brandon or from Souris. Personally I think the suggestion would be well worth considering.

The buildings at the Brandon airport were for quite a while under the disposal of the Central Housing and Mortgage Company but I understand they are now turned back to War Assets. The buildings at Souris were taken over by the Province, it having first priority after the Depts.

When you are less rushed than you are at present, if that time should ever occur, I will be glad to discuss this matter personally.

Yours sincerely,

J. E. Matthews, M.P.

I wish to acknowledge your letter together with a copy of one from Mr. J. A. Matthews, M.P., Gimli. For your information I attach a copy of a letter from - Mr. Young concerning this matter.

I agree with Mr. Matthews and with Mr. Young that provision should be made, without delay, for a Day School on the Oak River Reserve. I think it would be difficult to move a suitable building such a long distance and, of course, the ferry service over the Assiniboine River presents a real obstacle. I think Mr. Young is right when he says the building would have to be dismantled.

I recommend that tenders be called for the erection of a Day School and that the idea of moving an old building be discarded.

Dear Ben:

I have for acknowledgment your letter of February 17, concerning the educational facilities on the Griswold Reserve.

It is our intention to build a number of Indian day schools and teachers' residences in Manitoba during the 1947-48 fiscal year. I have written to Mr. A. G. Hamilton, Inspector of Indian Agencies for Manitoba, concerning your proposal that we might move one of the former R.C.A.F. buildings at Brandon to the reserve for use as a school. You will be interested to know that at Brantford we are now using three former army buildings as schools and that they have proved very satisfactory.

However, the main difficulty according to Mr. Hamilton would be that the buildings would have to be moved through one of the Assiniboine bridges. Unfortunately, these bridges are overhead structures and would not permit a building of any height or size to be moved through them. Therefore it would be necessary to dismantle and rebuild the entire structure. As we would have also the additional expense of excavating the basement, putting in cement foundations, erecting the chimney, etc., it is unlikely that we would save much money or have a sound building in this event.

The building situation will largely determine the locations of the schools to be built this year in Manitoba. There are many places in urgent need of such day schools and

Dear Mr. Matthews,

I am much obliged for your kind letter of the 15th instant, and hasten to say that I am already in receipt of the reports of the Committee held during this session. However I should be grateful to receive a copy of the Indian Act in order that I may get acquainted with the affairs of the Indian, and be in a better position to advise them.

I was very pleased to note in your report about the need of a school on the Reserve, and I sincerely hope the Dept. will make a good effort to build it this year. For really it is impossible to continue the school in my house. At present we have 19 pupils crowded in one room, and we have had 21 which meant that I had to use a part of my dining room to accommodate them. The smell of the children has just about sickened us all when the house has been warm, and it is very embarrassing when entertaining our guests. I also note from past records that the Dept. have not made any provision to provide sanitary arrangements for the children, and every year this has come out of our Mission funds. Just now both conveniences are in a dilapidated condition, and really unfit to be used but I have no funds available to meet this expense.

This letter is not meant to take the form of a complaint, but a bare statement of facts which I feel you will be interested to have in your hand as a support of any motion you might make to the Dept. for the erection of a school.

Re your letter 133-3-5 (WT) dated April 25th re Oak River Day School toilets:

Prior to receiving your letter, Dr. Purdie had inspected these toilets, and advised me that they needed to be moved to new cribbed pits.

This work was done by the labourer here. The toilets were moved, placed on 8 foot cribbed pits, doors repaired, etc. I feel that they are now satisfactory.

I had Dr. Purdie inspect these toilets on May 1st, and I enclose his report. I will supply the lime, etc. as required.

In view of this work already being done, and that these toilets are on the Anglican Mission property, do you feel that we should still construct new toilets?

Dear Mr Neary;

I am instructed by the Executive Committee of the Diocese of Brandon to make application to the Indian Dept for certain assistance in regard to the Oak River School at Griswold.

About a year ago the well at the school was condemned. As we were unable at that time to obtain help in digging a new well we have been forced to obtain our water at the Agency. This is most unsatisfactory not only because it is at some distance from the school but also because if the Agent is away we sometimes had to leave the children without water.

We have now obtained an expert to digg a new well and the work is in progress. Our Executive feel however that it is hardly fair to expect to Church to assume all the responsibility for the maintenance of the school particularly as we have already expended just over $500.00 in the last year in insulation and new roofing. We therefore request that your Dept should aid us in this latest expense and assume the cost of providing water for the school.

As you are aware, we have for years provided the accomodation for the school and have never received any rent for the same or any help towards its upkeep, we therefore feel that we are not asking anything out of the way, particularly as it is certainly the responsibility of the Indian Dept to see that the children at school have sufficient and good drinking water.

Trusting that this matter will receive your prompt attention,

Yours sincerely,

The attached letter has been received from the Secretary-Treasurer of the Diocese of Brandon.

I understand that there is a contractor in the vicinity who might be interested in building a school in this area. In view of the difficulty that we are experiencing in building schools elsewhere, it is possible that you might consider changing from the erection of a school, for example, at Nelson House, to the erection of a school at Oak River. At least at the latter place we have the possibility of having a building erected. We would appreciate hearing further from you in this regard, with a definite recommendation as to whether we should shift our building plans.

I have studied the plans for the school at Oak River. I am not in a position to give a tender on a complete job as I cannot get materials. I will do the work under the following conditions:

1. Rate of wages for myself - $1.25 per hour. Rate for my assistant J. Smalle - $1.00 per hour. Rate of wages for - H. Oakley - .75¢ per hour. Rate of wages for Indian labour may run from .60¢ to .70¢ an hour.

2. Permission to use labourer's house, which now is vacant.

3. Wish permission to work a ten hour day - if conditions and weather permits.

4. If cement and material for cribbing is made available before the end of August I will proceed with the basement at the beginning of September.

After I have completed the basement I will be obliged to return home to do certain work but will return as soon as possible and if materials are available I am confident the building can be completed by December 31st. I have a small power saw which is of great assistance. A cement mixer will be available for the foundation wall.

I will keep time sheets and submit same to the Agent. If possible I would request payment on the 15th and the end of each month as my men will require their wages. I must be advised at once if the Department wish me to proceed with the work.

I contacted Mr. John Robertson of Kenton to find out if he could undertake building the school. He stated he might be available in September but before making a decision he wishes to know the following:

(1) The type of school. If possible he would like to obtain a plan.

(2) Will the material be purchased by Ottawa?

(3) Does Ottawa wish the work done by day labour or do they wish a tender on a complete labour job?

I doubt if Mr. Robertson will undertake to supply the material but he might consent to give a contract price on the labour.

Please reply at your earliest convenience.

Dear Mr. Neary:

Replying to your letter of July 4th regarding the well on the Sioux Indian Mission at Griswold, Man., I quite understand the question of this well connects in with the new school but we could not wait, as both our Missionaries and the children were without water. We have, therefore, had the new well dug at a cost of approximately $160.00. We, of course, will pay for this but I still feel that your Department should be responsible for part of the cost, regardless of whether another well will have to be dug for the new school.

We feel that the Church has carried a very large part of the expense of keeping the school open for many years past, and that we are not asking anything out of the way in suggesting that your Department share some of these expenses with us.

I would very much like to discuss both this and other matters with Inspector Hamilton, whom I have never yet met, and I would be grateful if you might suggest to him that we should arrange a meeting when next he is in Brandon.

Yours sincerely,

Secretary-Treasurer.

Dear Mr. Norris:-

We have your letter of the 5th instant with reference to the new well that has been provided at the Sioux Indian Mission.

I understand that the water from this well will be available for pupils and staff of the Oak River day school and we are prepared to pay half the cost.

Please forward a receipted account from the person who dug the well. This account should show that the total cost of the well was $160.00. When we receive this, we can arrange for a refund of $80. to you.

Yours sincerely,

Bernard F. Neary

I enclose copy of a letter from J. Robertson, Benton, Manitoba. I know Mr. Robertson and Mr. Smellie both are good carpenters and fairly fast workers. The rate of wages are reasonable and no request was made for extra pay in connection with overtime. Mr. Robertson stated he would put the basement wall in and then he had work to do at home in connection with extracting honey. As soon as this work was completed he would continue with building the school.

He and his men wish permission to cook and sleep in the labourer's house which, at present, is vacant.

I attach a sketch of the grounds at the Griswold Agency. If we can build on location No. 1 that would be my choice. It is on a higher elevation than the Mission or Agency and not too far from the Mission well. Does the Department know how much land belongs to the Mission? If not possible to obtain location No. 1 then we can hardly do otherwise than take location No. 2, which, in my opinion, places the buildings rather close together.

After the location is approved and if the Department decide to proceed, Mr. Young should be given an accountable advance to pay for gravel or excavation work. An advance of $500.00 would, no doubt, be sufficient for a start. Mr. Robertson is prepared to stake out the basement as soon as the location is picked.

What direction does the Department wish the front of the school to face? It is necessary to know which direction the classroom windows should face so that the best light be obtained for the children.

If the work is to proceed then cement and crib material should be ordered for immediate delivery. The balance of the material could arrive any time shortly after September 15th. Please advise the Department's decision and if acceptable advise -

1. Re location and land owned by Church of England
2. How the building should be set for light
3. Who will supply the cement and lumber for cribbing and when it can be expected.

It is my intention to get the basement in as soon as possible and, no doubt, cement will be difficult to get.

Oak River Indian Day School

Upon receipt of your letter of August 14th, we requested authority from the Deputy Minister for the hiring of Mr. Robertson and Mr. Smalle, at the rates requested in their tender of August 12th.

We will advise you as soon as possible when this approval has been received. There is no reason why he and his men cannot use the labourer's house as requested.

With reference to the location, I would suggest that you contact Mr. Gow and request that he have one of his officials run down to Griswold to decide which is the better site. It would seem preferable that we use location No. 1. Mr. Gow will advise you as to the direction which the school should face. We will order the cement and cribbing material as soon as we hear from the Minister's office. Could you please advise by telegram of the address we should place on the purchase orders for these materials.

It is presumed that the land in location No. 1 is owned by the Church of England. Would you please contact the Rev. Canon Norris at the Diocese of Brandon regarding this land to ascertain their willingness to sell it to the Department.

Please find attached copy of a memorandum which we are forwarded to the Surveys and Engineering Branch requesting one of their Winnipeg officials to proceed to the proposed site of the school to advise on its definite location. I would suggest that you show this memorandum to Mr. Gow so that he might expedite a visit of one of his officials to Oak River.

Re: Oak River Indian Day School

In our estimates for 1947-48 is included the sum of $8,000. for new day school at Nelson House. Because of the inaccessibility of this school, we have been unable to interest contractors or carpenters to undertake its construction.

However, we have been able to interest two carpenters in the construction of a similar school for us at Oak River in the Griswold Agency. Therefore, it has been decided to delay the construction of the Nelson House School and to request that the funds in this vote be transferred for the purposes of erecting a school at Oak River.

Would you please request by air mail that one of your officials in Winnipeg proceed to the proposed site of the school to do the necessary location work. Mr. Hamilton is fully aware of our plans and no doubt has already spoken to Mr. Gow concerning them.

Re: Oak River Indian Day School.

We have been having considerable difficulty in having contractors bid for the construction of our much-needed day [redacted].

Mr. Matthews, M.P., has requested consideration for the construction of a day school at Oak River in the Griswold Agency. At the present time we have a temporary school being conducted in the parlour of the local Church of England missionary's house. This is now seriously overcrowded and unsatisfactory. It is recommended that we proceed with the construction of a school at this point, rather than at Nelson House where one was requested in our 1947-48 estimates. At this latter point we have been unable to interest anyone in the building of a school.

Inspector Hamilton has been able to interest two carpenters in the construction of this building on a day labour basis. Please find attached a tender which has been received from Mr. John Robertson of Kenton, Manitoba, in this regard.

It would be appreciated if you would grant your approval for the acceptance of this tender so that the necessary steps can be taken to have this building constructed before the cold weather sets in.

Re: School, Oak River Reserve, Griswold Agency

Mr. Gow arranged for one of his men to accompany me to Griswold Agency to make a selection of a site for the new school. Attached is a report. You will note preference is given to Location No. 1.

I called on His Lordship, Bishop Thomas, of Brandon, and in searching his records he found that in August of 1905 permission was given to occupy three acres on Section 23, sub-division 15, on the South West corner for church purposes. This letter was signed by J.B. Lush, Secretary to the Indian Commission. Mr. Young and I made a careful check of the maps of the Reserve. We are convinced that the three acres is a portion of the 40 acres known as Agency property. Therefore, the site desired is legally Agency property. I might just add that Bishop Thomas and also Canon Norris were very pleased that the school was to be built and stated that if the land belonged to them it would be quite in order to proceed with the building and there would be no charge for the land. In view of this information I arranged with Mr. J. Lenbow, Brandon, to start next week digging the basement and we expect the work to be completed by September 6th.

In order that there would be no delay in the program, I called at Wades Lumber Company, Brandon, and the Monarch Lumber Company, only to find that they were both out of shiplap and 2 X 4 dimension. In searching about I found that the Beresford Lumber Company had just received a carload of this material. Mr. Kitchen, the manager, agreed to supply our requirements and I placed an order for the necessary dimension and shiplap. Mr. Young is arranging for the delivery. I was unable to see Mr. Robertson, builder, but Mr. Young will contact him and arrange to have the basement staked ready to be excavated next week. I also instructed Mr. Young to arrange for the immediate delivery of the gravel. I expect by the end of next week the basement will be dug, the cribbing lumber on the site and also the gravel and nails, with the exception of shingle nails.

Please advise if the Department has arranged for the purchase of the necessary baling wire used in tying the cribwork. Also, have they included in their purchase the iron rods necessary for reinforcement. I understand from Mr. Van Every, Ashdowns, that No. 10 Gauge wire will be available Tuesday, September 2nd. He states that half inch round iron bars 16 feet long for reinforcing are also available. If these have not been included in material already purchased, may I have authority to place the order at once? I would also like to point out that the material for the floor joists should be on before starting to pour the cement as the ends will be embedded in the cement wall. Please advise if these have been ordered and if delivery is possible within the next 10 days or two weeks. The above lumber is available at present at the Beresford Lumber Company in Brandon.

Re: School, Oak River Reserve, Griswold

Further to my letter of August 30th, I wish to state that Mr. Robertson, the contractor, called at my home yesterday to discuss the location and other matters relating to the building. We expect the excavating to be completed by September 6th and plan on building the cribwork the following week. Please advise re the following:

1. Baling Wire for tying cribwork. May this be purchased locally?

2. Reinforcement iron rods available at Ashdowns. May this be purchased?

3. Coal chute must be built in with cribwork. Is this to be a local purchase?

4. Is hot air plant or hot water plant to be used? Recommend hot water. The Department's decision concerning this matter is needed.

5. May coal bin under kitchen be made into a cistern for soft water? The cistern is really essential and I would recommend that the abovementioned space be used for this purpose.

6. Is basement window and frame a complete unit? If so, give size of opening required in the foundation to receive the above frame.

The above information is urgently needed because frames must be built in with the cribwork. Immediate reply by airmail with definite instructions will be greatly appreciated.

Re:- Griswold Indian Reserve.

On August 28 last, I accompanied Mr. A. C. Hamilton, Inspector of Indian Agencies at Winnipeg, to the Griswold Indian Reservation to decide upon a location for the proposed Indian School at that point.

Two locations were under consideration - one between the Church buildings and the Agency Office and the other on a flat knoll, somewhat to the rear or west of the existing buildings. In my opinion, the latter location is the more suitable of the two sites in view of good drainage for both building and playground. This site provides for a larger playground and is more isolated from existing buildings yet equally close to the water supply well as is the alternative location. Furthermore, the location decided on will permit the appearance of the building to be set to advantage.

Re: New School Oak River Reserve, Griswold Agency

I have just returned from the Griswold Agency and wish to advise the Department that the crib work for the foundation will be completed within the next two or three days and we hope to have the cement wall completed by September 25th.

I would like to be advised if the material required to complete the building has been purchased and to know who received the order and when we can expect delivery. I am anxious that the material will be on hand when the wall is completed otherwise I am afraid the carpenters will leave to do other work and it will be difficult to get them back on the job.

I understand the Taylor Lumber Company at Virden have received several carloads of lumber and if the Department has not been successful in obtaining a satisfactory source of supply perhaps this company could be given consideration. I would appreciate having complete and definite information concerning this matter by air mail.

Construction of Oak River Indian Day School

With reference to your letter of September 18 and Colonel Neary's Signal of September 29, in connection with the Oak River School, I enclose Bill of Material for standard combined one classroom Indian day school and teacher's quarters. This was prepared by the Surveys and Engineering Branch.

From accounts received, the following have been purchased:-

(1) 276 yards of gravel,

(2) Shiplap for cribbing.

(3) Basement posts, centre beam, floor joists and other materials necessary to keep carpenters employed while cement sets.

The purchase of these items was authorized in my Army Signal of October 8.

In view of the purchases already made, and possibly you have found it necessary to secure other items,- we are not certain exactly what additional material we should request the Purchasing Branch to obtain. I would therefore appreciate it if you would let us have, as soon as possible, detailed information regarding the additional materials required, and if they can be secured locally please advise the name and address of the firm from whom they can be obtained and their approximate cost.

Re: Building Material - Oak River Indian Day School

In a letter from Mr. Young he reports the following purchases:

Vr. No. 65 - Beresford Lumber Co., Brandon $716.47
material supplied as follows:
6500 ft. shiplap
80 - 2 x 4-16
140-2 x 4-12
12- 2x8-12
12- 2 x 8 - 14
60- 2 x 4 - 14

Vr. No. 66 - Mr. J. Denbow, Brandon Total $364.00
(Excavating 276 yds.276.00)
(Trucking 88 yds. gravel 88.00)

Mrs. Mawer - purchase of 88 yds. gravel - 8.80
(not vouchered for as yet)

Vr. No. 68 Canada Cement Co. Winnipeg 650 bags $511.88

Corwin & Co. Winnipeg. Reinforcing iron, no bill as yet

Beresford Lumber Co. Brandon purchased Oct. 9, no bill as yet, but amounted to $151.93, detailed as follows:
22 - 2 x 8- 10
29 - 2 x 8- 12
54- 2 x 8- 14
2- 2 x 8- 16
10- 2 x 10- 12
3- 8 x 8- 10
8- 2 x 10- 16
4- 2 x 10- 18.

Wade & Sons Ltd., Brandon - Weeping tile - no bill as yet
Relfs Heating & Plumbing, Brandon - Sewer pipes - no bill
(Floor outlet and cast iron pipe)

I have to-day authorized Mr. Young to make the following additional purchases:

1. 2" x 2" - for bridge work
2. 1 x 8 Common boards for the rough flooring
3. All rafters and upstair floor joist

I would recommend the purchase of further shiplap, common boards and dimension material to be left for Mr. Young

to purchase. It is difficult to get and often only in small quantities but if Mr. Young is authorized to do so I think he could keep the carpenters going.

I would prefer cedar shingles to asbestos shingles due to the fact they will be subject to strong winds and under the circumstances cedar shingles I am sure will prove best. I think Mr. Young could get these if authorized to do so.

The Department could purchase all the paint, building paper and hardware. To date we have only purchased - 1 keg 2" nail, 1 keg 2" nails and 1 keg 3½" nails along with the coal shute and baling wire. The Department should also secure, without delay, all the millwork, interior trimming, windows and window frames also the siding for the outside. I doubt if siding is available. Taylor's at Virden have excellent clear spruce drop siding with a special 1/2" ton and 1/2" groove; if painted as soon as put on it should prove satisfactory.

Flooring is practically impossible to get. I do not know whether it could be obtained. Would the Department consider Battleship linoleum? Ply board could be nailed every four inches each way on top of the rough flooring to which would be glued a felt covering and on top of this Battleship linoleum would be glued.

I would also suggest that arrangements be made for the purchase of the furnace so that whoever secures the work will be available before the construction of the building is too far advanced.

Yours truly,

A. G. Hamilton,
Inspector of Indian Agencies
for Manitoba.

DEPARTMENTAL PURCHASING AGENT

Re: Oak River Indian Day School.

On authority received from the Deputy Minister, we are constructing a one room Indian day school with teacherage on the Oak River Reserve in the Griswold Agency.

You have already provided for the cement required for this building and I attach further accounts for excavation and gravel. Coding is as follows,- 529. 916-13-491.

Inspector Hamilton has recommended that the purchase of shiplap, common boards and dimension material be left for Mr. Young to purchase. It is difficult to get and often only in small quantities. If Mr. Indian Agent Young is authorized to do so, it is believed that he can keep the carpenters going.

Enclosed is a copy of a letter from Canon Norris, which is self-explanatory.

The estimate appears reasonable. I might say that for many years both the living and dining room were used for classroom purposes and, no doubt, both need decorating. The front hall has been in constant use all through the years and the floor is now in very poor condition. I think this request is justifiable and I recommend that either a grant be made in lieu of rent or that the repair work be carried out as requested. A reply concerning this matter will be appreciated.

Mr. A. G. Hamilton,

Dear Mr. Hamilton:

I am enclosing herewith an estimate for the repairs necessary to the St. Luke's Mission House in order to place the rooms at present used for the school in proper repairs. You will note the largest item is for the repairs to the floors. These are in quite bad shape. They have had to be oiled in order to keep the dust down, and are badly worn from the desks. The man we had examine them thinks that this is the only way to make them fit for living quarters again.

I would be grateful if you would recommend to the Indian Department that they should undertake this expenditure when the new school has been built, and perhaps you would point out to them that for over twenty-five years they have had the use of these rooms without rent, and we feel, therefore, that we are justified in requesting the Department to return them to us in a good state of repairs.

Yours sincerely,

I. A. Norris,
Secretary-Treasurer.

Re: St. Luke's Mission House
Your letter dated October 3/47

The St. Luke's Mission House is the Church of England residence which has been used for many years to carry on the school work on the Oak River Reserve.

We had no school building and, no doubt, through arrangements made many years ago a part of the Mission House was used for class room purposes. We are now building a school on the Oak River Reserve and when completed it will not then be necessary to use part of the St. Luke's Mission House. It is the rooms used for school purposes that Canon Norris would like repaired and decorated.

Yours truly,

A. G. Hamilton,
Inspector of Indian Agencies

Re: File No. 133-3-5 (AT) - October 21, 1947
Oak River Indian Day School

I have received a copy of the material the Purchasing Agent has been requested to purchase in connection with the new school on the Oak River Reserve, Griswold Agency. A few items listed have already been purchase and these should be deleted on the bill of material. The items are as follows:

30 Anchor Bolts
1 Coal Shute
873 Lineal Feet 5/8" diameter Reinforcing Iron
1300 sq. ft. Reinforcing Mesh
425 lbs. of Coal Tar Pitch
50 lbs. #10 Form Wire for crib work
40 ft.-0" Lin. ft. 3" Cast iron medium drain pipe
30 lbs. Lead for caulking plus oakum

The above material has all been purchased as it was essential for use during erection of the foundation.

Yours truly,

A. G. Hamilton,
Inspector of Indian Agencies
for Manitoba.

On October 27th I sent the following wire to Ottawa:

"PLEASE FORWARD MR YOUNG AIR MAIL ACCOUNTABLE ADVANCE SIX HUNDRED DOLLARS FOR PAYING INDIAN LABOUR ON NEW SCHOOL STOP CASH IS REQUIRED AS OFTEN THEY ONLY WORK A DAY OR TWO AND DEMAND IMMEDIATE PAYMENT"

A similar request was made in my letter dated August 14th and to date no money has been received by Mr. Young. The Indians can do a lot of work on this building but as they are not employed continuously they expect to be paid when their day's work is completed.

We are anxious to push the construction work along as quickly as possible, therefore, we need extra help. I again request that an accountable advance of at least $600.00 be sent by air mail to Mr. W. Young, Indian Agent, Griswold, Manitoba.

Re: Oak River Indian Day School, Griswold Agency

Approval in principle was granted to Mr. Hoey on or about August 23, 1947, to proceed with plans for the construction of above school on a day labour basis.

Mr. Neary now makes the following specific recommendation:-

(a) That we arrange for payment of the following accounts for material and services:-

(1) Maritime Housing, Ltd., Ottawa.
Nails $36.46

(2) Cowin & Co., Ltd.., Winnipeg.
Re-inforcing steel $168.59

(3) J. Benbow (Jack's Transfer)
Brandon, Manitoba.
Excavating 276 cu. yds.
Supplying 88 cu. yds. gravel $364.00

(b) That Indian Agent Young arrange for the purchase of the required shiplap, common boards and dimension lumber.

(c) That we call for tenders and arrange for purchase of the balance of the material detailed in attached requisitions.

May I now have your approval to carry out Mr. Neary's recommendations, in which I concur.

Mr. Young reports the framework of the school is almost completed and most of the walls sheeted outside with shiplap. We will need early next week building paper, siding, shingles and insulation material. May I please be advised the company supplying the above material and when we can expect the material. If possible I want to keep the carpenters working because if they leave to do other work it is difficult to get them back on the job. I trust the order has been placed with instructions for immediate delivery.

Again may I please be advised the name of the company receiving the order for the millwork, especially the windows and window frames. I wish to check in regard to size before same are made up.

Prompt advice concerning the above matters is essential and will be appreciated.

Dear Sir:-

Re building material for Oak River Indian Day School.

I am enclosing herewith original copies of purchase orders for the above as suggested by Indian Affairs Branch officials. These orders are based on acceptance of lowest or only tenders.

Unfortunately there were no quotations on the millwork covered by Requisition No. 3, but requisite approval has been granted authorizing you to make the best possible arrangement for local purchase of these supplies.

Similarly regarding requisition No. 2 for building hardware, there were a few items that Marshall-Wells Company, were unable to supply. Will you please arrange for the purchase and delivery of [redacted].

Griswold, Manitoba.

The Department finds it necessary to return your vouchers 85, 86, 87, 88 and 89.

Our records show that you have been forwarded an accountable advance of $600.00. This was intended to cover the payment of wages and it was presumed that you would pay wages and forward receipted pay lists. The pay lists which you have sent have not been receipted.

As the total amount of these pay lists amount to slightly over $800.00 we are arranging to forward you a third advance of $300.00 which will make a total of $900.00 and will allow you to pay the wages shown on the attached vouchers.

Regarding the Unemployment Insurance stamps, you should paste these in their Unemployment Insurance books and issue a credit voucher for the amount expended in this regard and this item will be credited against the advances that are being made.

Re: Oak River Indian Day School.

On authority received from the Deputy Minister, we are constructing a one room Indian day school with teacherage on the Oak River Reserve in the Griswold Agency.

You have already provided for the cement required for this building and I attach further accounts for excavation and gravel. Coding is as follows,- 529. 516-13-491.

Inspector Hamilton has recommended that the purchase of shiplap, common boards and dimension material be left for Mr. Young to purchase. It is difficult to get and often only in small quantities. If Mr. Indian Agent Young is authorized to do so, it is believed that he can keep the carpenters going.

Please find attached requisitions covering,-

(1) Paint
(2) Building Paper and Hardware
(3) Mill Work
(4) Furnace
(5) Plumbing
* (6) Lumber
(7) Masonry

* It is understood that the Taylor Lumber Company at Virden has most of these items in stock.

Re: Purchase Order #24392 -
Furnace for new school, Griswold Agency

I am advised that the firm of Neale, Stothard & Chapman, Brandon, who quoted a price of $567.84 on the furnace required for the new school at Griswold are not prepared to install the furnace. They claim their price covered only the materials.

Please advise what arrangements the Department has made to have the furnace installed after it has been supplied. I am of the opinion it will be difficult to get qualified men to install the furnace and I wondered if it would not be advisable to call for a quotation on a furnace installed as per specifications. The matter is urgent and an immediate reply is requested.

I am returning the above numbered vouchers, and request that payment be made from your office. This is for white labour, and I have no schedule for Income Tax deductions.

The Oak River Day School is not near completion, and there will still be considerable wages. I would prefer to forward labour sheets and vouchers, to be paid through your office for wages for white carpenters, every two weeks.

I had asked for an accountable advance of $600.00 in order to pay Indian labour. Of this amount $314.00 has already been paid out to Indians, and I feel that the balance will be sufficient to pay any further Indian labour.

Griswold, Man.

9th December, 1947.

The Right Honourable
J. E. Matthews, M.P.,
The House of Commons,
[illegible].

Dear Mr. Matthews:

I was very sorry to have been off the Reserve when you called in the summer. I wanted to thank you personally for your help in building us a school here. You will be interested to know that Mr. Robertson is making good progress with the building, and that he is hoping to have it completed in the Spring. I think the Dept. have done well to get the services of such an able and hard working man.

The new school will be ideal for the use of visual educational methods as outlined in the Indian School Bulletins sent to us from time to time by the Dept. I personally am very interested on the use of visual aids, and I am sure the Dept. will be interested to know that I have the use of a projector and screen. Also I am able to have the use of some very good films for the small charge of 25 cents for one showing. This of course will not be any expense for them to meet. All this is not much use unless we have the Hydro or the use of power plant which is established in the Agency. The good news is that the Hydro is now right on the edge of the Reserve - to be accurate just a mile and a quarter to the Mission Compound. I have been in correspondence with the Power Commission in Winnipeg, and they inform me that they would be glad to make the Hydro available to us providing the Dept. of Indian Affairs will be included.

I am wondering if you would be kind enough to show this letter or pass the contents of it to some of the officers in the Department with a request that they will give permission to have the Hydro installed in the school; we of course would be responsible for the Mission House, and other property. If the Department could not see their way clear to do this would they be kind enough

to make available to us the power from the Agency in both school and house.

If we are to realize the ambition of the Department to make the Indian citizen proud of his origin and cultural heritage, education of every type must be utilized in both school and community. Visual aid offers us a splendid opportunity to teach every person on the Reserve the art of modern life, with all its complexities.

With kind regards, and all good wishes,

Yours very sincerely,

Albert E. Kemp.

OUR MOTTO

Jesus Christ the same yesterday, today, and forever. Hebrews 13:8

November 1947

Dear Friends:

During the past few weeks we have been giving a series of addresses on "The Life of a Christian" - its beginnings, resources and characteristics. We have noted that one of the outstanding characteristics of the loyal follower of Jesus Christ should be faithfulness - even unto death, if that should be the alternative of being disloyal to our Lord. How many of us who call ourselves Christians could be sure that our gratitude to Him, our Saviour, is such that we are prepared to face not death, but to live devotedly in His service?

So often today the Christian fails to demonstrate his belief in God because he is too worried about his own peculiar problems. Alternatively, the present chaotic state of the world results in his being preoccupied rather than concentrating fully to train himself to work selfishly and pray unceasingly that Christ's Kingdom be established. How many of us could claim sincerely that we try to live and order our lives to serve God fully in the fellowship of His Church?

A loyal Christian today, as in the past, must take to heart the words of St. Paul, "Thou therefore endure hardness as a good soldier of Jesus Christ." 2 Timothy 2:3. We know we cannot endure hardness for Christ unless we ask God's help, and unless we are prepared to confirm that prayer by an invincible determination to serve the Son of God who loved us and gave Himself for us. The hour of destiny is at hand and only those who work devotedly and humbly and faithfully can hope to endure unto the end and be saved. May God grant us faith and strength for His service now and at all times in the future.

Yours very sincerely,

J. E. Kemp

NOTES AND NEWS

Monday Nov. 3rd at 8 p.m. in St. Matthews Pro-Cathedral, Brandon, a fellowship evening for all the laymen in our Deanery is being arranged. Will all men of our Parishes make an earnest endeavour to be present? The Rev. J. Barnett of Camp Shilo will be the guest speaker, and the ladies will supply a lunch.

St. Albans W.A. will meet at the home of Mrs. Percy Wallace on Tuesday Nov. 4 at 3 p.m.

We shall remember the work of the Church Army in our prayers on Sunday Nov. 9th.

A Deanery Sunday School Teachers' Conference is arranged for Monday Nov. 10th to be held in St. Matthew's Pro-Cathedral. The speaker will be the Rev. L.F. Wilmot of Winnipeg.

The Congregational Fellowship in connection with St. Paul's Alexander will be held on Wednesday Nov. 12th in the I.O.D.E. Hall.

St. Paul's Ladies Guild will meet on Tuesday Nov. 18 in the home of Mrs. Humphreys.

The Annual Sale of work at St. Albans will be held on Saturday Nov. 29th in the Parish Hall. The Ladies Guild will be in charge of this effort.

The Young People's Fellowship on the Reserve meet every Sunday evening in the Mission House from 4:30 to 6 p.m. All young people are invited to join us at this fellowship.

Every Tuesday evening at 8 p.m. a meeting for Bible Study and Prayer is held in the basement of St. Luke's Mission.

Sunday School will commence on the Reserve on Sunday Nov. 2nd at 3 p.m. All children are invited to come along to school each Sunday.

It is with very much regret that we learn that Mr. T. Kidd of St. Paul's is laid aside. We wish him a very speedy recovery.

The Harvest Thanksgiving Service at St. Luke's Mission was a huge success. The Church was crowded to capacity and several people went home not being able to gain admission. We are sorry about this but next year we hope to remedy it.

Ottawa, December 16, 1947.

Dear Mr. Matthews:-

I have informed the Indian Affairs Branch officials concerning the letter which you have received from Reverend C. C. Kemp, St. Luke's House, Sioux Indian reserve, Griswold, Manitoba. They will take up the matter of installing yard power in the Indian school with their local officials.

When a report is received as to the estimated cost of the installation, I will advise you further as to what action can be taken concerning the Reverend Mr. Kemp's request.

Yours sincerely,

FTH

Re: Hydro Power - Griswold Agency
Re: File No. 133-3-5 (MT.) - December 17, 1947.

The enclosed map shows the location of the Agency buildings and the road allowance along which the power line runs. The distance from the Agency buildings to the line is about one and a half miles. If power were made available it would likely be used -

1. At the Agency
2. New Day School
3. Church of England House and Church
4. Perhaps the Catholic Mission would also use it in their Church.

I have no idea of the cost of service but, no doubt, the building of the line would cost in the neighborhood of $1000.00 per mile and to wire the Agency buildings would cost perhaps $150.00 each.

The Delco plant now in use at the Agency is too small and badly worn. Installing of the Hydro power would eliminate the purchase of a new lighting plant and batteries and over a period of years might prove less expensive than our present system. I would recommend the change to Hydro be given favourable consideration.

Please return the map when it has served your purpose.

Yours truly,

A. G. Hamilton,
Inspector of Indian Agencies
for Manitoba.

Re: Hydro Power - Griswold Agency.

With reference to your letter of January 10th dealing with the above matter and the attached blue print, I would say that before the department can give this matter further consideration, it will be necessary for you to get in touch with the Hydro Electric Power Commission and ascertain definitely whether it would be necessary for the department to build the hydro electric power line from the road allowance along which the power line runs to our agency buildings or whether the Hydro Electric Power Company would be prepared to build the line themselves. If the former, you should ascertain the cost and all details as to the charges for power when connected up. Are there any other persons along the mile and half of road between the highway and the agency buildings who would be taking power and who might co-operate in the construction of the line? Please let me have a full report after which the matter will be given further consideration.

As requested I am returning to you the blue print.

Enclosure
